Schenectady, *N.Y.*, an E. co., traversed by the Mohawk R. and the Erie Canal; area, 200 sq. m. The surface is hilly; the soil in the valley of the Mohawk is very fertile. The chief prod. in 1880 were 310,684 bush. of oats, 152,552 of corn, 68,152 of buckwheat, 52,152 of rye, 22,802 of barley, and 12,263 of wheat; butter and potatoes are also staple prod. Cap., Schenectady. Val. of taxable prop. \$8,737,628. Pop. 23,558 (of whom 3,750 for., and 162 colored). — a city ♦, cap. of above co., on Mohawk R., and Erie Canal, and on D. & H. C. Co. and N. Y. C. & H. R. R.R.s., 17 m. N.W. Albany. It is the seat of Union College one of the oldest and most successful in the State, and has first-class graded schools with academical department and preparatory school for boys for col-

lege. Among its manuf. establishments are large locomotive-works, the Washington agricultural works, forge works, 2 foundries, a shawl-factory, knitting-mills, sash, door, and blind factory, 3 planing-mills, varnish-factory, and 2 carriage factories. The city is supplied with water by the Holly system, is lighted with gas, has 1 nat. and 2 other banks, 1 daily and 4 wkly papers. Masons, Sons of Temperance, and I. O. of O. F. have lodges here. There are public halls, 1 park, and a State armory. It is one of the oldest settlements in the State (1661); was burned and nearly all its inhabitants massacred by French and Indians in the winter of 1690, and was incorporated as a city in 1798. Pop. 13,655.

Schenevus, *N.Y.*, p.v. ♦ in Maryland tp., Otsego co., on Schenevus Creek, 67 m. W. by S. from Albany by D. & H. C. Co.'s R.R. It has a graded school, a bank and a wkly paper. Pop. 650.

Schenley Station (*shen'le*), *Pu.*, p.v. in Alleghany tp., Armstrong co., on A. V. R.R., 14 m. S.W. Kittanning. Pop. 68.

Scheperville, *Ind.*, p.o., Bollinger co.

Scherer ville, *Ind.*, p.h., Lake co., 7 m. N.W. Crown Point. Pop. 100.

Schiller, *Wis.*, p.o., Brown co.

Schilling, *W. Va.*, p.o., Roane co.

Schlaterville, *Ga.*, p.h., Pierce co., 50 m. W. of Brunswick by B. & A. R.R. Pop. 100.

Schleisingerville, *Wis.*, p.v. in Polk tp., Washington co., 33 m. N. of Milwaukee by C. M. & St. P. R.R. It has an organ factory, a foundry, a brewery, and a brick yard. Pop. 358.

Schleswig, *Wis.*, tp., Manitowoc co. P. 2,069.

Schley (*shli*), *Ga.*, a S.W. co., drained by branches of Flint R.; area, 180 sq. m. The surface is nearly level, and a large part of it is covered with forests; the soil is fertile. The chief prod. in 1880 were 99,188 bush. of corn, 12,408 of oats, 12,410 galls. of molasses, and 4,945 bales of cotton. Cap., Ellaville. Val. of taxable prop. abt. \$1,000,000. Pop. 5,302 (of whom 3,073 colored).

Schlichter, *Pu.*, p.v. in Roekville tp., Bucks co., 1½ m. N.W. Sellersville Station. Pop. 85.

Schluersburg (*shuers-burg*), *Mo.*, p.h. in Femme Osage tp., St. Charles co., 23 m. S.W. St. Charles. Pop. 28.

Schnecks'ville, *Pu.*, p.v. in North Whitehall tp., Lehigh co., 5 m. from Rockdale Station. Pop. 160.

Schneider, *Neb.*, tp., Buffalo co. Pop. 244.

Schnellville, *Ind.*, p.h. in Jefferson tp., DuBois co., 12 m. S.E. Jasper. Pop. 60.

Schochoh, *Ky.*, p.o., Logan co.

Schock's Mills, *Pu.*, p.v. in East Donegal tp., Lancaster co., on Penn. R.R., 19 m. W. of Lancaster. Pop. 200.

Schodack, *N.Y.*, tp., Rensselaer co. P. 4,319.

Schodack Centre, *N.Y.*, p.v. in Schodack tp., Rensselaer co., 6 m. S. of Albany. Pop. 80.

Schodack Depot, *N.Y.*, p.v. in Schodack tp., Rensselaer co., 2 m. from Castleton. Pop. 150.

Schodack Landing, *N.Y.*, p.v. in Schodack tp., Rensselaer co., on Hudson R., 14 m. S. of Albany by N. Y. C. & H. R. R.R. Pop. 401.

Schoeneck, *Pu.*, p.village in West Cocalico tp., Lancaster co., 16 m. N.E. Lancaster. P. 250.

Schoffner's Corners, *Pu.*, p.h. in Polk tp., Jefferson co., 14 m. N.E. Brookville. Pop. 50.

Schofield, *Wis.*, p.v. in Weston tp., Marathon co., on Eau Claire R., 5 m. S.W. Wausau by M. L. S. & W. R.R. (Weston Station). Manuf., lumber. P. 250.

Schoharie (*sko-har'ree*), *Kan.*, p.o., Ness co.

Schoharie, *N.Y.*, an E. co., drained by Schoharie and Catskill Creeks; area, 650 sq. m. A branch of the Catskill Mts., occupies the S. and W. part, and a ridge called the Helderberg Mts., extends along the E. border. Iron ore, limestone, and sand-

stone are found, and there are sulphur springs in the N.W. The chief prod. in 1880 were 727,630 bush. of oats, 217,506 of corn, 293,443 of buckwheat, 80,467 of wheat, 76,628 of rye, and 30,157 of barley; butter, hops, potatoes, wool, flax, and hay are also largely produced. Cap., Schoharie. Val. of taxable prop. \$8,268,255. Pop. 32,939 (of whom 740 for., 461 colored, and 20 Indians).

—p.v. in Schoharie tp., cap. of above co., near the confluence of Fox's and Schoharie Creeks, 40 m. (by rail) W. of Albany. It is the N. terminus of the M. & S.R.R. It has an academy, 2 wkly papers, and a nat. bank. Pop. 1,188; of tp. 3,350.

Schoharie Creek, N.Y., rises among the Catskill Mts., in Greene co., flows N. for 100 m. through Schoharie co., and enters the Mohawk in Montgomery co. This large stream and its tributaries afford extensive water-power.

Scholl's Ferry (*sholtz*), Oreg., p.o., Washington co.

Schollville, Ky., v. in Kiddville tp., Clark co., near Hedges Station. Pop. 118.

Schoodic Lakes, Me. These lakes are abt. 12 in number, lying in the N. part of Washington co., and from them issue the Schoodic, or W. branch of the St. Croix R. The most E. of these lakes is called the Big Lake. It is of a very irregular form, and abt. 9 m. in length. It is connected by a very rapid stream, 3 m. long, with Grand Lake. (See GRAND LAKE.) Beyond this, on the S.W. is Pocumens Lake, 4 m. long, and the Waboois, 3 m. long. In a W. direction lies the Sie-la-dob-sis, 10 m. in extent. Farther N. is the Horseshoe Lake, so called from its form; also the Junior Lake, 6 m. long. Still farther on is the Scragged Lake, of an irregular shape; also the Pleasant Lake, 5 m. long, with some others of less size. These are all connected by considerable-sized streams, and, except between the Big and Grand Lakes, there is a continuous boat navigation of nearly 100 m. in extent. The surrounding country is very fertile and well wooded.

School (*skool*), Ill., p.o., White co.

Schoolcraft, Mich., a central co. of the upper peninsula, bounded N. by Lake Superior and S. E. by Lake Michigan; area, 2,030 sq. m. It is drained by the Manistique R. and other streams. The surface is rough and broken, and mostly covered with dense forests of pine. Lumbering is the chief occupation. The "Pictured Rocks" are in this county, on the S. shore of Lake Superior. Cap., Onota. Pop. 1,575 (of whom 675 for., and 134 Indians).

—tp., Houghton co. Pop. 2,645.
—p.v. and tp., Kalamazoo co., 13 m. S. of Kalamazoo by L.S. & M.S.R.R. It has a union school, a bank, a wkly paper, a grain elevator, a large flouring mill, and saw and planing mills. Principal business, farming. Pop. 951; of tp. 2,284.

Schoolcraft, Neb., tp., Madison co. Pop. 533.

School Creek, Neb., tp., Clay co. Pop. 803.

Schoolcy's Mt., N.J., p.v., Washington tp., Morris co., on a high plateau, abt. 1,200 ft. above sea level, 20 m. W. of Morristown, and 3 m. from Hackettstown Station. It is one of the most pleasant and healthy summer resorts in the U. States. P. 335.

Schoolcy's Station, O., p.h., Ross co., on M. & C.R.R., 8 m. S.E. Chillicothe. ✠

School Hill, Wis., p.o., Manitowoc co.

School House Station, Cal., p.o., San Mateo co.

Schooner cr, Ind., p.h., Brown co., 4½ m. from Nashville. Pop. 30.

Schooner Point, Ind., p.o., Crawford co.

Schraafenburg, N.J., p.v. in Palisade tp., Bergen co., on J.C. & N.A.R.R. Exports, fruit and produce. Pop. 507.

Schroepffel (*skroo'pel*), N.Y., tp., Oswego co. Pop. 3,381.

Schroon, N.Y., tp., Essex co. It contains several peaks of the Adirondacks, among which Schroon Mt., abt. 3,200 ft. high, near Schroon Lake. P. 1,731.

Schroon Lake, N.Y., p.v. in Schroon tp., Essex co., 15 m. from Riverside Station, at the N. end of a lake of same name, 10 m. long and from 1 to 2 wide, which is an expansion of Schroon R., flowing S. empties into the main branch of the Hudson in Warren co. The village is a favorite summer resort. Pop. 324.

Schroon River, N.Y., p.h., Essex co., on above river, 17 m. W. of Port Henry. Pop. 125.

Schnlenburg, Tex., p.v. & p.o., Fayette co., 25 m. W. of Columbus by G., H. & S.A.R.R. It has 2 banks, a wkly paper, and several factories. Exports, cotton. Pop. 719.

Schultz, S. C., tp., Aiken co. Pop. 2,441.

Schultz, W. Va., p.o., Pleasants co.

Schultz Mills, Ill., p.o., Greene co.

Schultzville, N.Y., p.h. in Clinton tp., Dutchess co., 7 m. from Rhinebeck. Pop. 40.

Schultzville, Pa., p.v. in Newton tp., Lackawanna co., 4 m. S. of Glendon. Pop. 119.

Schumm, O., p.o., Van Wert co.

Schuyler (*ski'ler*), Ill., a W. co., bordered S.E. by Illinois R. and S.W. by Crooked Creek; area, 430 sq. m. The surface is undulating and the soil excellent. The chief prod. in 1880 were 1,554,725 bush. of corn, 440,654 of wheat, and 151,806 of oats; also butter, cattle and pork. Cap., Rushville. Val. of taxable prop. abt. \$9,000,000. Pop. 16,249 (of whom 557 for.).

Schuyler, Mo., a N.E. co., bordering on Iowa, bounded W. by Chariton R. and drained by the N. fork of Salt R. and the head streams of Fabius R.; area, 340 sq. m. The soil is rich, and the surface diversified by woodland and prairie. The chief prod. in 1880 were 1,087,370 bush. of corn, 230,508 of oats, 38,058 of wheat, and 32,252 lbs. of tobacco. Cap., Lancaster. Val. of taxable prop. abt. \$8,000,000. Pop. 10,470 (of whom 338 for.).

Schuyler, Neb., p.v. & p.o. in Schuyler tp., cap. of Colfax co., on Platte R., 76 m. W. of Omaha by U.P. R.R. It has a graded school, 2 banks, 2 wkly papers, and is a centre of trade for several agricultural cos. Pop. 1,017; of tp. 1,377.

Schuyler, N.Y., a S.W. co.; area, 400 sq. m. The southern portion of Seneca Lake and Little Mud, and other small lakes, are within its borders. It is traversed by the Chemung Canal. The surface is hilly and the soil fertile. The chief prod. in 1880 were 313,419 bush. of barley, 311,254 of oats, 275,194 of corn, 149,779 of wheat, 102,439 of buckwheat, and 12,389 of rye; butter, cattle and wool are also staple prod. Val. of taxable prop. \$5,806,099. Pop. 18,842 (of whom 900 for., and 190 colored).

—tp., Herkimer co. Pop. 1,452.

Schuyler's Falls, N.Y., p.h. and tp., Clinton co., on Salmon R., 8 m. S.W. Plattsburg. Pop. of tp. 1,640.

Schuyler's Lake, N.Y., p.v. in Exeter tp., Otsego co., 8 m. N.W. Cooperstown at the outlet of a lake of same name, which is the source of the East branch of the Susquehanna R. Pop. 265.

Schnyersville, N.Y., p.v. in Saratoga tp., Saratoga co., on Hudson R., crossed by a bridge and on Champlain Canal, 20 m. N. of Troy. It has a graded school, a nat. bank, a wkly paper and several mills and factories. Pop. 1,617.

Schuykill, Pa., a river, rises by three principal branches in Schuylkill co. and flowing S.E. enters the Delaware 7 m. below Philadelphia. It is abt. 140 m. long. The most important of its tributaries are Tulpehocken Creek, from the W. and Perkiomen Creek from the E. Vessels of from 300 to 400 tons ascend to the W. wharves of Philadelphia, where its average depth at common tide is from 13 to 14 ft. By means of dams and locks, it is navigable 108 m.

from Fairmount Dam, above Philadelphia, to Port Carbon, in Schuylkill co.

—an E. co., drained by Schuylkill R., bounded S.E. by Kittatinny, or Blue Mt. and traversed by the Broad and Locust, Sharp and Mahanoy Mts. all abounding in rich deposits of anthracite coal and iron; area, 840 sq. m. The surface is very mountainous, and the soil except along the streams generally poor. The chief prod. in 1880 were 376,516 bush. of corn, 275,405 of oats, 136,900 of rye, 117,300 of wheat, and 40,896 of buckwheat. About 4,000,000 tons of anthracite coal are annually mined. Cap., Pottsville. Val. of taxable prop. abt. \$100,000,000. Pop. 129,977 (of whom 26,146 for., and 358 colored).

—p.h. and tp., Chester co., 1 m. N.E. Phoenixville Station. Pop. of tp. 1,416.

—tp., Schuylkill co. Pop. 521.

Schuylkill Haven, Pa., p. borough, Schuylkill co., on P.&R.R.R., 4 m. S. of Pottsville. The inhabitants are chiefly a coal-mining community and coal is abt. the only export. Pop. 3,052.

Schwedt, Neb., p.o., Stanton co.

Schwenksville, Pa., p.v. in Frederick and Perkiomen tps., Montgomery co., on Perkiomen branch of P.&R.R.R., 12 m. N.W. Norristown. P. 303.

Science Hill, Ky., p.h., Pulaski co., 38 m. S. of Danville by C., N.O. & T.P.R.R. Pop. 150.

Science Hill, La., p.o., St. Landry parish.

Science Hill, N.C., p.o., Randolph co.

Scienceville, Ga., tp., Stewart co. Pop. 943.

Scio, Kan., p.o., Rawlins co.

Scio, Mich., p.h. and tp., Washtenaw co., on Huron R., 7 m. N.W. Ann Arbor. Pop. of tp. 2,291.

Scio, N.Y., p.v. and tp., Alleghany co., on Genesee R. and N.Y., L.E. & W.R.R., 4 m. N. of Wells-ville. Pop. 419; of tp. 1,555.

Scio, O., p.v. in North tp., Harrison co., on P., C. & St. L.R.R., 33 m. W. of Steubenville. Pop. 509.

Scio, Ore., p.v., Linn co., 20 m. S. of Salem. Pop. 193; of tp. 1,144.

Scio'sa, Iowa, p.h., Montgomery co. on West Nodaway R., 8 m. N. of Villisca Station. Pop. 100.

Sciotia, Ill., p.v. and tp., McDonough co., on W., St. L. & P.R.R., 10 m. W. of Bushnell. Exports, grain. Pop. 350; of tp. 1,502.

Sciotia, Mich., tp., Shiawassee co. Pop. 1,565.

Sciotia, Minn., tp., Dakota co. Pop. 276.

Sciotia, N.Y., p.v. in Chazy tp., Clinton co., 15 m. N. by W. from Plattsburg by D. & E. C. Co.'s R.R. P. 228.

Sciotia, Pa., p.v. in Hamilton tp., Monroe co., 8 m. S.W. Stroudsburg. Pop. 100.

Sciotavale, Pa., p.h. in Wilmot tp., Bradford co., 11 m. S. of Wyalusing Station. Pop. 45.

Sciotto, O., a river, and one of the principal tributaries of the Ohio R.; rises in Hardin co., near the source of the Miami R., flows S.E. to Columbus, where it receives the Olentangy R., and thence flows S. to Portsmouth, where it joins the Ohio after a course of abt. 280 m. Its valley is one of the richest and best cultivated portions of the State.

—a S. co., bounded S. by the Ohio R. and watered by the Scioto and Little Scioto Rs.; area, 640 sq. m. The surface is uneven and the soil fertile. In the E. part of the co. iron is plentiful, and large furnaces and foundries are in operation. The chief prod. in 1880 were 1,233,420 bush. of corn, 245,504 of wheat, and 166,070 of oats. Cap., Portsmouth. Val. of taxable prop. \$10,414,621. Pop. 33,511 (of whom 2,943 for., and 1,157 colored).

Scranton, *Pu.*, a city, cap. of Lackawanna co., on Lackawanna R., and on the D., L. & W., the D. & H. C. and C. of N. J. R.R.s, 162 m. N. of Philadelphia, is the 3rd city in size and importance in Pa., and the largest coal-mining centre in America. Its prosperity is mainly due to the enormous area of the finest coal deposits in the world, which underlie the whole of this vicinity, but it owes much also to its immense rolling-mills and steel-works, its furnaces, its iron-works for manuf. rails, locomotives, and mining machinery, unequaled in this country. It manufactures brass and iron casting, coal screens and sieves, huge steam-boilers, stoves and hollow-ware, files, coaches and carriages, edge-tools, glass, powder, silk, flour, vinegar, lumber, &c. The appearance of the city is as a whole attractive. It is lighted by gas, has excellent water-works, an efficient fire department, a public library, fine theatre, a large public hall, a driving park, and the largest collection of Indian Stone relics in the world. The most noteworthy buildings are the Academy of Music, armory hospital, home for the friendless, and Catholic cathedral. There are abt. 50 churches, excellent public schools, several academies, 2 nat. and 6 other banks, and 2 daily and 10 wkly papers. The 4th, 5th, 6th, 14th, 15th, and 18th wards of this city are known as HYDE PARK, and the 1st, 2d and 3d wards as PROVIDENCE. Pop. in 1860, 35,092; in 1880, 45,850.
Scranton, *S. C.*, p.v., Williamsburg co., 20 m. S. of Florence by N. E. R.R. Pop. 125.
Scranton, *Wis.*, p.h. in Dexter tp., Wood co., 22 m. W. of Grand Rapids by G.B., W. & St. P. R.R. Pop. 48.
Scranton Station, *Iowa*, p.v. in Kendrick tp., Greene co., on C. & N. W. R.R., 110 m. W. of Council Bluffs. It has a graded school, a bank, and a wkly paper. Exports, grain and stock. Pop. 725.
Scrap, *Ala.*, p.o., Jefferson co.
Screven, *Ga.*, p.h., Wayne co., 68 m. S.W. Savannah by S., F. & W. R.R. Pop. 75.
Scriba, *N. Y.*, p.v. and tp., Oswego co., 4 m. E. of Oswego. Pop. of tp. 2,971.
Scribner, *Nb.*, p.v. in Pebble tp., Dodge co., on Elkhorn R., 23 m. N.W. Fremont by S. C. & P. R.R. Pop. 193.
Scriven, *Ga.*, an E. co., bordering on S. C., bounded E. by the Savannah R., and S.W. by the Ogechee; area, 720 sq. m. The surface is level and the soil sandy. Pine timber is exported largely. The chief prod. in 1880 were 180,215 bush. of corn, 35,347

of oats, 35,756 galls. of molasses, 8,166 bales of cotton, and 235,184 lbs. of rice. Cap., Sylvania. Val. of taxable prop. abt. \$1,000,000. Pop. 12,786 (of whom 6,613 colored).

Seneca Castle, N. Y., p.v. in Seneca tp., Ontario co., 10 m. from Albany by N. Y. C. & H. R. R.R. Pop. 149.

Seneca Falls, N. Y., p.v. and tp., Seneca co., on the outlet of Seneca Lake and the Cayuga and Seneca Canal, 16 m. W. of Auburn by N. Y. C. & H. R. R.R. There are beautiful falls in the river at this point, affording excellent water-power, which is employed in the manuf. of agricultural implements, steam fire engines, woollens, pumps, flour, machinery, &c. Seneca has an academy, a nat. bank, and a semi-wkly and a wkly paper. Pop. 5,880; of tp. 6,853.

Seneca Lake, N. Y., is the largest of that series of beautiful lakes lying in the interior of Western New York. It is 40 m. long, and varies in width from 2 to 4 m. Its elongated diameter is nearly from N. to S. The elevation of its surface is 431 ft. above tide water. About midway, upon the W. shore, it receives the outlet of Crooked Lake, which lies abt. 6 m. to the S.W. elevated 265 ft. above. Its own outlet is at its N.E. angle, and flows E. abt. 12 m. to Cayuga Lake, affording a fine water-power at Waterloo, and also at Seneca Falls. The whole descent, in 12 m. is abt. 80 ft. At the falls the water descends 47 ft. over 4 dams. Seneca Lake is very deep, and consequently is never entirely frozen over; 12 m. from its outlet, it has been ascertained to be 560 ft. deep. It is connected by a canal with Crooked Lake. Its outlet is also made navigable by locks at Waterloo, connecting its commerce with that of the Erie Canal. Upon the lake itself steamboats run regularly through from Geneva, near its foot, to Jefferson at its head.

Seneca River, N. Y., is the outlet of Seneca Lake, from the N. end of which it flows E. abt. 12 m. to the N. end of Cayuga Lake. Receiving the waters from this lake, it turns N. until it meets with a stream formed by the outlet of Canandaigua Lake, and other small tributaries coming from the W.; after which it flows E. again, receiving other tributaries successively from the outlets of Owasco, Skaneateles, and Onondaga Lakes, until it meets that of the Oneida Lake, where, turning to the N.W. it becomes the Oswego R. and flows into Lake Ontario, at Oswego. Its course is abt. 60 m. from Seneca Lake to its confluence with the Oswego. It is rendered navigable by a canal and locks to the Erie Canal at Waterloo.

Senecas, one of the tribes of Iroquois, or Six Nations of Indians of Western New York, the most numerous and warlike of that confederacy. They still occupy in N. Y. the Alleghany, Cattaraugus, and Tonawanda reservations (66,000 acres), but white settlers have encroached so that there are thriving towns there. They number abt. 3,000 and there is besides a band of abt. 200 living in the Ind. T. on the Neosho.

Senecaeville, O., p.v. ♦ in Richland tp., Guernsey co., 10 m. S.E. Cambridge. Pop. 402.

Severe, Ala., tp., Perry co. Pop. 1,006.

Severn, Md., a river of Anne Arundel co., rises near the centre of the co., flows S.E. and empties into Chesapeake Bay just below Annapolis.

—p.o., Anne Arundel co.

Severy, Kan., p.o., Greenwood co.

Sevier, Ark., a S.W. co., bordering on the Ind.

Ter. and bounded S. by Little R.; area, 550 sq. m. The surface is diversified and the soil moderately fertile. The chief prod. in 1880 were 158,839 bush. of corn, 12,693 of oats, and 3,075 bales of cotton. Cap., Lockesburgh. Val. of taxable prop. abt. \$1,800,000. Pop. 6,192 (of whom 1,095 colored, and 8 Indians).

Sevier, Tenn., an E. co., bordering on N.C. and traversed by French Broad and Little Pigeon R.s.; area, 520 sq. m. Much of the surface is mountainous and the soil along the streams is fertile. Limestone and iron ore abound. The chief prod. in 1880 were 493,885 bush. of corn, 89,499 of wheat, and 53,274 of oats. Cap., Sevierville. Val. of taxable prop. abt. \$3,000,000. Pop. 15,541 (of whom 693 colored).

Sevier, Utah, a river which rises in Iron co., by several branches which unite near Junction, Piute co. It then pursues its N. course through the E. part of Sevier, San Rete and Juab cos., and then turning S.W. enters Sevier Lake in Millard co. Sevier Lake is a body of salt water lying in Millard co., Utah, 120 m. S.S.W. Great Salt Lake; altitude above the ocean 4,600 ft. Its length N. and S. is 20 m., its width 10 m., and its area 140 sq. m. Its surface is not interrupted by an island. It has no outlet, and its sole tributary is Sevier R., which enters the N. end. The valley which contains the lake is an arm of the Sevier desert, and is uninhabitable by reason of the absence of fresh water. It is walled at the W. by the House range of mountains, and at the E. by the Beaver Creek range, and it opens northward to the desert. The shores of the lake are low and treeless, and desolate in the extreme. The soil saline and pulverulent, and sustains only a scanty growth of low bushes.

— an E. co., bordering on Col., and intersected by Green and Grand R.s.; area, 1,700 sq. m. The W. part is crossed by the Walsatch Mts., and watered by Sevier R. The chief prod. in 1880 were 70,528 bush. of wheat, and 52,245 of oats. Cap., Richfield. Val. of taxable prop. abt. \$400,000. Pop. 5,138 (of whom 1,539 for., 24 Chinese, and 4 Indians).

Sevierville, Tenn., p.v. in Sevierville tp., cap. of Sevier co., at confluence of the two Pigeon R.s., which afford good water-power, 25 m. E. of Knoxville. Pop. 253; of tp. 1,401.

Seville (*see sil*), *Fla.*, p.o., Volusia co.

Seville, Ill., p.h. in Harris tp., Fulton co., on Spoon R., 45 m. W. of Peoria. Pop. 80.

Seville, Mich., p.h. and tp., Gratiot co., 8 m. W. of St. Louis by C.S.&C.R.R. Chief business, lumbering. Pop. of tp. 1,216.

Seville, O., p.v. in Guilford tp., Medina co., 27 m. N.W. Madison by C.T.V.&W.R.R. It has 2 banks, a union school and a wkly paper. Pop. 589.

Seville, Va., p.o., Madison co.

Swansea (*see wuh'nee*), *Tenn.*, p.v. in Franklin co., on Tennessee Coal R.R., 15 m. N.E. Winchester, is situated on the Cumberland plateau, 2,000 ft. above tide water, and is a summer resort for invalids and others seeking pure atmosphere. It is the seat of the University of the South, an Episcopal theological institution. Coal is extensively mined here. Pop. 275.

Seward, Ga., p.o., Montgomery co.

Seward, Ill., tp., Kendall co. Pop. 1,012.

— tp., Winnebago co. Pop. 1,111.

Seward, Ind., tp., Kosciusko co. Pop. 1,421.

Seward, Kan., an unorganized S.W. co., bordering on Ind. T.; area, 648 sq. m. The surface consists of rolling prairies. Pop. 5.

— p.tp., Stafford co. Pop. 399.

Shawnee-haw, N.C., tp., Watanga co. P. 463.

Shawnee Mound, Ind., p.o., Tippecanoe co.

Shawnee Mound, Mo., p.o., Henry co.

Shawnees, an erratic tribe of the Algonquin family of Indians first known on the banks of Fox R., Wis., in 1684. In 1811 their celebrated leader Tecumseh attempted to form a confederacy of all the N.W. Indians against the whites, but his gathering forces were routed by Gen. Harrison at Tippecanoe, Nov. 7. They now number abt. 1,600 souls, some of them living with the Saes and Foxes, a few with the Quapaws, and others with a band of Senecas. Missions have long been maintained among them by the Methodists, Baptists, and Quakers, and most of them have become civilized.

Shoshone (*sho-sho-ne*), *Idaho*, a N. co., bounded S. by the Clearwater R. and intersected in the N. by Clarke's fork of the Columbia and the Kootenay Rs.; area, 5,950 sq. m. It is watered by tributaries of the Clearwater R. and by the Spokane R. and contains Cœur d'Alène and Pend d'Oreille Lakes. The surface is mountainous. There is fertile land around the lakes and along the streams. Timber is abundant and there are extensive placer gold mines. Cap., Pierce City. Pop. 469.
Shoshone Agency, *Wyo.*, p.o., Sweetwater co.
Shoshone Falls. See SNAKE RIVER.
Shoshone Mts., *Nev.*, a long range trending N. and S. through Esmeralda, Churchill and Lander cos., and terminating near the S. bank of the Humboldt R. They bound the Reese River Valley on the W.
Shoshones, or SNAKES, a family of Indians of the Californian group, inhabiting a wide range of territory from Idaho southward into Utah, and from the Sierra Nevada eastward to the Rocky Mts. They are divided into Shoshones proper and Utes or Utahs. The Shoshones have usually been peaceably inclined, but have several times come into collision with the white settlers and suffered severely, several bands having been nearly exterminated. Most of the southern Shoshones live upon roots and small animals, but

the northern bands obtain a comfortable subsistence from the fisheries of the Shoshone R. (a head stream of Snake R.) and by hunting larger game, some of them being very expert with the bow, and of late years possessing some horses and firearms. They are very fond of barter and of personal adornment, are usually dressed in buffalo or deer skins, live in skin tents, are fond of games of chance. Few efforts at their conversion or education have as yet been made. The entire number of the various bands is estimated at abt. 5,000, the greater part being in Utah and Nevada.

Sierra (The Sp.name for "Mountain," but properly meaning "Saw" and referring to the notched outline of the mountains as seen against the sky),

Cal., a N.E. co., bounded E. by Nev., and drained by the North and Middle forks of Yuba R.; area, 880 sq. m. It is situated among the Sierra Nevada Mts. and but little of it is less than 3,000 ft. above the sea. There are several isolated peaks, the most conspicuous of which are Table Mt., more than 6,500 ft. high; Saddle Mt., a little lower; and the Sierra buttes, 8,300 ft. high. Nearly the whole co. is underlain by auriferous slates, generally covered by volcanic accumulations. It is one of the chief gold producing cos. in the State. The surface is covered with a heavy growth of coniferous trees. The land suited to agriculture or grazing is mostly confined to a few small valleys and mountain flats. The climate in winter is rigorous. Cap., Downieville. Val. of taxable prop. abt. \$2,500,000. Pop. 6,623 (of whom 3,166 for., 1,250 Chinese and 12 Indians).

—tp., Sierra co. Pop. 930.

—tp., Tehama co. Pop. 475.

Sierra Blanca, Col., a range of mountains in the S.E. part of Saguache co., separated from the Sangre de Christo range by the San Luis Valley. Blanca Peak, 14,464 ft. above sea level, is the highest summit.

Sierra City, Cal., gold-mining p.v. in Butte tp., Sierra co., near the Sierra Nevada, 90 m. N.E. Sacramento. Pop. 401.

Sierra Madre, Cal., p.o., Los Angeles co.

Sierra Nevada, Cal., a range of mountains, continuous northward with the Cascade Mts., and southward of the San Joaquin Valley, uniting near the Tejon Pass with the Coast Range. The Sierra Nevada extends along the E. border of the State. It is not a single range, but an aggregate of ranges, on an average some 70 m. wide. The principal lines of crests are distinguished. Numerous peaks reach an elevation of 10,000 or 15,000 feet. Among these are Lassen's Butte (10,577 feet), Pyramid Peak Mts., Whitney (15,088), Dana (13,227), Brewer (13,886), Tyndall (14,386), Lyell (13,217), Shasta (14,444), Williams (14,500), Mt. Hoffman, Mt. Gardiner, Mt. Goddard, Mt. King, and many others. The Sierras are remarkably broken by cañons. Quartz-mining for gold, the cutting of timber, and the pasturage of sheep are important industries in these ranges. The

Sierras are crossed by C.P.R.R., and are famous for their wonderfully sublime scenery.

Sinks Grove, *W.Va.*, p.o., Monroe co., 5 m. S. of Fort Spring Station. Pop. 164.

Sinnamahoning, *Pa.*, p.v. in Grove tp., Cameron co., on a creek of the same name, and on a branch of Penn.R.R., 21 m. S.W. Emporium. Pop. 150.

Sinnott's Mills, *W.Va.*, p.o., Ritchie co.

Sinnope, *La.*, p.o., Caldwell parish.

Sinsinawa Mound, *Wis.*, p.v. in Hazel Green tp., Grant co., 6 m. N.E. East Dubuque Station. It is the seat of St. Clara's academy, a girl's school, conducted by the Sisters of St. Dominic.

Sioux, *Iowa*, a N.W. co., bounded W. by the Big Sioux R. and intersected by Rock R., and affluents of Floyd's R.; area, 720 sq. m. The surface is nearly level and the soil productive. The chief prod. in 1880 were 767,156 bush. of corn, 133,273 of oats, 86,079 of wheat, and 25,416 of barley. Cap., Orange City. Val. of taxable prop. abt. \$2,000,000. Pop. 5,426 (of whom 1,808 for.).

Sioux, or **DAKOTAS**, a race or collection of tribes or "bands" of Indians, who inhabit Nebraska, Wyoming, Dakota, &c. Among these tribes are the Santons, Yanktons, Sissetons, Brules, Minikanyes, Unkpapas, Ogalallahs, and Tetons. They formerly occupied the country as far E. as the Mississippi, which they ceded to the U.S. in 1851. Their language shows

them to be of a different stock from most of the Indian tribes. The languages of the Assiniboines, the Pawnees, the Osages, the Comanches, the Crows, and others belong to the same class with the Dakota tongue. The name "Dakota" signifies the "allied." —tp., Plymouth co. Pop. 274.

Sioux, *Neb.*, an unorganized co., occupying the N.W. corner of the territory; area, 21,070 sq. m. It is intersected by the Niobrara R. Pop. 699 (of whom 137 for., and 51 Indians).

Sioux Agency, *Missou.*, tp., Yellow Medicine co. Pop. 171.

Sioux Centre, *Iowa*, p.o., Sioux co.

Sioux City, *Iowa*, a city in Sioux City tp., cap. of Woodbury co., on the Missouri R., and on the C., M. & St. P., the I.C., and the S.C. & P.R.R.s., 156 m. N.W. Des Moines. The business portion of the city is built upon a dry, well drained bench, which almost imperceptibly slopes N. from the river. N. and W. of the thickly settled part of the city rise low ranges of bluffs, upon whose sides are built some of the finest residences. The streets cross each other at right angles, and the principal ones are graded and furnished with sidewalks. The city has an extensive trade with N.W. Iowa, N.E. Nebraska, and S. Dakota. It contains several churches, excellent schools, 2 nat. and 1 other bank, 1 daily, 3 wkly and 1 monthly paper, foundry and machine shops, elevator, jobbing houses, mills, pork-packing houses, an opera-house, water and gas works, and an efficient fire department. Pop. 7,366: of tp. 7,845.

Sioux Creek, *Wis.*, p.o., Barron co.

Sioux Falls, *Dak.*, p.v. in cap. of Minnehaha co., on Big Sioux R. and on C., M. & St. P. and C., St. P., M. & O.R.R.s., 100 m. N. of Sioux City. It has a U. States Land office, 1 nat. and 2 other banks, 5 wkly papers, several mills, &c. The river falls 110 ft. in half a mile, affording a fine water-power. Pop. 2,164.

Sioux Rapids, *Iowa*, p.v. in Lee tp., cap. of Buena Vista co., on Little Sioux R., 18 m. N. of Storm Lake Station, and 117 m. N.W. Des Moines. It has a graded school and a wkly paper. Pop. 181.

Sioux River, *Dak.* See **BIG SIOUX RIVER**.

Sioux Valley, *Minn.*, p.tp., Jackson co. P. 89.

Sipe's Mill, *Pu.*, p.v. in Belfast tp., Fulton co., 15 m. S. of McConnellsburg. Pop. 125.

Snake Creek, Va., p.o., Carroll co.

Snake Indians. See SUGOONES.

Snake Prairie, Tex., p.o., Bastrop co.

Snake River, also called LEWIS FORK, and SHOSHONE RIVER, the largest tributary of the Columbia, issues at an elevation of abt. 7,790 ft., from a lake in the National Park of the Yellow Stone (Uintah co., Wyo. Ter.), which was until lately supposed to be the source of the Madison R. It flows N.W. to the junction of Lewis fork, the outlet of Shoshone and Lewis Lakes; then S., expanding in its course into Jackson Lake, and again N.W. to the junction of Henry's fork (a total course of nearly 200 m.) in Idaho, about lat. 43° 15', lon. 112°. From the junction the Snake describes a curve of more than 350 m. through S. Idaho, flowing S.W. and then N.W., and strikes the Oregon border in about lat. 44° 40'; it then flows N., abt. 200 m., separating Idaho from Oregon and Washington territory, when in abt. lat. 46° 30' it turns W. into Washington, and after a further course of abt. 150 m. falls into the Columbia abt. 20 m. above the Oregon boundary, abt. lat. 46° 15', lon. 119°. Its total length is upward of 900 m. Steamers ascend to Lewiston on the Idaho border; navigation is then impeded for more than 100 m. by shallows and rapids, above which the river is again navigable for 150 or 200 m. In its course through S. Idaho, the Snake flows through a vast canyon, varying in depth from 100 to 1,000 ft.; many of its tributaries sink, and, passing under the strata of lava, fall from the sides of the cañon into the main stream; and here occur the American, Shoshone, and Salmon falls. The American falls are in abt. lon. 112° 45' and have a perpendicular descent of 60 or 70 ft. The Shoshone falls, further down the stream, and just below the junction of Malade R. are surpassed only by those of Niagara and the Yosemite. The river, here 200 or 300 yards wide, is divided above 400 yards above the main fall into six nearly equal parts by five islands, and in the passage between them is precipitated, 25 or 30 ft. Unting below the islands, the water passes in an unbroken sheet over the great fall, a descent of abt. 200 ft. The Salmon falls abt. 45 m. below the Shoshone, are 20 ft. high.

Snake River, Minn., rises by several branches in the S. part of Aitkin co., flows S. to Brunswick, Kanabec co., and then turning E. falls into St. Croix R. in Pine co. Length, abt. 135 m. —Also the name of an affluent of the Red River of the North in Kittson co.

Snake River, Neb., rises in the W. part of Sioux co., flows E.N.E. for abt. 100 m. and falls into Niobrara R. in abt. lon. 100° 40'.

South Carolina, a S.E. State, bounded N. and N.E. by North Carolina, S.E. by the Atlantic Ocean, and S.W. by Georgia. It is situated between lat. 32° and 35° 10' N., lon. 78° 35' and 83° 30' W. The shape is that of an irregular triangle, 240 m. long from E. to W., and 210 m. wide from N. to S.; area, 30,170 sq. m. This State presents a great variety of soil and surface. Along the seaboard and for 40 m. into the interior, the face of the country is flat and unpromising, covered with extensive tracts of pine barren, swamp, and savannah, or open meadow without wood, comprising the most fertile and the most sterile extremes of soil. Ascending toward the centre of the State, the country rises into hills of moderate elevation. Advancing still further into a N. direction, it becomes mountainous, and very picturesque, rising by a gradual slope toward the Blue Ridge Mts. Table Mt. has an elevation of 4,000 ft. King's Mt., upon the N.C. border, is a conspicuous landmark. The principal rivers of the State take their rise in the Blue Ridge Mts. of N.C. and flow in a S.E. direction toward the ocean. Beginning on the N., the first important stream is the Great Pee Dee, called the Yadkin in N.C., which empties into Win-yaw Bay. Steamboats ascend it for 150 m. The Santee R., formed by the junction of the Wateree and the Congaree near the centre of the State, discharges its water through two mouths, called the North and South Santee. Both the main branches are navigable almost to the boundaries of N.C. for small boats. Ashley and Cooper Rs. find their outlet through Charleston Bay. The Edisto is a considerable stream, divided by a large island near its mouth into two parts, called the North and South Edisto. Savannah R. forms the boundary between S.C. and Ga. It is navigable for large steamers to Augusta, 230 m. Numerous bays indent the coast, which is 200 m. long in a direct line. Win-yaw Bay, 14 m. long and 2 m. wide, affords a good harbor. St. Helena's Sound, from 3 to 5 m. broad, extends inland for 10 m. Beaufort harbor will admit vessels drawing 24 ft. of water. Charleston harbor is spacious, but the entrance is obstructed by bars. Stretching along the coast and cut off from the main land by narrow channels are many islands. These islands, in their primitive state, were covered with a growth of trees, underbrush and rank weeds so thick as to be almost impenetrable. Extending along the adjacent shores were dense forests of live-oak, pitch pine, palmetto, yucca, laurel, hickory, etc. Six millions of acres are included in the pine woods. Orange trees flourish in the South. The mountains of the N.W. are covered with a hardwood growth, comprising most of the trees which are common to N.C. and Va. The famous sea-island cotton, "which has no superior in the world," is grown to perfection upon the deep, rich soil of the islands. It is estimated that a million acres of the most productive lands can be made by draining the swamps, which have an inexhaustible fertility. Rice-fields occupy many of the tide-swamps. Upon the oak and hickory openings large crops of cotton, corn, potatoes and other vegetables are produced. The pine lands are less fertile, but well repay cultivation. Nearly half the soil of the State is of an alluvial formation, having clay for its substratum. The climate, from the location, should be very hot, being in the lat. of Morocco and the Barbary States, but it

is more like that of the S. of France and N. Spain. On the coast the sea-breezes, and in the interior the mountains, greatly modify the heat. In the N.W. portion of the State, Indian corn is not as sure a crop as it is in Minnesota, while in the S. and S.E. districts the orange, the sugar-cane, the pomegranate, the fig, and the banana are largely cultivated. Sudden frosts sometimes cut off these fruits, but in the average of years they do well. The mean annual temperature of Charleston for the past thirty years has been 65.6°—the summer mean abt. 80°, the winter mean 52°, the spring 66.3°, and the autumn abt. 65°. The isothermal line of 64° crosses the State from Little River Inlet (N.E. corner of the State) to Hamburg, opposite Augusta, on the Savannah R. S. of this line, towards the Savannah R. and harbor, the mean annual temperature rises to 67° N. and N.W. of it the annual mean falls to 60°, and in the mountainous district to 56°. The range on the lowlands is from 51 to 60 inches, on the middle and ridge lands, 44 to 52 inches, and in the mountainous districts, from 40 to 44 inches. Yellow fever occasionally occurs as an epidemic at Charleston.—S.C. is rich in mines. Gold is found in Spartanburg, Union, York, Lancaster, Greenville, Pickens and Abbeville counties; silver in Spartanburg; copper in York, Spartanburg and Pickens; iron in Spartanburg, York, Greenville and Pickens; lead in Pickens; manganese in Spartanburg, York, Union, Chester, Pickens, Lancaster, Greenville, Anderson, Abbeville and Edgefield; bismuth in Chesterfield and Lancaster; black lead in Spartanburg; coal in Chesterfield, Malboro and Aiken; oxide of titanium in Pickens; sulphate of iron, found in gold mines, is in Pickens detected mixed with sulphate of alumina. Previous to 1860, these mines had been worked to some extent, but never were developed to their full capacity. Since the close of the late civil war the owners have been peculiarly unable to continue the work. Capitalists are becoming interested in them, and in a few years these mines will again be in active operation and yielding handsome revenues. The limestone of the Blue Ridge may be used as fertilizers, while the richest deposits of bone phosphates on the continent, if not in the world, are quarried in Charleston co., near the Ashley and Cooper Rs. (See CHARLESTON).—S.C. is rich in valuable woods such as live oak and 20 other varieties of oak, black walnut, cedar, cypress, 5 varieties of pine, hickory, chestnut, poplar, ash, linden, magnolia, elm and other magnificent forest trees. The flora of the State embraces 3,500 species, of which 400 are medicinal. The usual prod. of the State are cotton, rice, corn, wheat, rye, oats, millet, barley, buckwheat, peas, beans, sweet and Irish potatoes, sorghum, sugar, tobacco, indigo, hemp, flax, hops, broom corn. Of fruits, peaches, apples, pears, figs, quinces, plums, pomegranates, lemons, olives, mulberries, raspberries, strawberries, blackberries, whortleberries, walnuts, chestnuts, hickory nuts, pecans, hazel nuts, beech nuts and pindars. All varieties of grapes grow luxuriantly, and fine wines are made from the cultivated grapes and from the muscadine, which grows in wild abundance all through the woods. Vineyards and the manuf. of wines have proved profitable and very expensive. Vegetables of every known variety are grown with ease in this State, and the shipping of early vegetables to Northern markets brings a handsome profit to those so engaged. Thousands of dollars have been realized on asparagus beds, and any amount of money might be realized on the canning of tomatoes and fruits which grow to perfection here. Where proper attention has been paid to dairy products a good yield has paid well, and the butter made at some of the dairies brings from 35 to 45 cents a pound. Sheep husbandry is receiving considerable attention in S.C. now, and promises to prove

a vast source of wealth to the people. Many are interested in raising improved bees and poultry. Cattle, sheep, goats and hogs are raised for market, but are seldom sold outside of the State. The native grasses in the N. part of the State furnish abundant pasturage for cattle and sheep, and very little attention to them is necessary, even in winter, owing to the mildness of the climate. The principal markets for agricultural products and live stock are Charleston, Columbia, Newberry, Greenville, Spartanburg, and other towns in this State; Charlotte, N.C., Atlanta, Augusta and Savannah in Ga. The cotton is purchased in those cities principally by commission merchants and consigned by them to Europe and the Northern States of the Union. In 1880 the principal agricultural prod. were 11,767,099 bush. of corn, 2,715,505 of oats, 962,358 of wheat, 52,077,515 lbs. of rice, 138,924 galls. of molasses, and 522,548 bales of cotton. The amount of wages paid for farm labor decreased, according to the census returns, from \$7,404,297 in 1870 to \$5,981,616 in 1880. The total value of farm prod. was \$41,967,746 in 1880, against \$41,909,402 in 1870. The number of horses, mules, and other domestic animals, reported in the three last census years, was as follows:

LIVE-STOCK.	1880.	1870.	1860.
Horses of all ages.....	60,660	44,105	81,125
Mules and asses.....	67,005	41,327	56,446
Working oxen.....	24,506	17,685	22,629
Milch-cows.....	139,828	98,693	163,983
Other cattle.....	199,243	132,295	320,209
Sheep.....	147,758	124,594	233,509
Swine.....	628,057	395,999	965,779

The yield of some of the principal agricultural products, as given by the census, was as follows:

PRODUCTS.	1880.	1870.	1860.
Rice, lbs.....	62,948,537	32,304,825	119,100,528
Sorghum-sugar, lbs.....	8,225
Cane-sugar, hogsheds.....	234	1,055	198
Sorghum-molasses, galls.....	261,708	183,585	51,041
Cane-molasses, galls.....	152,307	436,882
Milk sold or sent to factory, galls.....	257,195	241,815
Butter made on farms, lbs.....	319,685	1,461,980	3,177,934
Cheese made on farms, lbs.....	16,036	169	1,543
Potatoes, Irish, bushels.....	144,942	83,252	226,735
Potatoes, sweet, bushels.....	2,189,622	1,342,165	4,115,688
Peas and beans, bushels.....	738,844	460,378	1,728,074
Honey, lbs.....	354,350	194,253	526,077
Wax, lbs.....	26,780	11,404	40,479
Wine, galls.....	17,422	13,179	24,964

The rice plantations of the Carolinas and Ga., which before the war produced 175,000 tierces of 600 pounds, were destroyed and the cultivation discontinued during the war. It was commenced again in 1864-'65, in which year the product amounted to 4,000 tierces, and has been gradually extended until the crop of 1880-'81 reached 115,000 tierces. The Carolina product increased from 48,000 tierces in 1873-'79 to 63,750 in 1879-'80, and 69,000 in 1880-'81. The product of N.C., included in these returns, is comparatively small. The rice-lands of S.C., which are not suitable for any other crop, give employment to thousands of the colored people, who were thrown upon their own resources after the war.—S.C. is not a manuf. State. According to the census of 1880, the State had 2,078 manuf. establishments, employing 22,018 hands, capital invested \$11,205,894, wages paid during the year, \$2,836,289, value of materials, \$9,885,538, value of products, \$16,738,008. Cotton factories form the most important manuf. interest. There

were 14 in active operation, having an aggregate capital of \$2,776,100, spindles 82,334, looms 1,676. The commerce and navigation of S.C. are noticed under the names of its three customs districts: CHARLESTON, BEAUFORT and GEORGETOWN. In 1882 there were 1,484 m. of railroad in operation in the State. The Santee Canal, 22 m. long, connects Charleston, through Cooper R., with the Santee. There are also several short canals, having an aggregate length of abt. 30 m.—There are in the State 3,331 educational institutions of various kinds, as follows: Colleges, male and female 12, professional schools 2, with a wide range of study, and are supported by the towns and the State. The annual school appropriations amount to more than \$600,000. A portion of the schools, in the larger towns especially, are thoroughly graded and are furnished with apparatus and libraries. The State has also, in some parts, select private schools, commercial institutes and academies. Providence voluntarily sustains a school of design. Situate and East Greenwich have academies. The State normal school, located in Providence, receives an annual appropriation of \$9,000. Brown university, situated in Providence, founded by the Baptists in 1764, is a liberal college of a very high rank, known over all the country for its able teachers and graduates.—S.C. is divided into 33 cos. (formerly called districts) viz.: Abbeville, Aiken, Anderson, Barnwell, Beaufort, Berkeley, Charleston, Chester, Chesterfield, Clarendon, Colleton, Darlington, Edgefield, Fairfield, Georgetown, Greenville, Hampton, Horry, Kershaw, Lancaster, Laurens, Lexington, Marion, Marlborough, Newberry, Oconee, Orangeburgh, Pickens, Richland, Spartanburgh, Sumter, Union, Williamsburg, York. Columbia is the cap. Charleston is the chief city. Charleston and Port Royal rank among the finest harbors on the Atlantic. The latter is fast becoming the outlet for a vast amount of Western products as well as for cotton and rice shipped direct to Europe. Taking into consideration its geographical position, climate, soil, mineral productions, means of artificial fertilization, water-power, means of inland transportation, and foreign commerce, its health and rare beauty, S.C. is unquestionably one of the finest countries in the world. Its people as a whole are alive to the importance of settling up the land now idle for want of efficient labor, and every encouragement is held out to immigrants and capitalists. The government is administered under the constitution adopted in 1868. The legislature consists of 33 senators, elected for 4 years, and 124 representatives, elected for 2 years. The governor (salary, \$3,500 and a furnished house) and lieutenant-governor are chosen for 2 years. Three judges, appointed by the general assembly for 6 years each, constitute the supreme court. The chief-justice is paid a salary of \$4,500, and the others \$3,500 each. There are 2 circuit courts, of which the court of common pleas has civil jurisdiction and the court of general sessions has criminal jurisdiction only. A court of probate is established in each county. In 1881 the total State debt was \$7,253,447. The valuation of taxable property was \$136,909,989 (real estate \$79,563,022, personal property \$45,504,063, railroad property \$12,132,900). Tax levy (5 mills) \$684,999.94.—In 1562 a party of French Huguenots built a fort upon an island in Port Royal Harbor and called it Carolina, in honor of Charles IX. of France. This colony was soon dispersed. The first permanent settlement was made by a company of English colonists, at Port Royal, in 1670. In 1685, a large company of French Huguenots established themselves in the State. South Carolina bore an honorable part in the struggle for independence. The battles of Camden, King's Mt., Cowpens, Eutaw Springs and others of lesser note were fought upon her soil. An ordinance of secession was passed Dec. 17, 1860, and the bom-

bardment and capture of Fort Sumter by Gen. Beauregard, April 12, 13, 1861, was the first act of open hostility of South against North. The destructive march of Gen. W. T. Sherman from Savannah through S.C. began in Jan., 1865. The State was readmitted into the Union, July 13th, 1868. Pop. in 1790, 249,073; in 1830, 581,185; in 1860, 703,708 (free colored 9,914, slaves, 402,406); in 1870, 705,606; in 1880, 995,577 (of whom 490,408 males and 505,169 females; 987,891 natives, and 7,686 of foreign birth; 391,106 whites, 604,332 colored, 9 Chinese, and 131 Indians).

Springfield, Ill., a city ♦, cap. of the State, and also of Sangamore co., pleasantly situated on the edge of a broad and beautiful prairie, 4 m. S. of Sangamore R., on the C. & A., the I. C., the O. & M., and the W. St. L. & P. RRs., and in a direct line between Chicago and St. Louis, 185 m. S.W. the former, and 95 m. N.E. the latter. It is regularly planned, with wide, straight streets, tastefully adorned with shade trees. From the beauty of the place and its surroundings, it is termed the "Flower City." The new capitol, costing \$5,000,000, is one of the finest buildings of the kind in the country. Other noteworthy buildings are the U. States Court House and custom house, and post-office building, the county court house, State arsenal, high school house, and several handsome churches and commodious hotels. Two miles N. of the city is Oak Ridge cemetery, a picturesque and

well kept burying ground of 72 acres, containing the remains of Lincoln and a national monument to his memory which cost \$206,550, dedicated on Oct. 15, 1874. There are coal mines in the vicinity, and the surrounding country is very productive. Springfield has gas-works, a paid fire department, and adequate water-works. The principal manuf. are, the Springfield woolen mills, paper and pulp manuf., corn planter and baby-wagon manuf., Springfield Watch Co., Springfield iron, steel, and rolling mills, machine shops, spice and hominy mills. There are 4 ward schools, and a fifth for colored children, also a tasteful high school building, the Bettie Stuart Institute, Ursuline convent, and St. Joseph's of Notre Dame, the home for the friendless and other charitable institutions, a public library and a law library, the latter belonging to the State. There are 4 nat. and 1 other bank, 4 daily, 9 wkly, and 2 monthly papers, and 22 churches. Springfield was laid out in 1822, and was made the State capitol in 1837. Pop. 19,746.

Springfield, Ind., tp., Allen co. Pop. 1,898.

—p.h. and tp., Franklin co., 8 m. E. of Brookville. Pop. of tp. 1,376.

—tp., Wimeshiek co. Pop. 1,037.

Springfield, Ky., p.v. ♦ in Springfield tp., cap. of Washington co., 10 m. N. of Lebanon. It has a nat. bank, and a female Catholic seminary. P. 610.

Springfield, La., p.v., Livingston parish, 50 m. E. of Baton Rouge. Pop. 99.

Springfield, Me., p.v. ♦ and tp., Penobscot co., 20 m. E. of Lincoln Centre Station. P. of tp. 878.

Springfield, Md., p.o., Prince Georges co. **Springfield, Mass.**, a city ♦, cap. of Hampden co., on the E. bank of Connecticut R., opposite West Springfield, with which it is connected by 2 bridges and R.R. bridge, 98 m. W. by S. from Boston, 120 m. N.N.E. New York, and 26 m. N. of Hartford. It is an important railroad centre, 4 lines meeting in one large depot, each having large connections, viz.: the B. & A., the C. R., the N. Y., N. H. & I. and the N. & N. E. RRs. Its natural situation is beautiful, it is well built and has wide streets shaded with elms and maples. The City Hall is a noble building in the Romanesque style, containing a public hall, seating 2,700 persons, the Court House is a massive granite structure costing \$200,000, and the building of the city free library (containing 40,000 volumes and 2 museums of natural history) is very handsome. There are also several fine churches. The city is well supplied with water. The fire department consists of a chief and 5 assistant engineers, together with 116 officers and men. There are 6 steam fire-engines, and 1 chemical engine, several hose-carts, and abt. 8,000 feet of hose. The Springfield cemetery contains abt. 40 acres, and is rendered beautiful by the diversity of its natural scenery and the variety of its shade trees and fountains. Hampden Park, containing abt. 60 acres, is under the control of the Hampden Park Association, and is used for public recreations and active sports. The school system embraces a high school and 28 other buildings furnishing employment for 140 teachers, and instruction for 6,000 pupils. Besides the public schools, there are several private educational institutes. There are 9 nat., 3 savings, and 2 other banks, a clearing house, 3 daily, 7 wkly and 4 monthly papers, and 27 churches. Springfield is noted for the variety of its skilled industries. The U. States armory, located here, is the largest and most important arsenal of construction

in the country. This establishment employs 700 hands, and 175,000 stand of arms are kept constantly in stock. A pistol manuf. and the Wason Co. Car Works are known throughout the country, and have filled large orders for foreign nations. There are also extensive manuf. of cotton and woolen goods, boilers, blank books, engines, buttons, carriages, confectionery, furniture, cards, corrugated iron, gold and silver plating, trunks and harnesses, paper, paper boxes, paper collars, picture frames, soda fountains, spectacles, tools, envelopes, &c. Springfield was first settled in 1635 by immigrants from Roxbury, and became a city in 1852. Pop. in 1870, 26,703; in 1880, 33,340.

Springfield, Mich., p.h. and tp., Oakland co., 2½ m. E. of Davisburg. Pop. of tp. 1,272.

Springfield, Minn., p.v. in Barnstow tp., Brown co., on C.&N.W.R.R., 25 m.W. of New Ulm. Pop. 167.

—tp., Cottonwood co. Pop. 283.

Springfield, Mo., a city, cap. of Greene co., on Wilson Creek and on St.L.&S.F. and K.C., Ft.S. & G.R.Rs., 240 m. S.W. St. Louis, is the business centre for the whole of S.W. Mo. and N. Ark. It is on a table land 1,500 ft. higher than St. Louis, its climate is very mild and healthful. It is lighted by gas, is the seat of Drury College, and has good public schools, 2 nat. and 2 other banks, 1 daily and 3 wkly papers and 11 churches. The leading manuf. are a cotton-mill, wool-mill, wagon-factory, 3 flouring-mills, 2 planing-mills, 2 iron-foundries, furniture factory, and 4 tobacco-factories. Pop. 6,524.

Springfield, O., a city, cap. of Clark co., at the confluence of Mad R. and Lagonda Creek, and at the intersection of the C., C., C. & I., the I., B. & W., the N. Y., P. & O. and O. S. R.Rs., 45 m. W. of Columbus and 70 m. N.E. Cincinnati. It is well laid out, is handsomely built, and is in the heart of one of the richest and most populous agricultural regions in the Union. A large trade is carried on in wheat, flour, Indian corn, and other produce, and many cattle and swine are shipped to eastern markets. Water-power is abundant; there are 5 nat. and one other bank; and abt. 100 factories are in operation, employing 5,000 hands. These include flouring mills, iron foundries, machine shops, manufactories of agricultural implements, linseed-oil mills, and a paper mill. More than 30,000 mowers and reapers are manufactured annually. Limestone is largely quarried and burned. The city has among its literary institutions Wittenberg College, the Springfield Seminary for Young Women, excellent public schools, 2 daily, 5 wkly and 1 semi-monthly paper, and a free public library. Pop. 20,073; of tp. 24,455.

Spurr Mt., Mich., p.o., Baraga co.

Spuytten Duyvil (spi't'n di'vil), N. Y., formerly a v. of Yonkers tp., Westchester co., on Hudson R. and Spuyten Duyvil Creek, now annexed to the city of New York. It is 12 m. N. of the city hall by N.Y.C.&H.R.R.R., and has a branch p.o.

Spuytten Duyvil Creek, N. Y., a tortuous narrow channel connecting the Hudson R. with the Harlem R., and thence with the East R. on Long Island Sound. The creek forms the N. boundary of Manhattan Island. Flaws of wind are apt to burst along the depression through which the creek runs, impeding the navigation by sailing craft, and the name is probably derived from an oath sworn by an old Dutch shipmaster that he would pass the mouth of the creek *Spuyt den Duyvil* "in spite of the devil." It is too shallow for navigation, and propositions have been made from time to time to deepen its ends at the E. and W., cut a ship canal across the neck formed by its devious course, and so make, in connection with improvements in the bed of the Harlem R., a channel between Long Island Sound and the Hudson R., through which vessels might pass from the one to the other, instead of being compelled to make the circuit of the entire city of New York as at present.

Squak (skwawk), Wash., p.o., King co.

Squam Lake, N.H., a beautiful sheet of water, lies partly in Grafton and partly in Carroll cos., and N.W. of Lake Winnepesaukee. It is 6 m. long, and 3 m. wide, and studded with numerous islands. Its outlet, Squam R., empties into the Pemigewasset R.

Squirrel Island, Me., a small island in the Atlantic Ocean, near the coast of Lincoln co., abt. 15 m. S. of Wiscasset. It contains a hamlet and summer resort. †

Srygley, Ala., tp., Colbert co. Pop. 466.

Staatsburg (stats'burg), N. Y., p.v. in Hyde Park tp., Dutchess co., on Hudson R., and on N.Y.C. &H.R.R.R., 5 m. from Rhinebeck. Pop. 225.

Stablersville, Md., p.o., Baltimore co.

Staceyville, or STACYVILLE, Iowa, p.v. & tp. and tp., Mitchell co., on Little Cedar R., 12 m. N. of Osage Station. It has a graded and a Catholic school. Pop. 326; of tp. 914.

Staceyville, Me., plantation, Penobscot co. Pop. 184.

Stacy, Minn., p.o., Chisago co.

Stafford, Ala., p.o., Pickens co.

Stafford, Conn., p.v. and tp., Tolland co., 50 m. N. by W. from New London by C.V.R.R. The v. has some factories. The tp. which is watered by Williamantic R., contains also Stafford Springs and several other manufacturing villages. Pop. of tp. 4,455.

Stafford, Md., p.o., Hartford co.

Stafford, Ind., tp., DeKalb co. Pop. 509.

—tp., Greene co. Pop. 1,141.

Stafford, Kan., a W. central co., intersected in the N.W. by the Arkansas R.; area, 792 sq. m. The surface consists chiefly of undulating prairies. The chief prod. in 1880 were 159,724 bush. of corn, 37,498 of wheat, and 10,862 of oats. Cap., St. John. Val. of taxable prop. abt. \$300,000. Pop. 4,755 (of whom 452 for., and 123 colored).

—p.v. & tp. in above co., 10 m. S.E. Zion Valley. Pop. of tp. 876.

Stafford, N.J., tp., Ocean co. Pop. 1,008.

Stafford, N. Y., p.v. and tp., Genesee co. on Black Creek, 5 m. E. of Batavia by N.Y., L.E.&W. RR. Pop. 212; of tp. 1,808.

Stafford, N. Y., p.v. in Franklin tp., Monroe co., 12 m. S.W. Woodfield. It has a high school. Pop. 172.

Stafford, Oreg., p.o., Clackamas co.

Stafford, S. C., p.o., Hampton co.

Stafford, Tex., p.v., Fort Bend co., 21 m. S.W. Houston by G., H. & S. A. R. R. Pop. 450.

Stafford, Va., an E. co., bordering on Potomac and Rappahannock Rs., drained by Aquia and other creeks; area, 260 sq. m. The surface is usually hilly but is fertile along the Potomac. Excellent granite and freestone abound, and gold has been discovered in small quantities. The chief prod. in 1880 were 216,333 bush. of corn, 40,697 of wheat, and 15,101 of oats. Cap., Stafford Court House. Val. of taxable prop. abt. \$2,500,000. Pop. 7,210 (of whom 1,651 colored).

Stafford Court House, Va., p.v., cap. of above co., 58 m. S. of Washington, D.C. Pop. 25.

Stafford Point, La., p.o., Catahoula parish.

Stafford Springs, Conn., p. borough & tp. in Stafford tp., Tolland co., at junction of the two branches at head of Williamantic R., 20 m. N. of Williamantic by C.V.R.R. It has a nat. and a savings bank, a wkly-paper, and several cotton and woolen mills. Its mineral springs are much resorted to. Pop. abt. 2,000.

Stafford Store, Va., p.o., Stafford co.

Staffordsville, Va., p.v., Giles co., 10 m. N. of Dublin Station.

Staffordsville, Conn., manuf. p.v. in Stafford tp., Tolland co., 5 m. N.E. Stafford Springs. Pop. 325.

Staffordville, N.J., p.h. in Eagleswood tp., Ocean co., on Tuckerton R., 25 m. S. of Toms R. Pop. 52.

Stage Pond, Fla., p.o., Hernando co.

Stagg, Ala., p.o., Jefferson co.

Staggs, Tenn., p.o., Jackson co.

Stagg's Creek, N.C., tp., Ashe co. P. 1,287.

Stahls town, Pa., p.v. in Cook tp., Westmoreland co., 8½ m. S.W. Ligonier. Pop. 100.

Staggstown, Tenn., p.o., Knox co.

Stag Hall, Ga., tp., Warren co. Pop. 1,395.

Stagville, N.C., p.o., Durham co.

Stahl, Mo., p.o., Adair co.

Stalwart, Wis., p.o., Richland co.

Stambaugh, Mich., p.o., Marquette co.

Stamford, Conn., p. borough & tp., on Long Island Sound, and on N.Y., N.H. & H.R.R., 35 m. N.E. New York. The tp. contains 4 villages, but the greater part of the pop. resides in the borough of Stamford, which has a small harbor, made accessible to steamboats by a canal. The borough is supplied with water brought 10 m., is lighted with gas, and has 2 nat. and 2 savings banks, 2 wkly papers and a high school. The nearness to New York, attractive scenery, and wholesome air have made the tp. the residence of many business men from that city. The chief factories are the Stamford manufacturing company, producing extract of logwood, liquorice, &c.; a lock factory, a billiard table factory, a woolen mill, a stove foundry, a carriage factory, rolling mills, eam-

phor refineries, and manuf. of shoes, fire-brick, edge tools, wire, &c. Pop. of tp. 11,298.

Stamford, N.Y., p.v. in Harpersfield and Stamford tps., Delaware co., at the head waters of the W. branch of Delaware R., 74 m. N.W. Rondout by U.&D.R.R. It has a wkly paper and several factories. Pop. 522; of Stamford tp. 1,638.

Stamford, Vt., p.h. and tp., Bennington co., 5 m. from North Adams, Mass. Manuf., lumber, chemicals, &c. Pop. of tp. 726.

Stamp Creek, Ga., p.tp., Bartow co. P. 522.

Stamper, Tenn., p.o., Bradley co.

Stamper's Creek, Ind., p.tp., Orange co. Pop. 921.

Stamping Ground, Ky., p.v. and tp., Scott co., 7 m. N.W. Georgetown. Pop. 233; of tp. 2,266.

Stanard's Corners, N.Y., p.v. in Willing tp., Allegheny co., near Wellsville. Pop. 350.

Stanardsville, Va., p.v. in Stanardsville tp., cap. of Greene co., 5 m. E. of the Blue Ridge, in a very fertile valley, 20 m. W. of Orange Court House. Pop. 308; of tp. 2,227.

Stanberry, Mo., p.v. in Cooper tp., Gentry co., on W., St.L.&P.R.R., 10 m. S.E. Maryville. It has 2 banks and 2 wkly papers. Pop. 1,207.

Stanchfield, Minn., p.tp., Isanti co. Pop. 491.

Standard, Mo., p.o., DeKalb co.

Standard, Pa., p.o., Lycoming co.

Standart Grove, Wis., p.o., Iowa co.

Standfold, or STAN FOLD, Wis., tp., Barron co. Pop. 929.

Standingrock, Dak., p.o., Boreman co.

Standing Stone, Pa., p.h. and tp., Bradford co., on a branch of L.V.R.R., 7 m. S.E. Towanda. Pop. of tp. 815.

Standing Stone, Tenn., p.o., Putnam co.

Standish, Me., p.v. and tp., Cumberland co., 15 m. N.W. Portland. Pop. of tp. 2,035.

Standish, Mich., p.v. and tp., Bay co., 34 m. N. of Bay City by M.C.R.R. Pop. 246; of tp. 862.

Standish Shore, Mass., p.o., Plymouth co.

Stanford, Ill., tp., Clay co. Pop. 1,268.

—p.v. in Allen tp., McLean co., 12 m. S.W. Bloomington by C.&A.R.R. Pop. 353.

Stanford, Ind., p.h. in Van Buren tp., Monroe co., 9 m. S.W. Bloomington. Pop. 75.

Stanford, Ky., p.v. in Stanford tp., cap. of Lincoln co., on L.&N.R.R., 104 m. S.E. Louisville. It has a female college, 2 nat. banks, and a wkly paper. Pop. 1,213; of tp. 4,551.

Stanford, Minn., tp., Isanti co. Pop. 360.

Stanford, Mo., p.o., Texas co.

Stanford, Mont., p.o., Weagher co.

Stanford, N.Y., tp., Dutchess co. Pop. 2,092.

Stanfordville, Ga., p.o., Putnam co.

Stanfordville, N.Y., p.v. in Stanford tp., Dutchess co., 18 m. N.E. Poughkeepsie by P., H.&B. R.R. Pop. 340.

Stanhope, Iowa, p.o., Hamilton co.

Stanhope, N.J., p.v. in Byram tp., Sussex and Morris cos., on a div. of D., L.&W.R.R. and the Morris Canal, 12 m. S. of Newton, and 53 m. W. of New York. Manuf., pig iron and mineral wool. Pop. 677.

Stanhope, N.C., p.o., Nash co.

Stanislaus (stan-is-law), Cal., a river formed by the confluence in Alpine co., of 3 branches (North, Middle and South) which rises in the Sierra Nevada. It flows S.W. between Calaveras and Tuolumne cos., and between San Joaquin and Stanislaus cos., and falls into San Joaquin R., abt. 20 m. S. of Stockton.—a central co., bounded N. in part by the Stanislaus R., and intersected by the San Joaquin and Tuolumne; area, 1,420 sq. m. It is for the most part level, but the E. portion is undulating, while a strip a few miles on the W. border, rises into the Coast range, which here has a general altitude of abt. 2,000 ft. There is little timber. The soil is very productive.

Gold-mining is carried on to some extent in the E. part. The chief prod. in 1880 were 1,642,892 bush. of wheat, 312,882 of barley, 22,619 of rye, and 13,655 of corn; wool is also largely produced. Cap., Modesto. Val. of taxable prop. \$6,232,441. Pop. 8,751 (of whom 2,026 for., 519 Chinese, and 27 Indians).

Stanley, Dak., a S.W. co., bounded N.E. by the Missouri R., and intersected by the Big Cheyenne and Teton Rs., tributaries of the Missouri; area, 640 sq. m. The surface is rolling. Pop. 793 (of whom 138 for., and 102 Indians).

Stanley, Kan., p.h. in Oxford tp., Johnson co., on B.&M.R.R. in N., 10 m. E. by S. from Olathe. Pop. 44.

Stanley, Md., p.o., Kent co.

Stanley, Minn., tp., Lyon co. Pop. 188.

Stanley, Mo., p.o., Buchanan co.

Stanley, Neb., p.o., Buffalo co.

Stanley, N.J., p.v. in Chatham tp., Morris co., on Passaic R. and D., L.&W.R.R., 8 m. S.E. Morris-town. Pop. 175.

Stanley, N.Y., p.v. in Seneca tp., Ontario co., 17 m. S. of Newark by L.O.S.R.R., and 40 m. N.E. Rochester by N.C.R.R. Pop. 300.

Stanley, or STANLY, N.C., a S.W. co., bounded E. by the Yadkin and S. by Rocky R.; area, 380 sq. m. The surface is mountainous and the soil generally fertile. Gold and silver have been found in considerable quantities. The chief prod. in 1880 were 271,877 bush. of corn, 72,223 of oats, 70,070 of wheat, and 2,475 bales of cotton. Cap., Albemarle. Val. of taxable prop. abt. \$1,500,000. Pop. 10,506 (of whom 1,321 colored).

Stanley, O., p.o., Putnam co.

Stanley, Tenn., p.o., Marion co.

Stanley, Va., tp., Warwick co. Pop. 697.

Stanley, Wis., p.h. in Edson tp., Chippewa co., on Wolfe R., on W.C.R.R., 32 m. E. of Chippewa Falls. Pop. 50.

Stanley Creek, N.C., p.o., Gaston co. See BREVARD.

Stanleyville, O., p.h. in Fearing tp., Washington co., 9 m. N. of Marietta. Pop. 55.

Stannard, Vt., p.tp., Caledonia co. Pop. 251.

Stansell, Ga., p.o., Elbert co.

Stansells, Ga., tp., Newton co. Pop. 1,189.

Stanton, Ariz., p.o., Gila co.

Stanton, Del., p.v., New Castle co., 1 m. from its station on P., W.&B.R.R., which is 6 m. S.W. Wilmington. Manuf., fertilizers, woolens, &c. Pop. 514.

Stanton, Ill., tp., Champaign co. Pop. 1,057.

Stanton, Iowa, p.v. in Scott tp., Montgomery co., on C., B.&Q.R.R., 8 m. E. of Red Oak. Pop. 247.—tp., Plymouth co. Pop. 528.

Stanton, Kan., an unmorgized S.W. co., bordering on Col., and drained by tributaries of the Arkansas R.; area, 696 sq. m. The surface is rolling. P. 5.—tp., Linn co. Pop. 689.

—p.v. and tp., Miami co., on Osage R., 10 m. S.W. Paola. Pop. of tp. 904.

Stanton, Ky., p.v., cap. of Powell co., on Red R., 36 m. S.W. Paris. Pop. 98.

Stanton, Mich., p.v. in Day, Evergreen and Sidney tps., cap. of Montcalm co., 24 m. N. of Ionia by L.&N.R.R. It has a union school, 2 banks, and 2 wkly papers. Manuf., lumber, shingles, &c. P. 1,775.

Stanton, Minn., p.tp., Goodhue co. Pop. 512.

Stanton, or STANTON COPPER MINES, Mo., p.v., Franklin co., on Maramee R., 65 m. S.W. St. Louis by St.L.&S.F.R.R. Copper is mined here. Pop. 80.

Stanton, Neb., a N.E. co., intersected by Elkhorn R.; area, 576 sq. m. The surface consists chiefly of rolling prairies. Timber and fuel are scarce. The chief prod. in 1880 were 143,715 bush. of corn, 18,815 of oats, and 13,203 of wheat. Cap., Stanton. Val. of taxable prop. abt. \$750,000. Pop. 1,813 (of whom 682 for.).

—tp., Colfax co. Pop. 333.
 —tp., Fillmore co. Pop. 403.
 —p.v. in Stanton tp., cap. of above co., on Elkhorn R., 11 m. E. of Norfolk Junction by S.C.&P.R.R. It has a wkly paper. Pop. 211; of tp. 1,383.
Stanton, N.J., p.v. in Readington tp., Hunterdon co., 1 m. from its station on L.V.R.R., 6 m. N. of Flemington. Pop. 109.

Stately, Minn., tp., Brown co. Pop. 153.

Staten Island, N. Y., an island forming the co. of Richmond (which see), is in shape an irregular triangle, its base being bounded by the Kill von Kull, which separates it from the mainland of New Jersey on the N. and Newark Bay; its longest side on the E. and S. by New York harbor and the lower or maritime bay respectively; and its shortest side on the W. by Staten Island Sound, abt. $\frac{1}{2}$ m. wide, which runs between it and New Jersey. Its area, is abt. 60 m., its greatest length 13 m., and its greatest breadth, 8 m. The island is very hilly, and its shores are almost everywhere dotted with the villas of New York business and professional men, who make it their place of residence all the year round. On the E. shore, opposite which Long Island comes to a point and forms the entrance to New York harbor called the Narrows, are Fort Wadsworth, Battery Hudson, and a line of water batteries, which, with Fort Lafayette on the opposite shore, command the entrance to the harbor. The quarantine station for vessels entering the port of New York is also here, and the quarantine hospital is on the S. shore. On the N. shore is the Sailors' Snug Harbor, a retreat for superannuated seamen. There is but one line of railway on the island. It extends from Tompkinsville to Tottenville, following the longest side of the triangle about a mile from the shore, and which connects with Perth Amboy, New Jersey, by a steam-ferry about every hour. Ferry-boats run from New York to Tompkinsville, Stapleton, and Clifton, on the E. shore, from the foot of Whitehall st., and from another pier adjoining to New Brighton, Sailors' Snug Harbor, Castleton, Port Richmond, and Elm Park, on the N.

Statenville, Ga., p.v. in Statenville tp., cap. of Echols co., 20 m. S. of Lawton. Pop. 51; of tp. 594.

Stockton, Ala., p.v., Baldwin co., on Texas R., 30 m. above Mobile. Pop. 100.

Stockton, Cal., a city, cap. of San Joaquin co., at the head of a navigable channel of the same name, connecting it with San Joaquin R., 3 m. therefrom, 92 m. E. by N. from San Francisco, and 48 m. S.E. Sacramento by the W. div. of C.P.R.R. The site of the city is a level plain, whose monotony is relieved by scattering oaks; its streets are regularly laid out, and many of them ornamented with choice shade trees. The business portion of the city is principally constructed of brick, and has many fine buildings. It was laid out in 1849. Being at the head of navigation and a convenient point of departure for the gold-mining regions of Calaveras, Tuolumne, and Mariposa cos., it soon became a place of considerable business importance, and commanded the trade of those prosperous counties. After the decline of the mining interest came the development of the agricultural resources of the great San Joaquin Valley, for which Stockton, on account of its location, became the natural business centre, a distributing point for farmers' supplies, and is now the most important interior wheat market in California. Stockton has several large warehouses for the storage of grain, and sailing vessels of 150 tons, and steamers of 500 tons burden reach her wharves at all seasons of the year. Stockton has 15 churches, some

of them beautiful and costly edifices, 5 large public school houses, a convent, 2 public libraries, a mechanics' institute, 2 nat. and 2 other banks, 3 daily and 4 wkly papers, 2 large flouring mills, 2 extensive tanneries, 2 manuf. of agricultural implements, and 2 of carriages and wagons, a paper-mill, a woolen-mill, 2 foundries, &c. The California insane asylum is located within the city limits, occupying a handsome site of 100 acres. A never failing supply of pure fresh water is obtained from artesian wells bored to a depth of from 80 to 120 ft., in which the water rises within 6 ft. of the surface. Pop. 10,282.

Stockton, Ga., p.v. and tp., Clinch co., 8 m. S.W. Dupont by S.F.&W.R.R. Pop. of tp. 465.

Superior, Neb., p.v. in Nuckolls co., on B.&M. R.R. in N., 20 m. E. of Red Cloud. It has a nat. and a State bank and 2 wkly papers. Pop. 512.

Superior, *O.*, tp., Williams co. Pop. 1,845.

Superior, *Wis.*, a thriving p.v. in Superior tp., cap. of Douglas co., is located at the extreme N.W. corner of the State, on Lake Superior, at the mouth of St. Louis and Nenadji Rs., and on a branch of N.P.R.R., 7 m. from Duluth. It has a good harbor, a high school, a nat. bank, a wkly paper, and several factories. Exports, lumber, fish and furs. Pop. of tp. 655.

Superior Lake, the largest of the great lakes of North America, and supposed to be the largest body of fresh water on the surface of the globe. It is roughly triangular in outline, and is bounded N.W. by Minnesota and the province of Ontario, N.E. by Ontario, and S. by Wisconsin and Michigan. Its length is abt. 380 m., its breadth 130 and its circumference between 1,400 and 1,500 m. It is surrounded mostly by a rocky, uneven, and sterile coast. It contains many considerable islands, the largest of which, in the N.W. part, is Isle Royal. Its waters abound with fish, particularly trout, sturgeon, and white fish, which are caught at all seasons. The trout taken in this lake generally weigh abt. 12 pounds, but many are larger than this, even up to 50 pounds. The elevation of the lake's surface above the ocean is 641 feet, and the mean depth of its bottom 900 feet. This lake is subject to as violent agitation from storms as the broad Atlantic, and its navigation is quite as dangerous. More than 30 rivers empty their waters into Lake Superior, which are all discharged by the outlet of St. Mary's Strait, or River, into Lake Huron, towards the E. The boundary line between the U.S. and the British possessions passes from its outlet through the middle of the E. section of this lake; but towards the W. it is carried clear round to the N. of Isle Royal, giving that island and the whole body of the lake below it to the U.S.; then passing round the W. extremity of the island, it inclines S. to the entrance of Pigeon R., leaving the largest part of this section of the lake on the British side. The Pictured Rocks, so called, towards the E. end of Lake Superior, are a great natural curiosity. They form a perpendicular wall 300 feet high, extending about 12 m. along the shore of the lake. Upon the face of this wall are numerous indentations and projections, from which they have received their name, and at the base are many deep reeding caverns, into which the waves, especially when lashed by storms, roll and reverberate with a tremendous roar. At one place, at the height of 70 feet, a considerable stream leaps out, at a single burst from this lofty palisade of rocks into the lake, leaving a clear space for boats to pass behind its descending column. At another place four huge piers of the rock bear up a vast stratum or entablature of the same, with earth resting upon it, upon which are growing trees of spruce and pine, some of which stand 50 or 60 feet high. This is appropriately called the Doric Rock, from its remarkable resemblance to a work of art. The American side of the lake is generally lower and more sandy than the Canadian side, and is especially rich in its abundant deposits of native copper, with which native silver is often associated, and in the not less valuable beds of red hematite iron ores, which are extensively wrought.

Suplee, or DAMPMAN'S STATION, *Pu.*, p.h. in Honey Brook tp., Chester tp., on a branch of Penn. RR., 18 m. N.W. West Chester. Pop. 50.

Supply, *Ark.*, p.o., Randolph co.

Supply, *N.C.*, p.v., Brunswick co., abt. 25 m. S.W. Wilmington. Pop. 100.

Susanville, *Cal.*, p.v., cap. of Lassen co., in Honey Lake Valley, E. of the Sierra Nevada Mts., on Susan R. (a small stream which falls into Honey Lake in Lassen co.), 150 m. N.N.E. Sacramento, end of Honey Lake Valley, over 4,000 ft. above the sea, and abt. 100 m. E. of Marysville. It has a graded school and 2 wkly papers. Its surroundings are mountainous and devoted to pasturage. Pop. 500.

Sur'song, *Tenn.*, p.o., Greene co.

Suspension, *Ala.*, p.tp., Bullock co. P. 1,325.

Suspension Bridge, *N.Y.*, p.v., in Niagara rap., Niagara co. See NIAGARA.

Susquehanna, *Pa.*, a river, formed by the union of its E. and W. branches at Northumberland, Pa. The E. branch, the larger, rises in Otsego Lake, Otsego co., N.Y., at an elevation of 1,300 ft. Its course is S. and then S.W. to the Pa. line, which it crosses twice, afterward flowing S.E., and thence S.W. to the junction. The W. branch rises in Cambria co., Pa. It has a very tortuous and generally E. course through a region abounding in timber and coal, but less celebrated for its fertility and beauty than the valley of the E. branch, a portion of which, called the Wyoming Valley, is world-renowned for the historic events of which it has been the scene, as well as for the mineral wealth which it contains. The main Susquehanna flows first in a S. and then in a S.E. course through a wide, open, exceedingly fertile, and very picturesque country of Devonian slates and limestones. It reaches the head of Chesapeake Bay at Port Deposit, Md. It is a wide and stately stream, but is shallow, and is nowhere navigable to any extent, save in the spring, when the freshets bring down great rafts of logs and lumber and some loaded boats. The length of the main stream is 150 m., of the W. branch 200 m., of the E. (or N.) branch 250 m. The branches afford great water-power. The

main stream and both branches have been canalized, but the railroads have to a great extent rendered the canals useless.

—a N.E. co., bordering on N.Y., and drained by tributaries of the Susquehanna R. a portion of which lies in the N. part of the county; area, 830 sq. m. The surface is very hilly, and the soil fertile and well adapted to grazing. Timber is abundant, and the export trade in pine lumber is very extensive. The chief prod. in 1880 were 760,579 bush. of oats, 436,249 of corn, 164,147 of buckwheat, 55,895 of wheat, and 37,191 of rye; butter, potatoes, and wool, are also largely produced. Cap., Montrose. Val. of taxable prop. abt. \$16,000,000. Pop. 46,351 (of whom 3,608 for., and 219 colored).

—tp., Cambria co. Pop. 949.

—tp., Dauphin co. Pop. 2,411. See ROCKVILLE.

—tp., Juniata co. Pop. 733.

—tp., Lycoming co. Pop. 330.

—Lycoming co. See NISBET.

—p. borough, Susquehanna co., on Susquehanna R. and N.Y., L.E. & W.R.R., 10 m. S.W. Montrose. It has 6 churches, graded and private schools, a convent, a college, a good public library, 2 public halls, a public and a private bank, and 2 wkly papers. Among the industrial enterprises, which are various and extensive, are found 3 planing-mills, a brewery, a flour and a saw-mill, and the mechanical shops connected with the railroad. Pop. 3,467.

Sussex, Del., a S. co., bordering on Md., Delaware Bay, and the Atlantic, and drained by affluents of the Nanticoke and Pocomoke Rs. and other streams; area, 900 sq. m. The surface is almost level and the soil fertile. The chief prod. in 1880 were 1,424,031 bush. of corn, 153,596 of wheat, and 31,094 of oats. Cap., Georgetown. Val. of taxable prop. abt. \$20,000,000. Pop. 36,031 (of whom 134 for., and 5,698 colored).

Sussex, N.J., a N. co., bordering on N.Y. and Pa., bounded N.W. by the Delaware R. and drained by the Flatkill, Paulinskill, Walkill, and Pequest; area, 500 sq. m. The Blue Mts. traverse the W. and the Hamburg and Wawayanda Mts. the E. part, and the remainder of the surface is very hilly; the soil is very fertile. The Hopatcong Lake is in the S.E. part, and supplies the summit level of the Morris Canal; and there are several other small lakes. Franklinite iron ore, red oxide of zinc, and other minerals are found. The chief prod. in 1880 were 571,484 bush. of corn, 229,537 of oats, 119,899 of buckwheat, 98,300 of rye, and 30,500 of wheat; also dairy produce. Cap., Newton. Val. of taxable prop. \$14,192,383. Pop. 23,553 (of whom 1,000 for., and 172 colored).

Sussex, Va., a S.E. co., bounded N.E. by Blackwater R. and intersected by the Nottoway; area, 400 sq. m. The surface is hilly and the soil fertile. The chief prod. in 1880 were 163,686 bush. of corn, and 25,337 of oats. Cap., Sussex Court House. Val. of taxable prop. abt. \$1,500,000. Pop. 10,062 (of whom 6,701 colored).

Sussex, Wis., p.v. in Lisbon tp., Waukesha co., 5 m. N. of Pewaukee Station. Pop. 131.

Sussex Court House, Va., p.v. and tp., cap. of Sussex co., 25 m. S.E. Petersburg. Pop. 22; of tp. 2,166.

Sussex Mills, N.J., p.o., Sussex co.

Sutalee, Ga., p.o., Cherokee co.

Syracuse, N.Y., one of the largest of the interior cities, cap. of Onondaga co., is pleasantly situated at the S. end of Onondaga Lake, at the mouth of Onondaga Creek, at the junction of Lake Erie and Oswego canals, and on the N.Y., C. & H.R., the R., W. & O., the S., B. & N.Y., and the S., C. & N.Y. R.Rs., 147 m. W. by N. Albany and 150 m. E. of Buffalo. It is regularly laid out and handsomely built. The principal public buildings are the court-house, the city hall, and the State armory, which covers an area of 35,000 sq. ft. The public and charitable institutions are the county penitentiary, a vast structure on a hill a mile N.E. of the city, the New York State asylum for idiots, the home association for elderly females, the Onondaga co. orphan asylum, the asylum of St. Vincent de Paul, the house of the good Shepherd, and St. Joseph's hospital. The first Presbyterian church, the costliest in the city, is of Fulton brown stone in the middle Gothic style, with

a lofty spire. Syracuse was first noted for its extensive salt works, which, before the opening of the salt wells in Michigan, were the largest in America. There are 20 salt companies, which manuf. both by solar and artificial heat, employing a vast amount of capital and hundreds of men. The manuf. establishments of Syracuse are numerous and important. Among them are 2 rolling mills, numerous furnaces, glassworks, steelworks, agricultural machine works, numerous barrel factories, 7 breweries and many others. The wholesale trade of the city is very large, aggregating many millions of dollars annually. There are large wholesale houses in drygoods, groceries, clothing, drugs and medicines, leather, boots and shoes, malt liquors, tobacco and cigars, etc. Syracuse had, in 1833, 8 nat. State and savings banks, and several private bankers. Each of these institutions has erected a large and elegant banking edifice in the central part of the city. The public school system is complete in all its appointments, and in the most prosperous condition. In 1880 they were taught by 177 instructors, all but 8 of them women, in 19 school buildings. The number of pupils enrolled was 9,310 and the average attendance 7,037. The day schools are classed as primary, junior, senior, high, and ungraded, each of the first 3 extending over 3 years. The high school had an enrollment of 414, with 282 in average attendance, the graduating class numbering 41. The Syracuse university was established by the Methodists in 1870, and opened in 1871. The plan is that of an assemblage of colleges of both undergraduate and professional grades, and three of these have been established, viz.: the college of the liberal arts, which confers degrees in the arts, philosophy, and science; the college of physicians and surgeons; and the college of the fine arts. The library contains abt. 8,000 volumes. All the colleges are open to students of both sexes, who pursue the same courses of instruction in the same classes. While the responsibility of support and direction devolves mainly upon the Methodist Episcopal church, all sectarian differences are ignored, and attendance upon chapel exercises is not compulsory. There are 3 public libraries—the central library, located in the high school building, and containing 14,000 volumes; the library of the court of appeals, in the court-house, containing 8,000 to 9,000 volumes, generally of a legal character; and a small library in the rooms of the young men's christian association. In 1882 there were 20 newspapers and periodicals, of which 4 were daily. The church organizations of the city are numerous, representing 13 or 14 different denominations, and numbering not less than 45 congregations. There are 7 cemeteries, of which Oakwood and St. Agnes are large and very tastefully laid out. The city is divided into 8 wards, and is governed by a mayor and a board of eight aldermen. It has an effective police force, a good fire department, water works, and street railroads. Syracuse was first settled in 1797. It was incorporated as a village in 1825, and became a city in 1847. Pop. in 1850, 22,271; in 1860, 28,119; in 1870, 43,051; in 1880, 51,791.

Syracuse, O., p.v. in Sutton tp., Meigs co., on the Ohio R., 6 m. above Pomeroy. It has a high school. Coal is extensively mined and salt manufactured here. Pop. 1,545.

Tate, Ga., p.o., Pickens co.
Tate, Miss., a N.W. co., drained by Coldwater R.; area, 390 sq. m. The surface is undulating and the soil fertile. The chief prod. in 1880 were 467,144 bush. of corn, 17,628 of oats, and 22,653 bales of cotton. Cap., Senatobia. Val. of taxable prop. abt. \$4,000,000. Pop. 18,721 (of whom 6,932 colored).
Tate, O., tp., Clermont co. Pop. 2,754.
Tate Creek, W. Va., p.o., Braxton co.
Tate Springs, Tenn., p.v., Grainger co., 9 m. N.E. Rutledge. It has a valuable mineral spring, whose waters are largely exported. Pop. 100.
Tatesville, Pa., p.v. in Hopewell tp., Bedford co., on H. & B. T. M. RR., 3½ m. N. of Everett. Pop. 93.
Tatesville, Tenn., p.o., Grundy co.
Tateville, Ky., p.o., Pulaski co.
Tat'nall, Ga., a S.E. co., bounded S. by Altamaha R. and N.E. by the Cannoochee, and intersected by the Great Ohoopce R.; area, 1,100 sq. m. The surface is level, and the soil sandy and mostly poor. The chief prod. in 1880 were 96,189 bush. of corn, 36,953 of oats, 30,018 galls. of molasses, and 169,153 lbs. of rice. Cap., Reidsville. Val. of taxable prop. abt. \$1,000,000. Pop. 6,985 (of whom 1,974 colored).
Tatons, N. C., tp., Columbus co. Pop. 1,347.
Tatou'ka, Kan., p.o., Ellsworth co.
Tatum, Ga., p.o., Forsyth co.
Tatunville, Ark., p.o., Saline co.
Taughan'nock Falls, N. Y., p.o., Tompkins co., 1½ m. from Cayuga Lake, and 10 m. N.W. Ithaca by G. I. & L. RR. Here a creek called Taghikanic or Taughan'nock falls perpendicularly 215 ft. into a rocky basin, forming a splendid cataract more than 50 ft. higher than Niagara. At the bottom of the falls the walls of the ravine are nearly perpendicular and 400 ft. high.
Taunton, Mass., a city, cap. of Bristol co., at the head of navigation on Taunton R., 24 m. from Narragansett Bay, and on O. C. RR., 32 m. S. of Boston, and 11 m. E. of Providence. It is a busy and beautiful city, in whose centre is a handsome park called "the green." There are many elegant residences, some of great cost, to which are attached

gardens and conservatories. The principal public buildings are the court house, city hall, hotels, school houses and churches. The principal charitable institutions are the insane asylum, the city almshouse, and a house for aged and infirm women. There are abt. 20 churches, a high school, an incorporated academy, a public library of 13,000 volumes, 3 nat. 1 private, and 2 savings banks, 1 daily and 3 wkly papers. Taunton has from the beginning been noted for its manuf. of brick and iron, the latter being at present the leading business, and employing a capital of above \$2,000,000. There are 2 locomotive works, 2 tack and nail factories, several foundries and machine shops, &c. In copper manuf. a capital of abt. \$1,000,000 is invested. The Taunton copper company, the oldest and largest in the U. States, has been incorporated nearly 50 years. Its products are copper, sheet zinc, and yellow metal sheathing. Among other establishments are 2 manuf. of silver-plated and britannia ware, 4 of stove linings and fire-brick, 2 of crucibles, 5 cotton factories, a flannel factory, a carriage factory, &c. The coasting trade is important. Taunton and Taunton R. are also proverbial for their herring fisheries, the privileges of which are still annually sold, though few of the inhabitants now pursue this branch of industry. Large quantities of shad and alewives are taken from the river in April and May. Pop. 21,213.

Taunton River, Mass., a pleasant navigable stream, is formed by the union of Matfield and Winnetuxet Rs. near Ilalifax. Passing Taunton, it extends into a wide estuary, which opens into Mount Hope Bay at the city of Fall River. It is celebrated for the great hydraulic power it affords, and for the number of alewives within its waters.

Tavern, Mo., tp., Pulaski co. Pop. 1,232.

Tennessee', a large river and the chief affluent of the Ohio has its sources in the Alleghany Mts. in Tazewell and Wise cos., Va. Its principal head tributaries are the Holston and the Clinch Rs., the former of which receives the French Broad R., and the latter Powell's R. The Holston and Clinch unite at Kingston, in Roan co., Tenn., and thence the course of the main stream is about S.W., until it crosses the boundary of Ala. near the N.E. corner of the State, and continuing 50 or 60 m. in this direction bends toward the N.W., breaking through the Cumberland Mts., and traversing the entire N. end of Alabama, until, cutting off a small corner of Miss., it emerges again into Tenn., where it immediately takes a course due N., crossing the State and entering Ky., across the Western point of which, bearing a little farther to the W., it flows on to its confluence with the Ohio, which is only abt. 12 m. below the mouth of the Cumberland R. The valley of the Tennessee divides itself into two great sections, the upper and the lower. The upper valley is that which is above the passage of the river through the Cumberland Mts., and is included between the two parallel chains of the Appalachian system, which form a connection just below this pass. This upper section is mountainous and much elevated, embracing an area of about 24,000 sq. m. The lower valley of the Tennessee is composed of several physical sections, in N. Ala. W. Tenn., and Ky., comprising in all an area of 17,600 sq. m. Thus the whole valley of this large river embraces a superficial extent of 41,600 sq. m. It is, therefore, by this standard of estimation, as well as from its comparative length, which is near 1,200 m. and from the large volume of water which it carries, entitled to the first rank among the tributaries of the Ohio. The difference in the relative height between the highest and the lowest extremes of the upper and lower valleys of the Tennessee is not less than 1,700 ft. The current of every branch of the river is very rapid though there are few, if any, direct falls in them, and they generally admit of boat navigation nearly to their sources. The whole river has a mean fall of 2 ft. to the mile. It is navigable, excepting at low water, for steamboats, from its mouth to Florence, in Ala., a distance of 259 m. Here are the Muscle Shoals, wherethe river expands to a width of several miles, and is very shallow. A canal has been made around these shoals, 36 m. long to admit the passage of steamboats, and the navigation of the river above is unobstructed for 250 m. to the pass of the Cumberland Mts. The river is here compressed to a width of 70 ft. besides being whirled around a projecting cliff, occasioning a very difficult current for boats whether ascending or descending. The river above this point is only favorable to navigation with the stream.

—a S. State, bounded N. by Kentucky and Virginia, S.E. by North Carolina, S. by Georgia, Alabama and Mississippi and W. by Arkansas and Missouri. It is situated between lat. 35° and 36° 35' and lon. 81° 40' and 90° 28' W.; extreme length from E. to W. 430 m., breadth from N. to S. 110 m.; area, 41,750 sq. m. Within the State are parts of two great mountain ranges which extend quite across, running from N. E. to S.W. The first of these is the Appalachian chain, which by its greater axis forms the dividing

line between N. C. and Tenn. These mountains, known locally as the Unakas or Great Smoky Mts., occupy a belt within the eastern portion of the State, and as before stated, extend entirely across it. Their highest peaks rise to an altitude of more than 6,000 feet. The mountain chain is cut into deep, rocky gorges, affording channels for the passage of tributaries of the Holston and Tennessee Rs., which enter the State from N. C. and Ga. Entangled, as it were, between this mountain range and its outliers are a number of coves and valleys of great beauty and fertility. The second mountain chain is known in Tenn. as the Cumberland Mts., which enter from S.W. Va. and S.E. Ky., and extend to the Ala. and Ga. line. This range consists mainly of an elevated plateau or table-land, having a comparatively level surface and an elevation of abt. 2,000 ft. Its width varies from 30 to 60 m. Its E. escarpment is generally regular and precipitous. Walden's Ridge, which may be regarded as an outlier of the Cumberland Mts., is separated from the main plateau by the Sequatchee Valley, and extends along its E. base nearly across the State, and gives rise to some peaks which tower considerably above the general level of the plateau. South of the Tennessee R., near Chattanooga, Lookout Mountain rises just within the limits of Tenn. and extends into Ga. The W. face of the plateau is much fringed and notched by coves which cut their way far into the mountain. Some of the W. outliers form peaks which rise to the level of the plateau. This mountain range forms the dividing line between the civil divisions of the State, known respectively as East and Middle Tenn. The State has 3 great rivers which, with their tributaries, constitute 3 great river systems. The first of these, as it finally receives the waters of the other two, is the Mississippi, which, in its tortuous, though generally S. course for several hundred miles, washes the W. shores of Tenn. The two other great rivers are the Tennessee (described above), and the Cumberland (given at its alphabetical order).—Tenn. is divided into East, Middle and West Tenn. Each of these divisions constitutes a Federal district. East Tenn. is bounded on the south by Ga., E. by N. C., N. by Va. and Ky., and on the W. it adjoins Middle Tenn. near the center of the Cumberland Plateau. East Tenn. is noted for the fertility of its valleys, the beauty of its mountain scenery, the salubrity of its climate and its rich mineral deposits, especially numerous valuable mines of iron and coal so adjacent to and convenient that Knoxville forms one of the best centers for iron in the South. Already there are several large foundries and furnaces located at Knoxville. Chattanooga has more manufactures of iron than any other place in Tenn. East Tenn. embraces 34 cos., viz.: Anderson, Bledsoe, Blount, Bradley, Campbell, Carter, Claiborne, Cocke, Grainger, Greene, Hamblen, Hamilton, Hancock, Hawkins, James, Jefferson, Johnson, Knox, Loudon, Marion, McMinn, Meigs, Monroe, Morgan, Polk, Rhea, Roane, Scott, Sequatchee, Sevier, Sullivan, Unicoi, Union, Washington.—Middle Tenn. embraces the territory lying between the dividing line of East and Middle Tenn. passing over the central portion of the Cumberland Plateau, and the Tennessee R., where it crosses the S. boundary of the State, and pursuing a N. course crosses the State line into Ky. It includes the great Limestone Basin and the surrounding Highland Rim, or more properly, Plateau of Middle Tenn., and a portion of the Cumberland Plateau. The basin is a rich and populous section, more fully developed than most portions of the State. The plateau portion, while generally less fertile, yet has much valuable arable land. The E. portion contains vast deposits of coal and also iron, while the W. part of the plateau is one vast iron field. All portions of this division

are bountifully supplied with timber. Limestone of good quality is found almost everywhere, and an excellent marble in some localities. The principal navigable stream is the Cumberland, though there are hundreds of smaller streams, affording abundance of water power. This division contains 41 cos., viz.: Bedford, Cannon, Cheatham, Clay, Coffee, Cumberland, Davidson, De Kalb, Dickson, Fentress, Franklin, Giles, Grundy, Hickman, Houston, Humphreys, Jackson, Lawrence, Lewis, Lincoln, Macon, Marshall, Maury, Montgomery, Moore, Overton, Perry, Pickett, Putnam, Robertson, Rutherford, Smith, Stewart, Sumner, Trousdale, Van Buren, Warren, Wayne, White, Williamson, Wilson.—West Tennessee lies between the Tennessee and Mississippi Rs. Agriculturally speaking, it is one of the finest bodies of land in the State or South. It is well adapted to all branches of agriculture, although the soil varies very greatly in its composition and character. From 3 to 10 miles W. of the Tennessee R. is a rich bottom, and from 10 to 40 m. E. of the Mississippi R. is another bottom of surpassing fertility. The latter is noted all over the world for the profuse luxuriance of its vegetation. The soil is unfathomable and will produce the most abundant crops, without manure, from year to year. Between the two rivers is a gradual slope from E. to W. which for the most part is sandy loam. It being warm, the soil loose, it makes quick growth, and is therefore finely adapted to all crops that require a fast growth, especially garden stuffs and small vegetables. The timber of West Tenn. is very valuable and plentiful. Much of the timber that goes to making farm implements in the N. is derived from West Tenn. Fruit grows splendidly from the looseness of the subsoil. Memphis, formerly the largest, now the second city in the State, is in this section. Every co. has a populous town in it, some of them being very fine ones. Jackson, next to Nashville, Memphis and Knoxville, is a great manufacturing center, and several other points are putting up furniture establishments. This is close to the excellent lumber which is practically boundless in West Tenn. The bottoms on the Mississippi R. are capable, if properly cultivated, of feeding the entire State. The soil makes over a bale of cotton per acre, or from sixty to one hundred bushels of corn. The cos. of this division are: Benton, Carroll, Chester (recently formed from parts of Madison, Henderson, McNairy and Hardeman), Crockett, Decatur, Dyer, Fayette, Gibson, Hardeman, Hardin, Haywood, Henderson, Henry, Lake, Lauderdale, Madison, McNairy, Obion, Perry, Shelby, Tipton, Weakley.—The products of the State are of all kinds cultivated in the temperate zone. Cotton is the staple of West Tenn., grain of the Middle, and stock-raising of East Tenn. Tobacco is grown in every co. in the State.—The climate of Tenn. is as varied as her topography. The isothermal lines crossing the State are: Spring, 5°-60°; summer, 71°-77°; autumn, 55°-60°; winter, 35°-46°; yearly mean, 60°. During the year 1880 the mean temperature at Knoxville was 57.5°, and the maximum 99°. At Nashville the mean was 61.3°, and the maximum 106°; upon 63 days during June, July and August the mercury rose to 90°, and upon 7 days it reached 100°. At Memphis the thermometer indicated a temperature of 100° upon 4 days, and one day rose to 101.5°, the mean was 61.6 degrees. The rainfall at Memphis was 49.39 inches, at Nashville 59.76 inches and at Knoxville 63.50 inches. Snow occasionally falls throughout the State, varying in quantity from the lightest covering to the earth to from 4 to 6 inches, and in rare instances reaching the depth of 12 to 18 inches. Except in the mountain regions it seldom remains upon the

ground more than a few days. Ice is sometimes formed from 4 to 10 inches in thickness. For a period of 10 years the average number of days during which the wind blew from different points of the compass were as follows: North, 120; Northeast, 128; East, 105; Southeast, 119; South, 176; Southwest, 116; West, 75; Northwest, 130; calm, 126. The climatic conditions of Tenn. are highly favorable to health and longevity. The cool and bracing atmosphere of the Cumberland Plateau, and of the elevated portions of East Tenn. render those parts of the State delightful as resorts during Summer heats.—In 1880, according to the census, the chief productions were:

Products.	Quantity produced.	Yield per acre.	Acres in each crop.	Value.
Indian corn.....bush.	62,469,792	22.4	2,788,830	\$22,189,125
Wheat.....do.	7,538,400	6	1,256,400	7,587,632
Rye.....do.	257,081	8.5	30,246	1,766
Oats.....do.	5,848,570	13	449,890	2,334,428
Barley.....do.	38,565	15	2,571	25,910
Buckwheat.....do.	75,440	16.4	4,600	47,527
Potatoes.....do.	1,174,250	77	15,250	587,125
Tobacco.....lbs.	24,319,890	630	38,603	2,188,790
Hay.....tons.	168,842	1.51	109,829	2,139,362
Cotton.....lbs.	165,683,600	203	816,200	14,911,974
Total.....			5,512,419	\$52,302,549

There were 266,119 horses; 173,488 mules; 303,832 milch cows; 27,320 working oxen; 452,462 other cattle; 673,117 sheep; and 2,158,169 hogs.—The total production of the coal miners in 1880 was 494,491 tons, value \$628,954. The yield of the iron mines was 89,933 tons of ore, value \$129,951. There were in Tenn. 4,326 manuf. establishments, employing 22,445 hands; capital invested, \$20,092,845; wages paid during the year, \$5,234,775; value of materials, \$23,836,262; value of products, \$37,074,886. The State had 16 cotton mills, working 818 looms and 35,736 spindles. Memphis, Nashville and Chattanooga are U. States ports of delivery, but the foreign commerce is transacted chiefly through New Orleans, Mobile and Charleston. In 1882 there were 93 vessels, all steamers having a tonnage of 14,521, belonging to the ports of Tenn. During that year 9 steamers of 487 tons in aggregate were built, and the State had 1,973 m. of railroad in operation.—Tenn. enjoys peculiar advantages for the higher education of the youth of both sexes. The following universities are located within her limits: Vanderbilt university, at Nashville; Tennessee university, at Knoxville; Wesleyan university, at Athens; Cumberland university, at Lebanon; university of the South, at Sewanee; Southwestern university, at Clarksville; Southwestern Baptist university, at Jackson; and Fisk university (colored), at Nashville; all of which maintain a high standard of scholarship. Besides these universities, all of which except the university of Tennessee, are under the care of some one of the religious denominations of the country, there are large numbers of colleges, collegiate institutes, seminaries, academies and high schools. The university of Tennessee has an agricultural department which is rendering invaluable service to the agricultural interests of the State. In many localities good private schools have been maintained for many years and have established for themselves quite enviable reputations. Under the laws of Tenn. each city and incorporated town has authority to levy a tax for school purposes, and the large majority of them have availed themselves of the privilege and established graded schools of good character. The State has a well arranged system of free schools, which is gradually becoming efficient for the education of the masses of her children. The

total expenditure for free schools in Tenn. during the year 1882 was \$835,629.22. The whole number of free schools taught in the State was 5,603, with an average duration of four months and six days. The average daily attendance upon these schools was 180,509. It is confidently anticipated that within a very few years the rapidly growing interest which is being developed throughout the State will give to the free schools all the efficiency which the friends of popular education can desire. The benevolent institutions sustained by the State, are, the asylum for the insane, located near Nashville; the school for the blind, at Nashville; and the asylum for the deaf and dumb, at Knoxville. The penitentiary at Nashville is conducted on the "silent system."—The general assembly of Tenn. consists of a senate and house of representatives, the former consisting of 33, and the latter of 99 members who are elected for 2 years and hold regular biennial sessions. The governor and other executive officers are chosen for a term of 2 years, with the exception of the secretary of State, who continues in office for 4 years. Five judges, chosen by popular election, constitute the supreme court. Circuit and chancery courts have been established by the legislature. The term of office for judges is 8 years. The State is entitled to 10 representatives in congress, and has therefore 12 electoral votes. In 1882 the total State debt was \$20,229,300, and interest past due and unpaid, \$4,156,522.73. The debt on January 1, 1874, was \$49,173,316.66; the above is under the funding act of 1873. There are also \$785,000 outstanding bonds which have not been renewed or registered. Assessed valuation for 1880—real estate, \$195,635,100; personally, \$16,133,338; and railroads, \$16,375,894—total, \$228,144,332. Tax rate, 1 mill—\$228,144.33. For the two years ending Dec. 18, 1880, the receipts from all sources amounted to \$1,144,394.82, and the payments to \$1,400,316.47. Excess of payments, \$255,921.65. An act passed in 1881 provided for refunding the debt in bonds bearing 3 per cent. interest, and covering the full face of the old bonds, and 12 overdue coupons, including that of July 1, 1881. Coupons to be receivable for taxes on Feb. 10, 1882. The State supreme court held this law to be unconstitutional.—In 1754 a settlement was made by colonists from N.C. who were soon driven away by hostile Indians. The first permanent settlement W. of the Alleghanies was made on the Tennessee R. in 1756, when Fort Loudon was erected. Four years later the Cherokee Indians captured the fort and butchered or reduced to captivity all the whites. Until 1789 the territory was regarded as belonging to N.C. In that year it was ceded to the general government. A territorial government was organized in 1794, and Tenn. was admitted to the Union as the 16th State June 1, 1796. On the 8th of June, 1861, a majority voted to separate from the U. States and to unite with the Southern confederacy. Full relations to the Union were restored July 24, 1866. A new constitution was ratified by the people March 26, 1870. Pop. in 1790, 35,691; in 1810, 261,727; in 1830, 681,904; in 1860, 1,109,801 (of whom 275,719 slaves, and 7,300 free colored); in 1870, 1,258,520; in 1880, 1,542,359 (of whom 769,277 males and 773,082 females, 1,525,657 natives and 16,702 of foreign birth, 1,138,831 whites, 403,151 colored, 136 Chinese, and 992 Indians).

Tennessee, Ark., tp., Grant co. Pop. 435.

Tennessee, Ill., p.v. and tp., McDonough co., 8 m. S.W. Macomb by C., B. & Q. RR. It has a graded school and extensive coal-mines. Pop. 262; of tp. 1,085.

Ter'ra pin, Kan., p.o., Kingman co.

Terrapin Creek, Col., rises in Arapahoe co., flows N. for abt. 70 m. through Arapahoe co., and falls into the South Platte R. in Weld co., abt. 12 m. E. of Evans.

Terrapin Hill, Ala., p.o., Coosa co.

Terra'ville, Dak., p.o., Lawrence co.

Terre Bonne, La., a S.E. parish, bordering on the Gulf of Mexico, and drained by the Terre Bonne, Black, and Caillou bayous; area, 1,806 sq. m. The surface is flat and marshy, and diversified by numerous shallow lakes. The chief prod. in 1880 were 291,833 bush. of corn, 897,355 galls. of moaissees, 13,751 hhds. of sugar, and 397,554 lbs. of rice. Cap., Houma. Val. of taxable prop. abt. \$4,500,000. Pop. 17,956 (of whom 310 for., 9,133 colored, and 210 Indians).

—p.v. in above parish, 55 m. W. by S. from New Orleans by M.L. & T. RR. Pop. 100.

Terre Bonne, Minn., p.tp., Polk co. Pop. 155.

Terre Coupee, Ind., p.h. in Olive tp., St. Joseph co., 1½ m. from its station on L.S. & M.S. RR., 14 m. N.W. Bend. Pop. 50.

Terre Haute (ter're hôt), Ill., p.v. ♦ and tp., Henderson co., 12 m. S.E. Burlington, Iowa. Pop. 164; of tp. 970.

Terre Haute, Ind., a beautiful city ♦, the 3d in the State in pop. and wealth, cap. of Vigo co., is most delightfully situated upon an elevation of abt. 60 ft. on the E. bank of Wabash R., near the lower edge of Fort Harrison prairie, regarded as the finest in the co., 73 m. W. of Indianapolis, and 102 m. N. of Evansville. It is nearly equi-distant from each of the cities of Cincinnati, Chicago and St. Louis, with which and all other parts of the country it is connected by the C. & E. I., the I. M., the I. & St. L., the St. L., V., T. H. & L., and the T. H. & S. E. RR.s. In consequence of its proximity to the black coal-fields of Clay county, only 12 m., and the rich beds of bituminous coal all around it, making the price of that fuel only the cost of mining and delivering it, the city has developed in the past decade into one of the

most important manuf. cities in the State, prominent among which is the iron and nail works, and car works, the Hudnut hominy mills, which are the largest in the world, having a grinding capacity of 1,000 barrels per day, and a storage capacity of 300,000 bushels, in addition to several foundries, mills, and machine shops of various kinds. The Indiana State normal school and the Rose polytechnic institute are located here. Terre Haute has 31 churches, 2 nat. and 4 other banks, 3 daily, 9 wkly and 2 monthly papers, gas and water-works, and all the modern metropolitan conveniences. Here is the magnetic Artesian well, much valued for the curative qualities of its waters. Pop. in 1870, 16,103; in 1880, 26,040.

Terre Haute, Iowa, p.v. in Burrell tp., Decatur co., 5 m. N.W. Davis City Station. Pop. 110.

Terre Haute, Mo., p.h. in Medicine tp., Putnam co., 15 m. S.W. Unionville. Pop. 57.

Terre Haute, O., p.h. in Mad River tp., Champaign co., 9 m. S.W. Urbana. Pop. 135.

Terre Hill, Pa., p.v. in East Earl tp., Lancaster co., 20 m. N.E. Lancaster, and 3 m. from East Earl Station. Manuf., cigars. Pop. 470.

Terrell, Ga., a S.W. co., drained by affluents of Flint R.; area, 320 sq. m. The surface is nearly level. The chief prod. in 1880 were 137,882 bush. of corn, 42,830 of oats, 38,500 galls. of molasses, and 6,944 bales of cotton. Cap., Dawson. Val. of taxable prop. abt. \$2,500,000. Pop. 10,451 (of whom 6,184 colored).

Terrell, Tex., p.v.♦, Kaufman co., 31 m. E. of Dallas by Southern and Rio Grande div. of T.&P.R.R. It has 2 banks, 4 wkly papers, an institute, 2 grain-elevators, &c., and is an important shipping point for cotton. Pop. 3,763.

Terrene, Miss., p.v., Bolivar co., on the Mississippi R., 4 m. above Floreyville. Pop. 125.

Terre Noir, Ark., tp., Clark co. Pop. 1,148.

Terrytown, Pa., p.v. in Terry tp., Bradford co., on Susquehanna R., 3 m. from Wyalusing Station. Pop. 175.

Terryville, Tex., p.v., De Witt co., 15 m. E. of Cuero. Pop. 100.

Tesenta, N.C., p.o., Macon co.

Tesentee, Ga., tp., White co. Pop. 440.

Tesna tee, Ga., p.o., White co.

Tess Corners, Wis., p.o., Waukesha co.

Tete de Mort (tat da mort), Iowa, tp., Jackson co. Pop. 909.

Teton, Idaho, a stock-raising region in Oncida co., partly surrounded by mountains. It is over 800 sq. m. in extent, is covered with perennial grasses, and well watered.

Teton ka, Dak., p.o., Spink co.

Teton Mts., Idaho, a lofty range of the Rocky Mts., in Oneida co., trending from Mt. Madison in a southerly direction, and bounding on the W. the Teton Basin, a fertile plain of more than 800 sq. m. in extent, and watered by Teton R., a tributary of the North fork of Snake R. Prof. F. V. Hayden found two of their highest peaks, Mt. Hayden and Grand Teton, to be respectively 13,858 and 13,588 ft. above the sea.

Teton River, Mont., rises in the Rocky Mts.

in the W. part of Choteau co., flows E. for abt. 175 m., and joins Marias R. some miles above its mouth into the Missouri.

Tetting'ou, Va., p.o., Charles City co.

Teutopolis, Ill., p.v.♦ and tp., Ellingham co., 4 m. E. of Ellingham by St. L., V., T. H. & I. R.R. Here are St. Joseph's ecclesiastical college, and a Franciscan monastery. Pop. 564; of tp. 552.

Tevis-ton, Ariz., p.o., Cochise co.

Tewksbury, Mass., p.v. and tp., Middlesex co., 5 m. E. of Lowell by B., L. & C. R.R. Pop. of tp. 2,171.

Tewksbury, N.J., tp., Hunterdon co. Pop. 2,108.

Texan'a, Tex., p.v.♦, cap. of Jackson co., on Navidad R., at the head of steamboat navigation, 28 m. W. by N. from Victoria. Pop. 152.

Texarkana, Ark., p.town♦, cap. of Miller co., on the boundary line between Ark. and Tex., on T. & P. and St. L., I. M. & T. R.R.s., 58 m. N. by E. from Jefferson. Part of the town belongs to Bowie co., Tex. It has 2 banks and 3 wkly papers. Pop. in Ark. 1,390; in Tex. 1,833.

Tex'as, a S.W. State, bounded N.W. and N. by New Mexico and the Indian Territory, E. by Arkansas and Louisiana, S.E. by the Gulf of Mexico and S.W. by Mexico. It is situated between lat. 25° 50' and 36° 30' N., and lon. 93° 30' and 107° W. The extreme length is 810 m., the breadth 750 m., and the area 262,290 sq. m., 175,587,840 acres. All of the New England and Middle States, together with Maryland, Virginia and North Carolina, have a smaller extent of territory than this one State of Texas. It is separated from the Indian Territory by the Red R. for 400 m.; from Louisiana by Sabine R., and from Mexico by the Rio Grande. A belt of country, varying from 20 to 100 m. in width, extends along the Gulf of Mexico, comprising in whole or in part the cos. of Cameron, Nences, San Patricio, Refugio, Calhoun, Victoria, Jackson, Wharton, Matagorda, Fort Bend, Brazoria, Chambers, Jefferson and Orange. On this great plain of alluvial formation, occur perhaps the richest lands in the world. Its staple products are sugar and cotton, and its fruits the banana, orange, pear, peach, grape, etc. In healthfulness this section of Texas is equal to that of any alluvial country. The chief diseases are typhus and other fevers. Along the coast are many narrow islands, also of alluvial formation, the configuration of which is sometimes entirely changed by the terrible West Indian hurricanes. *East Texas* embraces the territory E. of Trinity R. as far N. as the N.W. corner of Henderson co., and S. of an imaginary line running from thence to the Red R. The lower portion, 30 or 40 m. in width, is within and has all the characteristics of the alluvial belt. It is the great timber region of Texas, and, indeed, there are few regions anywhere which can excel it in the quality, quantity, and variety of its timber. In some districts the pine prevails almost exclusively on the uplands, in other regions the pine, of gigantic growth, is mixed promiscuously with white oak, cypress, magnolia, hickory, pecan, cedar and a vast variety of other timber. Besides pine there are (as in many other parts of the State) vast tracts of red and white cypress, of enormous size, frequently 6 or 7 ft. in diameter. There is also a great deal of walnut, mulberry and magnolia. The staple crops are cotton and corn. Tobacco of excellent quality is raised, and as a peach-producing country the upper portion of this section is superior to the State of Delaware. The only minerals known to exist are iron ores, which are profitably worked, lignite, gypsum and salt. The health is good throughout the whole section, but especially is in the middle and northern portion. *Central Texas* extends from the Trinity R. on the E. to the Colorado and the 99th degree of lon. on the

W.; and from the 32d parallel of lat. on the N., to the Alluvial Plain on the S. It offers a great diversity of scenery, soil and products, and all (except the latter) differing remarkably from Eastern Texas. These points of difference will be observed as we proceed. Starting from the Gulf Plain, the territory immediately begins to ascend, first by slow gradations and very gentle undulations. Moving still farther N., the elevation becomes more distinct and rapid, and the undulations bold and prominent. This condition increases and intensifies until we reach Austin on the W. side of the line, where we enter a region of highlands and valleys, which as we move northward assumes a somewhat mountainous aspect. The distance from the Alluvial Plain to Austin is about 150 m., and we find that the elevation above the sea has risen above 600 feet in that short distance, or about four feet to the mile. In the E. portion of Central Texas the region of easy ascents and undulations extends much farther N., and on that line no such elevation as that about Austin occurs. The soil is largely a black, sandy loam. The chief products of the S. portion are cotton, corn and oats; while in the N. portion wheat divides the honors with cotton. *North Central Texas* includes all above a line running from the Trinity R. in Navarro co. to the Colorado near Austin. It is a region of lofty highlands, deep valleys and large rolling prairies. The geological formation is mostly cretaceous, limestone being the only rock. There are rapid, sparkling streams filled with fish. It is a region of short, sweet, nutritious grasses, unsurpassed for sheep and horses. The soil of this varied region is nearly altogether a very strong "black-waxy" soil, charged with lime, and having very little sand. Indeed, it is often difficult to detect the presence of any sand whatever. Such a soil might readily be expected from the prevailing limestone rocks. In the valleys, particularly along the great rivers, we find the famous "hog-wallow" prairies. They are so-called from the multitudes of small saucer-like depressions which characterize them. These depressions are from 2 to 5 or 6 ft. in diameter, from a few inches to a foot in depth, and usually very close together. They are usually in valleys, but sometimes found on the summits of the highest hills or undulations, where they have a level surface. In Central Texas is included another subdivision, sometimes called *North Texas*, which lies N. of the 32^d parallel, and is composed of high rolling prairie, with considerable timber. It is this section into which the tide of immigration is now flowing with the greatest strength. North Texas contains a number of young cities which promise to become places of great commercial importance; as, for instance, Marshall, Sherman, Dallas and Fort Worth. *West Texas* embraces that immense scope of territory from the Colorado and the 99th parallel of lon. on the E., to the Rio Grande on the W., and from the upper line of Green, Runnels and Coleman co. on the S., to the Gulf of Mexico. This vast territory contains every imaginable sort of landscape:—the level pampas, the rolling prairie, deep forests, pleasant highlands, lofty tablelands, dark gorges, deep cañons and, finally, lofty and rugged mountains. This region is supposed to possess great mineral wealth, but no thorough geological surveys have been made. Mineral veins are found in nearly all the mountains, but none have been penetrated more than a few feet. Silver, gold, copper, lead and iron have been found in no inconsiderable quantities. Among the products that especially flourish in certain localities of this division of the State, may be mentioned the grape, which, it is prophesied, will here find, eventually, a marvelous development of its culture. Wheat, also, is produced, in a large area, of exceedingly fine quality. The greatest

area of its vast expanse is esteemed to be the best sheep-raising country in the U. States. It is impossible to convey in less than a volume any idea of the diversified soil and production of West Texas, or of its physical characteristics. "*The Rio Handle*" includes all north of the line of the Texas Pacific railway W. of the 99th meridian and E. of the Pecos R. It is a lofty region, its lowest borders being 1,500 ft. above the sea, and its highest 5,100. There are some extensive prairies, and as a stock range it is supposed to have no equal anywhere. It is a new country, only partially known, and now being opened for the first time by railroads. It is believed that there is an abundance of fuel, but not much building timber. It is also thought to have an abundance of water for stock purposes, but not for a dense population. The geological formation is mainly carboniferous, permian and trias. There are extensive seams of coal and some copper and iron. There are also large deposits of salt and gypsum.—Texas has 2 distinct climates with an intermediate region sharing the characteristics of both in a marked degree. There are certain S. and S.S.E. winds which blow from the Gulf, that are charged with moisture which they deposit before reaching the highlands. They temper the summer's heat and make that season pleasant, so that there is an agreeable, moist climate in the S. portion, a hot, dry climate in the N., and an intermediate country in which the two prevail in varied proportions. At Galveston the rainfall was 67.47 inches; at San Antonio, 38.33 inches; at Eagle Pass, 25.43 inches. These figures indicate the humidity of the different sections of the State. The healthfulness of West Texas is excellent. Consumption never originates there, nor is diphtheria known.—The State, except in the region of the Llano Estacado, is well watered, but none of the Texan rivers are navigable for any considerable distance except at high water. The Canadian R. crosses the Bexar territory in the extreme N. end of the State. The Red R. has its source in the Llano Estacado, but neither this nor the Canadian has any large tributaries in the State, though each receives numerous creeks. The Sabine and the Neches discharge their waters into Sabine Lake, draining the extreme eastern portion of the State. Trinity R., rising in Grayson co. in the N., and the San Jacinto, a smaller stream, both discharge their waters into Galveston Bay. The Brazos, one of the largest rivers in the State, has its source in the N., near the Llano Estacado, and flows into the Gulf of Mexico, abt. 36 m. below Galveston; the Colorado, another large river having its source in the Llano Estacado, pursues a course nearly parallel with that of the Brazos, and empties into Matagorda Bay. The Guadalupe and San Antonio Rs. drain a considerable portion of Southern Texas, and unite just below their entrance into San Antonio Bay. Passing the Aranzas R., a little stream falling into Aranzas Bay, we come to the Nueces, a large river, which, with its affluents, drains a large region in S.W. Texas, and discharges its waters into Corpus Christi Bay. Between this river and the Rio Grande, 8 or 10 creeks of no great length flow sluggishly through the lands into the long land-locked sound known as Laguna de la Madre. The Rio Grande del Norte, a very long but shallow river, divides the State from Mexico, and with its principal tributary, the Rio Pecos, drains most of Western Texas. Speaking of the mineral wealth of the country, Col. Forney says: "God in his generosity seems to have given a share of all his best gifts to Texas." Horace Greeley, who made a journey through Texas in 1871, wrote: "As yet the mineral wealth of Texas sleeps undisturbed and useless. She has iron enough to divide the earth by railroads into squares ten miles across, but no ton of it was ever melted. She has at least 5,000 sq. m.

of coal (probably much more), but no ton of it was ever dug for sale. She has gypsum enough to plaster the continent annually for a century, but it lies quiet and valueless—a waste of earth-covered stone." Gold, silver, copper, lead, nickel, alum, cobalt, manganese, arsenic and various precious stones, such as the ruby, agate, garnet, amethyst and opal, have been found. There are large deposits of potters' clay, fire-clay and marl, and extensive quarries of granite, marble, slate, soap-stone, etc. Salt is very abundant. These mineral resources are almost untouched.—In 1880, according to the census of this year, the principal agricultural products were: 72,786 bush. of barley; 29,065,172 of corn; 4,893,359 of oats; 25,399 of rye; 2,567,760 of wheat; 803,642 bales of cotton; 62,152 lbs. of rice; 4,951 hogsheads of sugar and 510,605 gals. of molasses. The farm animals were: 806,099 horses; 132,581 mules and asses; 90,603 working oxen; 606,717 milk cows; 3,387,967 other cattle; 2,411,887 sheep; and 1,954,943 hogs. The weight of the hides of the animals slaughtered in the State, not included in the above, was 28,104,065 lbs. In 1880, Texas was only second to California as a wool-growing State, her wool clips being 14,568,920 lbs., valued at \$2,013,784. Capital is being largely invested in this industry, which many believe to be the most profitable in the State. Great numbers of hogs are raised at small cost, the "mast" being excellent and abundant. The hogs are shipped to market alive, as it is difficult to cure pork in most sections of the State without the use of ice. The Angora goat has been introduced and is being raised with great profit.—There were, in 1880, 2,996 manufacturing establishments, employing 12,159 hands; capital invested, \$9,245,561; wages paid during the year, \$3,343,087; value of materials, \$12,956,269; value of products, \$30,719,928. The most important of these were flour and meal, sawed lumber, cotton-seed cake and oil, packed beef, and stoves. The State has 5 custom districts: Brazos de Santiago (port of entry Brownsville), Corpus Christi, Paso del Norte (El Paso), Saluria (Indianola), and Texas (Galveston). The chief item of export is cotton. The trade with Mexico is important. In 1882 the value of exports were: \$18,377,452; of imports, \$5,099,109. There were 277 vessels of 11,465 tons belonging to the several customs districts. The rivers offering but temporary and uncertain channels of communication, the development of the interior commerce of the State depends chiefly on the railroad system. Railroad construction is making wonderful progress. There were in 1882 30 railroads having 5,344 m. of road in operation in Texas, against 2,591 m. in 1880.—No State has made such endowment for education as Texas. None were able to do so because none had public lands as she has, and so it happens that while the school fund is princely the school tax is light. The lands set apart for education are: For a university, 1,221,400 acres; county school domain, 2,833,920 acres; general school domain, 50,000,000 acres; total, 54,055,320 acres. For the present maintenance of schools there is the interest on the \$3,500,000 permanent fund. This is yielding an annual income of more than \$200,000, and is increasing from land sales \$100,000 a year. The constitution sets apart not more than $\frac{1}{4}$ the general revenue of the State and \$1 poll tax for the support of common schools. In the year 1880 this amounted to \$919,880. Besides this amount there is the interest on the co. school fund, \$550,020. Free schools in 1882 were maintained in 159 counties. Of these, reports were received from only 132 counties; yet in these counties there were 4,523 schools. These were attended by 133,667 white children, and 45,465 colored. In them there were employed 3,258 white teachers and 991 colored, being a total of 4,249 teachers. The State has also estab-

lished 2 normal schools, one of which is for the education of colored teachers. At these schools the students are both educated and boarded without charge. An agricultural college has been located near Bryan, the State appropriating \$200,000 and erecting elegant buildings, in every manner adapted to the uses of a first-class college. A bill has passed the legislature in 1881 for the immediate establishment of a university at Austin in keeping with its princely endowment. There are numerous private and church schools located in all parts of the State.—There were, in 1882, 2,157 penitentiary convicts, of whom 342 on the penitentiary walls at Huntsville, and the balance on plantations, etc.—The State is divided into 210 cos., viz.: Anderson, Angelina, Aransas, Archer, Armstrong, Atascosa, Austin, Bandera, Bastrop, Baylor, Bee, Bell, Bexar, Blanco, Borden, Bosque, Bowie, Brazoria, Brazos, Briscoe, Brown, Burleson, Burnett, Caldwell, Calhoun, Callahan, Cameron, Camp, Cass, Chambers, Cherokee, Childress, Clay, Coleman, Collin, Collingsworth, Colorado, Comal, Comanche, Concho, Cooke, Coryell, Cottle, Crockett, Crosby, Dallas, Dawson, Deaf Smith, Delta, Denton, De Witt, Dickens, Dimmit, Donley, Duval, Eastland, Edwards, Ellis, El Paso, Encinal, Erath, Falls, Fannin, Fayette, Fischer, Floyd, Fort Bend, Franklin, Freestone, Frio, Gaines, Galveston, Garza, Gillespie, Goliad, Gonzales, Gray, Grayson, Gregg, Grimes, Guadalupe, Hall, Hamilton, Hansford, Hardeman, Hardin, Harris, Harrison, Hartley, Haskell, Hayes, Hemphill, Henderson, Hidalgo, Hill, Hood, Hopkins, Houston, Howard, Hunt, Hutchinson, Jack, Jackson, Jasper, Jefferson, Johnson, Jones, Karnes, Kaufman, Kendall, Kent, Kerr, Kimble, King, Kinney, Knox, Lamar, Lampasas, La Salle, Lavaca, Lee, Leon, Liberty, Limestone, Lipscomb, Live Oak, Llano, Lubbock, Lynn, McCulloch, McLennan, McMullen, Madison, Mariou, Martin, Mason, Matagorda, Maverick, Medina, Menard, Milam, Mitchell, Montague, Montgomery, Morris, Motley, Nacogdoches, Navarro, Newton, Nolan, Nueces, Oldham, Orange, Palo Pinto, Panola, Parker, Pecos, Polk, Potter, Presidio, Rams, Randall, Red River, Refugio, Roberts, Robertson, Rockwall, Runnels, Rusk, Sabine, San Augustine, San Jacinto, San Patricio, San Saba, Scurry, Shackelford, Shelby, Smith, Somervell, Starr, Stephens, Stonewall, Swisher, Tarrant, Taylor, Throckmorton, Titus, Tom Green, Travis, Trinity, Tyler, Upshur, Uvalde, Van Zandt, Victoria, Walker, Waller, Washington, Webb, Wharton, Wheeler, Wichita, Wilbarger, Williamson, Wilson, Wise, Wood, Young, Zapata, Zavalla. The principal cities are: Austin (cap.), Brownsville, Galveston (the chief seaport), Houston, Jefferson, and San Antonio. Other important places are: Bastrop, Bonham, Brazoria, Bremond, Brenham, Columbus, Corpus Christi, Dallas, Eagle Pass, Fairfield, Fredericksburg, Gonzales, Henderson, Huntsville, Independence, Indianola, La Grange, Laredo, Lavaca, Marshall, Nacogdoches, Navasota, New Braunfels, Richmond, San Marcos, Seguin, Sherman, Sulphur Springs, Victoria, Waco, and Waxahachie.—The legislature consists of 30 senators elected for 6 years, and 90 representatives elected for 2 years, who meet biennially and are paid \$8 per day. The governor and other executive officers are elected for 4 years. Judicial authority is vested in a supreme court of 3 judges, and 35 district courts, presided over by a single judge. General elections are held on the first Tuesday after the first Monday in Nov. of every alternate year, beginning with 1872. Texas sends 11 representatives to congress, and has 13 electoral votes. The public debt in 1880 amounted to \$4,447,700. The valuation of taxable property was \$300,525,407 (real estate, \$186,207,495; personalty, \$114,327,912). State levy

5 miles = \$1,502,627.—Fort St. Louis was erected near the present site of Matagorda by a company of French colonists, in 1687. In 1690, the Spaniards established, not far from the same spot, the mission of San Francisco. The territory was long under the government of Mexico, and shared in the internal dissensions of that country. The privilege of maintaining a State government of their own was refused to them, and the Texans took up arms. The first battle was fought Oct. 2, 1835. Hostilities continued at intervals for ten years. On the 1st of March, 1845, Texas became one of the U. States, and its annexation led to the Mexican war. An ordinance of secession was passed Feb. 5, 1861. A new constitution was adopted in 1869. No census of the pop. of Texas was taken while it was under Mexican rule. The estimated number of inhabitants in 1806 was 7,000, and in 1836, 52,000. According to the U. States census, the pop. in 1850 was 212,592; in 1860, 604,215 (of whom 182,566 slaves); in 1870, 818,579; in 1880, 1,591,749 (of whom 837,840 males and 753,909 females; 1,477,133 natives and 114,616 of foreign birth; 1,197,237 whites, 393,384 colored, 136 Chinamen, and 992 Indians).

Tickfaw, La., p.h., Tangipahoa parish, 55 m. N. by W. from New Orleans by C., St. L. & N.O. RR. on a river of the same name which empties in this co. into Lake Maurepas. Pop. 73.
Tick Ridge, W. Va., p.o., Wayne co.
Ticonderoga, N.Y., p.v. ♠ and tp., Essex co., on Lake Champlain and on the outlet of Lake George, at the lower falls, 23 m. N. of Whitehall, and 90 m. N. by E. from Albany. It is at the junction of the Addison branch of C.V. RR. with the Champlain div. of D. & H. C. Co.'s RR., and is the S. terminus of the Lake Champlain company's steamers. The town occupies a lofty promontory lying between Lakes George and Champlain, the outlet being 4 m. in length, with a fall of 220 ft. affording excellent water-power. In the tp. are veins of graphite, utilized for the manuf. of lead-pencils and crucibles, valuable deposits of iron ore, manuf. of lumber, an extensive cotton-factory, 2 woolen-mills, 2 foundries, 5 churches, 15 schools, a bank, and 3 wkly and 1 monthly paper. It was nearly destroyed by fire March 31, 1875, but has been handsomely rebuilt. Ticonderoga was prominent in colonial and Revolutionary history from its celebrated fortress, built by

the French in 1755, and originally named Carrillon ("chime of bells") from the music of the neighboring waterfall. It was the headquarters of Montcalm 1757; was unsuccessfully assaulted by Gen. Abercrombie July 8, 1758; occupied after a siege by Gen. Amherst July 30, 1759; captured by Ethan Allen May 10, 1775; retaken by Burgoyne July 5, 1777, and again by Gen. Haldeaman 1780, but soon abandoned on each of the two latter occasions. After the war the fort fell into ruins; portions of the walls are still standing. Pop. of tp. 3,304.
Ticonic, Iowa, p.h., Monona co., on Little Sioux R., 9 m. W. of Mapleton Station. Pop. 60.
Tidal Wave, Ky., p.o., Whitley co.
Tide-water, Oreg., p.tp., Benton co. Pop. 86.
Tidioute, Pa., p. borough ♠ in Deerfield tp., Warren co., on the Allegheny R., here spanned by a fine bridge, 21 m. S. of Warren by B., P. & W. RR. It has gas and water-works, a fire department, a private and a savings bank, and a wkly paper. The principal industry is petroleum, though the lumber business is large. Pop. 1,255.
Tierra Amarilla, N.Mex., p.v., cap. of Rio Arriba co., 105 m. N.W. Santa Fe. Pop. 178.
Tie Siding, Wyo., p.o., Albany co.

Tioga, Ill., p.v. in Walker tp., Hancock co., 16 m. N.E. Quincy. Pop. 225.

Tioga, Kan., tp., Neosho co. Pop. 1,851.

Tioga, N.Y., a S. co., bordering on Pa., and intersected by the North branch of Susquehanna R.; area, 500 sq. m. The surface is very hilly and the soil generally fertile. The chief prod. in 1880 were 652,918 bush. of oats, 313,987 of corn, 129,131 of buckwheat, and 83,367 of wheat; butter, potatoes, wool, and hay are also largely produced. Cap., Oswego. Val. of taxable prop. \$9,088,771. Pop. 32,672 (of whom 1,637 for., and 448 colored).

—tp., Tioga co. Pop. 3,192.

Tioga, Pa., a N. co., bordering on N.Y., drained by Tioga R. and its affluents; area, 1,120 sq. m. Surface hilly, well watered, and better adapted to grazing than tillage. Iron ore is found, and bituminous coal is abundant, which finds its chief market in Buffalo. The chief prod. in 1880 were 744,394 bush. of oats, 348,600 of corn, 190,238 of buckwheat, 102,143 of wheat, 40,611 of barley, and 292,198 lbs. of tobacco; butter, potatoes, wool, maple sugar and hay, are also staple prod. Cap., Wellsborough. Val. of taxable prop. abt. \$20,000,000. Pop. 45,814 (of whom 5,547 for. and 219 colored).

—p.borough and tp. in above co., pleasantly situated on Tioga R. and on T. & E.S.L. and C.C. & A. R.R.s., 17 m. N.E. Wellsborough. It has 5 churches, a graded school, a bank, a large opera house, a brewery, a tannery and several mills. Pop. 520; of tp. (borough excluded) 1,058.

Tioga, Tex., p.o., Grayson co.

Tioga Centre, N.Y., p.v. in Tioga tp. and co., on the Susquehanna R., and on N.Y., L.S. & W. and S.C. R.R.s., 6 m. W. of Owego. Pop. 325.

Tioga River, Pa. and N.Y., rises in Bradford co., Pa., flows N. and joins Conhocton R. in Steuben co., N.Y., to form the Chemung R.

Tiognioga River, N.Y., a mill stream, rises in Madison co., flows S.W. and S.E. for abt. 80 m., and empties into Chenango R. in Broome co.

Tionia, Pa., p.h. in Mead tp., Warren co., on a div. of Penn. RR., 9 m. S.E. Warren. Pop. 85.

Tionesta, Pa., a creek, rises in Warren co., flows W. and joins the Alleghany R. at the following borough.

—p.borough and tp., cap. of Forest co., at the confluence of Alleghany R. and Tionesta Creek, and on the River div. of B., P. & W. RR., 20 m. E. of Oil City. It has a graded school and 2 wkly papers. Exports, staves and lumber. Pop. 469; of tp. (borough excluded) 522.

Tionus, Ala., p.o., Bibb co.

Tiosa, Ind., p.o., Fulton co.

Tip'lersville, Miss., p.o., Tippah co.

Tip'pah, Miss., a N. co., bordering on Tenn., drained by the Hatchie and Tallahatchie Rs. and Tip'pah Creek; area, 450 sq. m. The surface is undulating and the soil fertile. The chief prod. in 1880 were 385,623 bush. of corn, 36,435 of oats, 17,941 of wheat, and 7,424 bales of cotton; also dairy produce. Cap., Ripley. Val. of taxable prop. abt. \$3,000,000. Pop. 12,806 (of whom 3,065 colored).

Tippecanoe, *Ind.*, a W. co., intersected by the Wabash R. and by the Wabash and Erie Canal, drained by the Tippecanoe R. and several creeks; area, 500 sq. m. The surface is generally level, and the soil a rich black loam. The chief prod. in 1880 were 3,276,795 bush. of corn, 981,937 of wheat, and 414,109 of oats; butter is also largely produced. Cap., Lafayette. Val. of taxable prop. abt. \$40,000,000. Pop. 35,966 (of whom 4,491 for., and 306 colored).
 —tp., Carroll co. Pop. 1,174. See PITTSBURGU.

Tip Top, *Ky.*, p.o., Hardin co.

Tip town, *Ill.*, p.o., Monroe co.

Tiro, *O.*, p.v. in Auburn tp., Crawford co., 27 m. S. E. Tiffin by N. W. O. RR. (De Kalb Station). P. 90.

Tirzah, *S. C.*, p.o., York co.

Tisbury, *Mass.*, tp., Dukes co. Pop. 1,516.

Tisch Mills, *Wis.*, p.o., Manitowoc co.

Tisdale, *Kan.*, p.tp., Cowley co. Pop. 849.

Tishoumigo, *Miss.*, a N. E. co., bordering on Tenn. and Ala., bounded N. E. by Tennessee R., and drained by affluents of the Tennessee and Tombigbee Rrs.; area, 450 sq. m. The surface is hilly and the soil fertile. The chief prod. in 1880 were 280,654 bush. of corn, 25,282 of oats, and 2,672 bales of cotton. Cap., Tulka. Val. of taxable prop. abt. \$4,500,000. Pop. 8,774 (of whom 1,163 colored).

Tishoumigo, *Ind. T.*, p.o., Chickasaw co.

Tiskilwa, *Ill.*, coal-mining p.v. in Arispic and Indiantown tps., Bureau co., on Bureau Creek, 122 m. W. of Chicago by C. R. I. & P. RR. It has a bank and a graded school, &c. Pop. 753.

Tisonia, *Fla.*, p.o., Duval co.

Tittabawassee, *Mich.*, a river formed near Midland in Midland co., by the union of the 3 rivers, Chippewa, Pine, and Tobacco. It flows S. E. for abt. 30 m. and empties into Saginaw R. some miles above Saginaw City.

—(p.o. name PAINES), v. and tp., Saginaw co., on Tittabawassee R., 4 m. by rail S. W. Saginaw. Pop. 203; of tp. 1,506.

Titus, *N. Y.*, p.o., Franklin co.

Titus, *Tex.*, a N. E. co., bounded N. by Sulphur fork of Red R., S. by Big Cypress bayou, and intersected by White Oak bayou; area, 420 sq. m. The surface is generally level and the soil fertile. The county is well timbered and contains iron ore. The chief prod. in 1880 were 179,550 bush. of corn, 30,045 of oats, 17,371 galls. of molasses, and 4,923 bales of cotton. Cap., Mount Pleasant. Val. of taxable prop. abt. \$1,000,000. Pop. 5,959 (of whom 1,346 colored, and 4 Indians).

Titusville, *Col.*, p.o., Fremont co.

—p.v. cap. of Brevard co.

Titusville, *Ind.*, p.o., Ripley co.

Titusville, *N. J.*, p.v. in Hopewell tp., Mercer co., on Delaware R., 9 m. N. W. Trenton by P. RR. Pop. 219.

Titusville, *N. Y.* (p.o. name POUGHKEEPSIE), v. in La Grange tp., Dutchess co., 4½ m. S. E. Poughkeepsie. Pop. 79.

Titusville, *Pu.*, a flourishing city, Crawford co., pleasantly situated on both sides of Oil Creek which here furnishes available water-power and on B., P. & W. and D., A. V. & P. RRs., 21 m. E. of Meadville. It was settled in 1866 and owes its remarkable growth principally to the valuable and extensive oil wells in the vicinity. Petroleum is the main industry of the city, although not the only one. It has gas and water-works, an efficient fire department, a high and good ward school, a public library of 3,000 volumes, 2 opera houses, 3 nat. and 1 other bank, 2 daily and 3 wkly papers, 2 foundries, 2 breweries, &c. Pop. 9,046.

Tiverton, *O.* (p.o. name YANKEE RIDGE), h. and tp., Coshocton co., on Wallhonding R., 20 m. N. W. Coshocton. Pop. 940.

Tiverton, *R. I.*, p.v. and tp., Newport co., on the E. shore of Narragansett Bay, 1½ m. S. of its station on O. C. RR., which is 4 m. S. of Fall River. Pop. of tp. 2,380.

Tiverton Four Corners, *R. I.*, p.h. in Tiverton tp., Newport co., 4½ m. S. of Tiverton. P. 30.

Tivoli, *Iowa*, p.h., Dubuque co., 6 m. N. of Farley. Pop. 50.

Tivoli, *Minn.*, p.v. in Mankato tp., Blue Earth co., 6 m. S. E. Mankato. Pop. 127.

Tivoli, *N. Y.*, p.v. in Red Hook tp., Dutchess co., on Hudson R. nearly opposite Saugerties with which

it is connected by steam-ferry and on N.Y.C.&H.R. RR., 4 m. N. of Barrytown. Pop. 1,254.

Tivoli, Pa., p.v. in Shrewsbury tp., Lycoming co., 10 m. N.E. Muney Station. Pop. 127.

Toadtown, Cal., h. in Kimshew tp., Butte co. Pop. 50.

Toad Vine, Ala., p.o., Jefferson co.

Toano, or TOANA, Neb., p.v., Lander co., on C. P.R.R., 82 m. N.W. Odgen. Utah, is the transfer point for passengers and freight going to Boise City and Idaho City in Idaho and the mining districts of S.W. Utah Ter. Pop. 123.

Toano Mts., trends N. and S. in the E. part of Lander co., E. of the Goshute Depot.

Tobac'co Port, or SALINE, Tenn., p.h. and tp., Stewart co., on Cumberland R., 30 m. W. of Clarksville. Pop. 40; of tp. 1,066.

Tobacco River, Mich., rises in Clare co., flows S.E. and joins the Chippewa R. in Midland co.

Tobas'co, O., p.v. in Union tp., Clermont co., 7 m. W. of Batavia by C.&E.R.R. Pop. 128.

Tobin, Ind., tp., Perry co. Pop. 2,244.

Tobinsport, Ind., p.h. in above tp., on the Ohio R., 10 m. above Camelton. Pop. 50.

Toledo, Ala., p.o., Fayette co.

Toledo, Ark., p.v. in Smith tp., cap. of Dorsey co., 25 m. S.W. Pine Bluff. Pop. 143.

Toledo, Ill. (p.o. name ELCO), v., Alexander co., on St.L.&C.R.R. (Elco Station), 20 m. N. of Cairo. Pop. 125.

—on Majority Point, p.v. and cap. of Cumberland co., 50 m. S.W. Terre Haute. It has 2 wkly papers. P. 421.

Toledo, Iowa, p.v. in Toledo tp., cap. of Tama co., on C.&N.W.R.R., 53 m. W. of Cedar Rapids and 2½ m. N. of Tama City by C.&N.W.R.R. It has fine public school buildings, the Western college (United Brethren), 2 banks, and 2 wkly papers. Exports, livestock, grain, and produce. Pop. 1,026; of tp. 1,745.

Toledo, Kan., p.v. and tp., Chase co., 10 m. N. E. Cottonwood Falls. Pop. of tp. 981.

Toledo, La., p.o., Vernon co.

Toledo, N.C., p.o., Rutherford co.

Toledo, O., a flourishing city and port of entry, cap. of Loacan co., the 3d city in the State, and the 35th in the Union in point of pop., is situated on both sides of the Maumee R., 4½ m. from its mouth, in the broad and beautiful Maumee bay, 9 m. from the W. extremity of Lake Erie, of which it is regarded as one of the ports, 202 m. N.E. Cincinnati, 124 m. N.W. Columbus, 113 m. E. of Cleveland, 243 m. E. of Chicago, and 65 m. S.W. Detroit. Toledo is the terminus of the Wabash and Erie and Miami Canals, and has besides direct communication by rail with all parts of the country, its railroad system including the C.S., the C., H.&D., the F.&P.M., the L.S.&M.S., the W., St.L.&P., the C., H.V.&T., the N.W.O., and the T.&A.A.R.R.s., the first five of which concentrate at Union Depot, an immense and imposing structure. Owing to its natural and acquired advantages as a collecting, shipping, and distributing point, Toledo has increased from a pop. of less than 1,000, when it was incorporated in 1836 by the union of the two villages of Fort Lawrence and Vistula, to a city of above 50,000 in 1880, and few places of its size give a better idea of the characteristic American energy and enterprise. It is regularly laid out, having wide streets which give an easy ascent from the fine and commodious harbor to the table-land on which most of the houses are built; the public buildings are large and handsome

and there are several neat parks. Its commerce is very large, consisting chiefly of the handling of grain and lumber. A line of steamers plies to Montreal, in connection with a line to Europe direct. The churches, hotels, warehouses, and especially the school-houses, are substantial and elegant. Toledo is the port of entry of the customs district of Miami; the value of its exports to Canada for the year 1882 was \$1,208,889; imports \$96,106; 202 vessels of 53,176 entered, and 201 of 53,797 tons cleared, the port in the foreign trade. In the same year 47 vessels of 15,013 tons belonged to the district. The jobbing trade in all its branches is an important and steadily-increasing element of Toledo's prosperity, and her numerous wholesale firms are dealers in books and stationery, crockery, cutlery, drugs, drygoods, notions, furnishing goods, groceries, boots and shoes, hardware, hats and caps, lumber and hard woods, wines, liquors, etc. The extensive manuf. interests of the city are headed by the largest wagon works in the country, and embrace iron-works, locomotive-shops, furniture-factories, flour-mills, breweries, planing-mills, tanneries, car-wheels, edge-tools, ploughs, mouldings, pumps, and other establishments devoted to bridge and boat building and mowers and reapers. The miscellaneous manuf. interests of the city are numerous and diversified. The Toledo produce exchange, numbering 60 live members, holds daily sessions. The city is divided into 8 wards, and is governed by a mayor, 8 aldermen, and 16 councilmen, and is patrolled by an efficient police force. The paid fire department is distributed among 9 engine-houses, equipping 6 steam fire-engines, and controlled by a complete fire-alarm telegraph system. An extensive system of water-works, on the standpipe plan, has been established at a cost of \$1,000,000. The principal charitable institutions are the city hospital, house of refuge and correction, home for friendless women, and 3 orphan asylums. The city also contains a State insane asylum, which in 1882 had 110 inmates. There are 20 ward school houses and a high school building, and abt. 12 denominational and private schools. The public library contains 8,000 volumes. There are 5 nat. banks, with an aggregate capital of \$1,300,000, and several savings and private banks; several savings and loan associations, 3 fire and marine insurance companies, 1 life insurance company 20 newspapers and periodicals, of which 4 daily, and abt. 50 churches. Pop. in 1850, 3,829; in 1860, 13,768; in 1870, 31,584; in 1880, 50,143.

Toledo, Oreg., p.v. and tp., Benton co., 55 m. W. of Salem on the Pacific Ocean. Pop. of tp. 284.

Toledo, Pa., p.h. in Franklin tp., Washington co., 3 m. S.W. Washington. Pop. 80.

Toledo, Wash., p.o., Lewis co.

Tolersville, Va., p.v., Louisa co., 56 m. N.W. Richmond by C.&O.R.R. Pop. 75.

Tolesborough, Ky., p.v. and tp., Lewis co., 10 m. E. of Marysville. Pop. of tp. 1,434.

Tolleston, Ind., p.h., Lake co., at crossing of P., Ft. W. & C. and M. C. R.Rs., 16 m. N. of Crown Point. Pop. 225.

Tolland, Conn., a N.E. co., bordering on Mass., drained by the Willimantic and Hop Rs.: area, 375 sq. m. In the W. part the surface is nearly level and the soil fertile, but in the E. part it is very hilly and the soil inferior. The chief prod. in 1880 were 117,472 bush. of corn, 55,562 of oats, 18,434 of rye, 15,915 of buckwheat, and 666,634 lbs. of tobacco. Cap. Tolland. Val. of taxable prop. abt. \$4,000,000. Pop. 24,112 (of whom 4,713 for., 188 colored and 3 Indians). —p.v. in Tolland tp., cap. of Tolland co., 3 m. W. by S. from its station, 50 m. N. by W. from New London by C.V.R.R. It has a nat. bank. Pop. of tp. 1,169.

Tolland, Mass., p.tp., Hampden co. Pop. 452.

Tollert, Tenn., p.o., Bledsoe co.

Tollgate, Ind., p.o., Hendricks co.

Toll Gate, W. Va., p.v., Ritchie co., 22 m. E. of Clarksbury by B.&O.R.R. Pop. 110.

Toll House, Cal., p.o., Fresno co.

Tolona, Mo., p.o., Lewis co.

Tolono, Ill., p.v. and tp., Champaign co., on C. & W. St. L. & P. R.Rs., 9 m. S. of Champaign. It has a bank, a wkly paper, and various factories. Pop. 954; of tp. 1,859.

Tolosa, Tex., p.o., Kaufman co.

Tom, Mo., tp., Benton co. Pop. 812.

Tomah, Wis., p.v. and tp., Monroe co., on C. M. & St. P. R.R., 42 m. E. of La Crosse, and on Lemonweir R., which affords power. It has high and graded schools, a bank, 2 wkly papers, and several mills and factories. Pop. 1,245; of tp. 2,106.

Tomaha, Tex., p.o., Red River co.

Tomahawk, Ark., tp., Marion co. Pop. 351. —tp., Searcy co. Pop. 485.

Tomahawk Springs, W. Va., p.o., Berkeley co.

Tomales, Cal., p.v. and tp., Marion co., on a bay of the same name and on N. P. C. R.R., 31 m. N.W. San Rafael. It has a bank, and is an important shipping place for grain. Pop. of tp. 1,080.

Tomatola, N. C., p.o., Cherokee co.

Tomberlins, Ark., p.o., Lonoke co.

Tombigbee River, Miss. and Ala., rises in the N.E. part of Miss., Prentiss co., and after a very indirect S. by E. course of 450 m. in Miss. and Ala., joins the Alabama R. at Demopolis, Greene co., 45 m. above Mobile, and the united stream is called Mobile R. below the junction. It is navigable to Aberdeen, Miss., 410 m. from Mobile Bay.

Tombs Run, Pa., p.h. in Watson tp., Lycoming co., 7 m. from Jersey Shore Station. Pop. 40.

Tombstone, Ariz., p.v. and tp., cap. of Cochise (a co. recently formed from the S.E. part of Pima co.), abt. 125 m. S.E. Florence. Pop. 80.

Tom'day, Tex., p.o., Shelby co.

Tom'e, N. Mex., p.o., Valencia co.

Tomer, Pa., p.o., Washington co.

Tom Green, Tex., a S.W. co., bounded S.W. by the Pecos R., and N.W. by N. Mex., and intersected by the head streams of the Colorado R.: area, 12,300 sq. m. Cap., Ben Ficklin. Pop. 3,615 (of whom 838 for., and 648 colored).

Tomhannock, N. Y., p.v. in Pittstown tp., Rensselaer co., 15 m. N.E. Troy. Pop. 175.

Tomichi, Cal., p.o., Gyunison co.

Tomkins Cove, N. Y., p.h. in Stony Point tp., Rockland co., on the Hudson R., 6 m. from Haverstraw. Pop. 40.

Tomlinson, Ark., p.tp., Scott co. Pop. 1,606.

Tomotley, S. C., v., Beaufort co., on P. R. & A. R.R., 3 m. N.W. Sheldon. Pop. 30.

Tompkins, Ill., tp., Warren co. Pop. 1,965. —p.tp., Jackson co. Pop. 1,270.

Tompkins, N. Y., a central co., drained by several tributaries of Cayuga Lake, the head of which lies in the N. part of the co.; area, 500 sq. m. The surface is hilly, the valley of the lake being 700 ft. below the ridges on either side, and the soil is generally best adapted to grazing. The chief prod. in 1880 were 750,627 bush. of oats, 498,466 of corn, 241,910 of wheat, 204,979 of barley, 116,168 of buckwheat, and 115,771 lbs. of tobacco; butter, potatoes, wool, and hay are also largely produced. Cap., Ithaca. Val. of taxable prop. \$11,357,336. Pop. 34,445 (of whom 2-176 for., and 463 colored).

—tp., Delaware co. Pop. 2,534.

Tompkins Corners, N. Y., p.h. in Putnam Valley tp., Putnam co., 5 m. N.W. Mahopac. P. 25.

Tompkinsville, Ala., p.o., Choctaw co.

Tompkinsville, Fla., p.o., Hernando co.

—p.o., Freeborn co.

Trenton, Miss., p.tp., Smith co. Pop. 1,734.

Trenton, Mo., p.v. in Trenton tp., cap. of Grundy co., on the Crooked fork of Grand R., 102 m. N.E. Kansas City by C., R. I. & P. RR. It has 2 banks, 3 wkly papers, several mills and factories, and railroad repair and machine shops. P. 3,326; of tp. 4,493.

Trenton, N. J., a city, cap. of the State, and also of Mercer co., on the E. side of the Delaware R., opposite the lower falls, at the confluence of Assumpink Creek, and on Penn. and P. & R. RRs., 32 m. N.E. Philadelphia and 57 m. S.W. New York. Trenton is divided by Assumpink Creek, into two nearly equal parts, Trenton and South Trenton. It is regularly laid out, and lighted with gas. Its streets are wide and well shaded, and have a grade which promptly carries off surface drainage to running watercourses. Several picturesque elevations in the suburbs, including a fine eminence along the river, are occupied by handsome mansions surrounded by beautifully laid out grounds. The public buildings, comprise the State capitol, a fine structure beautifully located on an elevation overlooking the Delaware, and surrounded with spacious, well-laid-out, and finely-shaded grounds; the State normal and model schools; the Soldiers' Children's Home; the State prison; the State Lunatic asylum; the State reform school for girls; and a large and handsome building of Ohio sandstone containing the post-office and U. States courts and offices. Trenton has abt. 30 churches, 2 nat. and 4 other banks, a public library (in addition to the State library in the capitol); an opera house with a seating capacity of 1600 and costing \$110,000; several public halls; a street railway connecting the depot with the principal parts of the city; the oldest and one of the best-equipped volunteer fire departments in the country; a system of public graded schools, with a high school and several private schools; 3 daily, 7 weekly and 4 monthly papers, and several benevolent, educational, and charitable institutions, and hospitals, ect., connected with religious organizations. Trenton is at the head of tide-water and steamboat navigation on Delaware River, and is intersected by Delaware and Raritan Canal, one of the most important water-thoroughfares in the country, connecting by continuous inland navigation the cities of New York and Philadelphia, and the latter city with Baltimore. There are two lines of large propellers from Trenton, which transport merchandise and manufactured products to these points; and a regular line of steamboats to Philadelphia on the Delaware. The principal source of the growth and prosperity of Trenton is its manufactures. Here are the extensive rolling-mill of the New Jersey Steel and Iron Co., employing 600 hands and with a capital of \$1,000,000; the Trenton Iron Co.; a wire-mill; the American Saw Co.; the Phoenix ironworks; the National ironworks; vice and tool works; and anvil and railroad joint works, chain-factories, and several other ironworks of lesser magnitude; 3 large woolen mills, fire-brick and terra-cotta works, rubber-works,

zineworks, locomotive and ordnance works (not now in operation), and a multitude of manufactories of different articles and of varied magnitude. The manuf. of crockery is however the most important industry, more of this ware being made here than in all the rest of North America. There were in 1882 23 potteries, and 17 houses engaged in the decoration of china, &c. The capital represented reached \$3,260,000 and the value of products for that year, \$3,663,300. According to official returns Trenton had in 1882, 386 manufacturing establishments, capital invested, \$4,444,130; hands employed (in average), 6,740; total amount paid in wages, \$2,406,906; cost of material used \$5,377,254; products of manufacturing, \$9,319,453. Trenton was first settled in 1680; it became cap. of the State in 1790. Pop. in 1870, 22,874; in 1880, 29,910.

Trenton, N. Y., p.v. and tp., Oneida co., on U.&B.R.R.R., 13 m. N. of Utica, P. 289; of tp. 3,097.

Troy, Mo., p.v.♦ in Bedford tp., cap. of Lincoln co., 15 m. N.W. Warrenton, in a good farming section. It has an academy, a savings bank, and a wkly paper. The vicinity is rich in coal, iron, glass-sand, and other mineral deposits. Pop. 939.

Troy, Neb., p.o., Greeley co.

Troy, N.H., p.v.♦ and tp., Cheshire co., 32 m. S.E. Bellows Falls. It has a monthly paper, several mills and factories, and stone quarries. P. of tp. 796.

Troy, N.Y., a city♦, the cap. of Rensselaer co., and the 29th city in pop. in the Union, is situated on the E. bank of Hudson R., at the head of steamboat navigation, and on the N., C. & H. R., the D. & H. C. Co., and T. & B. R.R.s., 148 m. N. of New York, and 5 m. N. of Albany. It is connected with West Troy on the other side of the river by an iron bridge, 1,600 ft. long. It is practically the terminus of the Erie and Champlain canals. A daily line of steamers and various lines of barges ply to New York, and lines of propellers to Philadelphia and other points. The city is built on a somewhat elevated plain, extending from the river back to a range of hills terminating abruptly abt. 1 m. E., and furnishing from their brows, elevated from 300 to 400 ft., a commanding and beautiful view of the city and surrounding country. Mt. Ida, directly in the rear of the broadest part of the city, and Mt. Olympus, towards the N. part, are the eminences most distinguished for the fine prospects which they afford. Two streams, the Wynantskill and Poestenkill, affording an extensive water power, empty into the Hudson, within the limits of the city. The Wynantskill has a wider valley, through which a road passes, ascending to the upper level of the country. The State dam across the Hudson also furnishes 4,000 horse-power. The city is chiefly built N. of the Poestenkill, and extends along the Hudson for a distance of abt. 3 m. The river, having a curve here,

has given that form, for a considerable distance, to the great business street immediately on its bank. With this exception, the streets are laid out straight, intersecting each other, for the most part at right angles. River St., is the chief thoroughfare; and near 1st, 2d, and 3d Sts., are the finest churches and private residences. The savings bank, on State St., is an elegant edifice costing \$450,000; the new city hall is a fine building; and there are many handsome business structures. The buildings of St. Joseph's theological seminary (on Mt. Ida), are noble specimens of Byzantine architecture. Troy is a centre of extensive manuf. enterprises in iron, cotton goods, stoves, railroad cars, car-wheels, shirts, bells, cable-chain, etc. The first Bessemer steelworks in America was established here. It has large rolling mills, foundries, and blast furnaces. The Burden iron works, have an annual capacity of 40,000 tons, and employ 1,400 hands, producing pig iron, merchant iron, horse and mule shoes, and boiler rivets. The other iron manuf. of the city are carried on by more than 30 firms, and consist of stoves, hollowware, hot air furnaces, machinery, steam engines, scythes, shovels, malleable iron, safes, butts, hinges, steel springs, agricultural implements, &c. The annual product of the shirt and collar (linen and paper) business, which is more extensive here than anywhere else in the U. States, and employs more than 30 factories, is valued at \$3,000,000, requiring the labor of 6,000 hands, chiefly women. The largest manuf. of mathematical instruments in the U. States is in this city. The total annual value of the manuf. of Troy is abt. \$12,000,000. The lumber trade is important. Troy has 8 nat. 3 private and 3 savings banks, abt. 50 churches, a splendid Masonic temple, the celebrated Rensselaer polytechnic institute, a Roman Catholic seminary for the education of priests, academies, a female seminary, a fine high school, 11 newspapers, and periodicals, of which 4 daily, a well equipped hospital, the Marshall infirmary, with an insane asylum attached, 2 orphan asylums, and various benevolent institutions. The city is divided into 13 wards; it is governed by a mayor and a board of 26 aldermen, and has an efficient fire department. Troy was incorporated as a village, April 2, 1801, and as a city, April 12, 1816. Pop. in 1840, 16,334; in 1860, 39,235; in 1870, 46,463; in 1880, 56,547.

Troy, N.C., p.v. in Troy tp., cap. of Montgomery co., 37 m. N.W. Rockingham. Pop. 131; of tp. 855.

Utah, a W. Territory, bounded N. and N.E. by Idaho and Wyoming, E. by Colorado, S. by Arizona, and W. by Nevada. It is situated between lat. 37° and 42° N. and lon. 109° and 114° W. The length from N. to S. is abt. 150 m. the breadth 280 m., and the area 82,190 sq. m. Utah is divided into two parts by the Wahsatch Mts., which cross it from N.E. to S.W. The W. part belongs to the Great Basin, its waters having no outlet to the ocean, while the E. part is drained by the Colorado R. of the West. The surface is elevated; the valleys lie from 4,000 to 6,000 ft. above the sea, and the mountains attain an altitude of from 6,000 to upward of 13,000 ft., the highest peaks rising above the line of perpetual snow. The region E. of the Wahsatch range has a greater number of streams (which, however, nearly all flow through deep and precipitous cañons and are not generally available for irrigation) and is more rugged and mountainous than that W. of it. The Uintah Mts., extend E. from the Wahsatch range along the S. border of Wyoming, and occupy a large area. The Roan or Book Mts., lie partly in Utah and partly in Colorado, between the Grand and White Rs. The Little Mts., are W. of Green R., and extend N.W. and S.E. between White and Uintah Rs., joining the Wahsatch range. The Sierra Lasal is S.E. of Grand R. near the E. boundary, and S. of it are the Sierra Abajo and Orejas del Oso. The San Juan range and Sierra Panoche are near the S. boundary, the former W. and the latter E. of the Colorado R. The principal mountain summits, with their elevation, are Mt. Tohwano (13,500 ft.), Hayden Peak (13,500), Dawes Peak (13,300), Gilbert's Peak (13,250), the Twin Peaks (12,000), Belknap (11,894), Mt. Baldy (11,730) and Lone Peak (10,713). The S.E. portion of the territory is less mountainous than the N.E., consisting of extensive undulating plateaus. W. of the Wahsatch range the country consists of a series of disconnected valleys, generally having a N. and S. direction, formed by ridges and mountain ranges, among which are the Thomas, Iron, Guyot, Goshoot, Pijarajabi, Oquirrh, and Raft River mountains. The most thickly settled portion of Utah is along the W. base of the

Wahsatch Mts., which reach their greatest altitude near Salt Lake City. The habitable country comprises a succession of beautiful valleys, enclosed by huge mountains of imposing grandeur. In some instances access is gained from valley to valley by deep, narrow gorges or cañons, through which wagon roads and more recently railroads, have been constructed at enormous expense. Down those passes dash and gurgle beautiful streams, which frequently abound in trout and other fish. Great Salt Lake, the "Dead Sea of America," situated a few miles N.W. of Salt Lake City, has no known outlet. The water is so saline as to render it exceedingly buoyant. Bathers find it more difficult to sink than to swim in it. Flowing into it from the S. is the River Jordan, which drains Lake Utah. Upon the N. the Bear R. from Idaho and other smaller streams discharge their waters into the lake. The district E. of the mountains is drained by the Green and Grand Rs., which unite to form the Colorado. None of the streams of the Territory are navigable. There are several groups of hot springs, with a temperature ranging from 90° to 136°. Upon the Uintah and Wahsatch Mts., are heavy forests; the timber line is at the height of 11,000 ft. Among the trees most abundant are the fir, spruce, pine, cedar, maple, oak, mountain mahogany, quaking ash, etc. The Great Basin is almost destitute of wood, but trees planted upon the irrigated lands grow rapidly. The soil is exceedingly rich and admirably adapted to agricultural purposes. The land has, however, to be irrigated to render it productive. The water for this purpose is supplied from the lakes, rivers and rivulets with which the country abounds. For this purpose canals are necessary and are constructed at greater or less expense, according to their extent and the nature of the ground where they are located. Like the other territories and states lying between the Rocky Mts. and the Sierra Nevada, Utah has a healthy, mild, but exceedingly dry, climate. The mean annual temperature E. of the Wahsatch Mts. is from 38° to 44°, and W. of that great range from 46° to 52°. The rainfall averages abt. 16 inches, but around the Great Salt Lake approaches 20 inches. Rain is most abundant in the valleys from October to April; the remainder of the year is dry and hot. Spring opens in May and cold weather rarely sets in before November. The leading and most profitable farm products are wheat, barley, oats, corn, peas, beans, potatoes and sugar cane. The yield of wheat to the acre ranges from 15 to 50 bush, and, in exceptional cases, even 60 bush, have been realized. The average yield will probably reach 20 bush. In regard to potatoes, both as relates to the yield per acre and the excellence of quality, Utah stands without a rival. The fruit crop is of increasing importance. Apples, peaches, pears, plums, apricots, cherries and grapes of fair quality are raised in abundance. A brisk trade is done in dried fruits, for which a ready market is found in Chicago. Grapes flourish best in S. Utah, where wine making is a growing industry. Some progress has been made in silk raising, for which the climate is admirably adapted. The principal products for the year 1880, according to the census, were 217,140 bush. of barley, 163,342 of corn, 418,082 of oats, and 1,169,199 of wheat. The farm animals were 38,131 horses, 2,898 mules, 3,968 working oxen, 32,768 milch cows, 58,680 other cattle, 233,121 sheep, and 17,168 hogs. The approximate average yearly wool clip for several seasons has been abt. 1,500,000 pounds. A proportion of this is consumed by the local woolen mills, while the surplus finds a ready sale in market carts.—The mineral resources of Utah are considerable and embrace the ores of the principal metals and many of the rarer minerals, chiefly lead, silver, gold, and copper. The principal obstacles that have retarded the progress of mining, milling and smelting have been and still

are the great distance from markets for her mineral products and the high railroad tariffs. These are especial drawbacks to the mines from which are mostly taken the baser metals, such as lead—perhaps the leading mineral product of Utah. In 1881, according to the report of the director of the mint, the production of gold was \$145,000, of silver \$6,400,000. There are several immense deposits of iron ore, very rich, and equal to the best on the continent. The principal deposit is in the S. portion of Utah, in Iron co., and is within 50 m. of the Utah Southern extension railroad. Close to the iron is an extensive body of excellent coal. There are numerous large bodies of coal in different parts of the Territory, several of which are either owned or controlled by the Union Pacific railroad company.—In 1880, according to the census, there were in Utah 640 manuf. establishments, employing 2,495 hands; capital invested \$2,656,657; wages paid during the year \$858,859; value of materials, \$2,561,737; value of productions, \$4,324,992. There were in 1882 10 railroads having 908 m. of road in operation within the Territory. The present school system, established by law of Feb. 20, 1874, is liberally sustained by the people. From the general school tax of 3 mills on the dollar an annual revenue of \$65,000 is derived. The levying of additional school taxation is left to local option in the school districts. The percentage of school population—children between the age of 6 and 16 years in regular attendance is 47. This proportion is exclusive of that in attendance at private schools, of which there is quite a large number. The higher institutions of learning are the Deseret university, the Brigham Young academy at Provo, the St. Mark's school, the Rocky Mountain conference seminary, and Morgan college.—The Territory is divided into 24 cos., viz.: Beaver, Box Elder, Cache, Davis, Emery, Garfield, Iron, Juab, Kane, Millard, Morgan, Pi Ute, Rich, Salt Lake, San Juan, San Pete, Sevier, Summit, Tooele, Uintah, Utah, Wasatch, Washington, Weber. The principal towns are Salt Lake City (the cap.), Ogden, Spanish Fort, Brigham City, Beaver City, and Corinne City.—A governor, secretary, and supreme court judges are appointed by the president, and there is a legislative body, consisting of 13 councillors and 26 representatives. In 1881, the assessed value of taxable property was \$25,579,234.—The mass of the people are Mormons, or Latter day Saints, who were the pioneers of this entire region, having come here in 1847, under the leadership of the late Brigham Young, when the Territory, then belonging to Mexico, was a desert, inhabited only by a few half-naked indians. They constitute probably over 5-6 of the pop., and are mainly engaged in agriculture, stock-raising and manufacturing. They are orderly, thrifty and industrious. The non-Mormon pop. are mostly engaged in mining, merchandising and general business. Utah was ceded to the U. States in 1848, and a territorial government was established, Sept. 9, 1850. The revelation of polygamy was not adopted by the Mormons until Aug. 29, 1852. They now confront the movements made against it through general public agencies and in congress with undaunted determination and unabated zeal in seeking proselytes. Within their own Territory, the adherents of the Mormon system are kept under the strictest discipline and in a condition of constant readiness for united action to resist the effect of any measure that may be directed against the institution which they hold to be particular, while their missionaries are active abroad gaining converts and seeing to their transportation to Utah. The missionary organization of the Mormons is one of their strongest arms, and is the institution to which more, perhaps, than to any other single instrumentality, they owe the solid strength which they have manifested too often and too con-

stantly against all hostile demonstrations. The magnates of the church decide how many missionaries shall go forth; the number is apportioned as is thought best, and nominations are made by the 375 presidents and bishops, to be confirmed by the popular vote of all the brethren gathered at the great April and October conferences in Salt Lake City. Apparently, no discrimination is exercised in making the nominations, and no appeal is admitted from the appointment. Every missionary goes at his own charges, and no provision is contemplated by the Church for his family or his business during his absence. In 1880, the semi-centennial year of the Mormon church, the number of elders sent out as missionaries was 216; in 1881, it was 189, besides 79 who were sent to Arizona. Estimating the average duration of an elder's time to be two years, we have a total of about four hundred Mormon missionaries abroad at any given date. The number of converts gathered in by these missionaries can not be so exactly calculated. About 28,740 were brought in between 1840 and 1860. Within the next decade about 25,000 sailed from Europe to Salt Lake City and about the same number between 1870 and 1882. The whole number from the first shipload, in 1840 to 1882, may thus be estimated at abt. 85,000. The annual increase from emigration is not far from 2,000. Pop. in 1850, 11,380; in 1860, 40,273; in 1870, 86,044; in 1880, 143,963 (of whom 74,509 males, and 69,454 females, 99,969 natives and 43,994 of foreign birth, 142,423 whites, 232 colored, 501 Chinese, and 807 Indians).

Utah (*yoo'taw*), *Ill.*, p.v., Warren co., 6 m. N.W. Galesburg Station. Pop. 325.

Utah, or TAYLORSVILLE, *Pa.*, p.v. in Green tp., Indiana co., 14 m. N.E. Indiana. Pop. 186.

Utah, *Utah*, a central co., containing Utah Lake, and bordering E. on the Wahsatch Mts.; area, 1,520 sq. m. It comprises the finest portion of the territory; the soil is generally fertile and well cultivated. There are valuable gold mines. The chief prod. in 1880 were 125,685 bush. of wheat, 50,264 of oats, 41,310 of corn, and 47,561 of barley. Cap., Provo City. Val. of taxable prop. abt. \$2,000,000. Pop. 17,918 (of whom 4,769 for., and 23 Indians).

—a lake in above co., in lat. 40° 15' N., lon. 111° 45' W. Its altitude is 4,475 ft. above sea level; its length from N. to S. is 25 m.; its extreme width 13 m.; its area 150 sq. m. It is the largest body of fresh water in the territory, and has no island. The valley in which it lies is part of a great trough formed by the uplift of the Wahsatch range of mts. at the E. and the Oquirrh, Lake, and Tintie ranges at the W. The eastern range is the loftier, and all the tributaries of the lake come from that side. Its outlet is the river Jordan, which is 45 m. in length, and flows N. into Great Salt Lake. Utah Lake abounds in trout and other fish, and is visited by a great variety of water fowl.

Utahs, or UTEs, a tribe of Indians of the Shoshone family, living in N. Mex., Utah, Col. and Nev. They practise hunting and fishing, and also live largely upon berries, roots, and herbs, and possess a few horses, but rarely engage in agriculture. They number abt. 15,000, and sold in 1872 most of their lands to the U. S. government, retaining a large reservation in the S.W. corner of Colorado. The men wear long braided cues, while the hair of the women is short. Most of the work is made by women, and the Indians in some bands sell their wives and children to neighboring tribes. They are filthy in their habits, and their arms range from the original club, bow, and lance to good rifles.

Utahville, *Pa.*, p.v. in Bearria tp., Clearfield co., on B.G. RR., 27 m. S. of Clearfield. Exports, coal and lumber. Pop. 100.

Venado's, *Cal.*, p.o., Colusa co.
Venango, *Kan.*, p.h., Ellsworth co., 12 m. S.E. Ellsworth. Pop. 75.
Venango, *Pu.*, a N.W. co., drained by Alleghany R., French Creek or Venango R., and Oil, Sugar, and Sandy Creeks; area, 660 sq. m. A large part of the co. is traversed by spurs of the Alleghany Mts. The soil along the streams is fertile. Iron ore and bituminous coal are very abundant, and there are traces of silver mines. Lumber and oil are exported largely. This co. forms the centre of the great oil basin of Pennsylvania, and there are hundreds of oil wells in the valleys. The chief agricultural prod. in 1880 were 558,839 bush. of oats, 343,518 of corn, 113,227 of buckwheat, 73,973 of wheat, and 14,475 of rye; butter and wool are also largely produced. Cap., Franklin. Val. of taxable prop. \$13,638,912. Pop. 43-670 (of whom 3,995 for., and 548 colored).
 —tp., Butler co. Pop. 1,322.
 —p., borough and tp., Crawford co., on French Creek and N.Y., P.&O.R.R., 10 m. N. of Meadville. It has several mills. Exports, lumber, staves, cheese boxes, and produce. P. 347; of tp. (borough excluded) 602.
 —tp., Erie co. Pop. 1,445.

Vergennes (ver-jenz), Ill., p.tp., Jackson co. Pop. 910.
Vergennes, Mich., tp., Kent co. Pop. 1,148.
Vergennes, Vt., a city, Addison co., on Otter Creek, 7 m. from its mouth in Lake Champlain, and on the Rutland div. of C.V.R.R., 21 m. S. of Burlington. The falls of Otter Creek afford a large amount of hydraulic power, which is partially improved. The manuf. include curtain rolls, doors, sash and blinds, furniture, gums, hubs, spokes, &c., pumps, leather, and nails. There are 3 churches, a graded school, a wkly paper, and 2 nat. banks. The State reform school, for boys is situated here. The harbor is an excellent one, affording a sufficient depth of water for the largest vessels. The city was incorporated in 1788. Pop. 1,782.
Vernicejo, N.Mex., p.h., Colfax co., on an affluent of the Canadian R. of the same name, 12 m. W. by N. from Dorsey Station on A., T.&S.F.R.R. †
Vermillion (ver-mil'yan), Dak., a river rises in Park co., flows generally S. for abt. 160 m., and falls into Missouri R. at Vermilion.
 —p.town, cap. of Clay co., at the confluence of Missouri and Vermilion Rs., 27 m. E. by S. from Yankton by Sioux City and Dakota div. of C., M.&St. P.R.R. It has a graded school, a bank, a U. States land office and 2 wkly papers. Pop. 714.
Vermillion, Ill., a river, rises in Livingston co., flows S.W. and joins the Illinois in La Salle co. The rapids and falls in the lower part of its course afford good water-power.
 —an E. co., bordering on Ind., drained by Vermilion and Little Vermilion Rs. and their affluents; area, 1,000 sq. m. The surface is level and the soil very fertile. Bituminous coal is found along the banks of Vermilion R. The chief prod. in 1880 were 6,385,860 bush. of corn, 777,483 of oats, 761,788 of wheat, and 27,125 of rye; potatoes, butter, wool, and hay are also staple prod. Cap., Danville. Assessed val. of taxable prop. \$12,772,704. Pop. 41,601 (of whom 2,996 for., and 201 colored).
 —p.v. in Stratton tp., Edgar co., 12 m. N.W. Terre Haute, Ind., by I.&St.L.R.R. It has a graded school. Pop. 387.
 —tp., La Salle co. Pop. 612.
Vermillion, Ind., a W. co., bordering on Ill. bounded E. by the Wabash and intersected by Vermilion R.; area, 270 sq. m. The surface is generally level, and the soil highly fertile, a large portion of the county consisting of beautiful prairie land. Iron ore and bituminous coal abound. The chief prod. in 1880 were 1,348,321 bush. of corn, 666,854 of wheat, and 101,820 of oats; also dairy prod. Cap., Newport. Val. of taxable prop. abt. \$9,000,000. Pop. 12,025 (of whom 202 for.).
 —tp. in above co. Pop. 2,215.
Vermillion, Kan., p.v. in Noble tp., Marshall co., on M.P.R.R., 8 m. W. of Centralia. Pop. 122.
 —tp., Marshall co. Pop. 1,770.
Vermillion, La., a river, rises in the N.E. part of Lafayette parish, and flows S. through Vermilion co., to its entrance into Vermilion Bay, which is connected with the Gulf of Mexico by a strait called Grand Pass. The bay is also connected with Cote Blanche Bay on the E. It has only 5 ft. of water on the bar at the entrance, but has 10 or 12 ft. within.
 —a S.W. parish, bordering on the Gulf of Mexico and intersected by Vermilion R.; area, 1,226 sq. m. The surface is level prairie and in many places marshy. The chief prod. in 1880 were 166,709 bush. of corn, 66,672 galls. of molasses, 1,295 hhd. of sugar, and 368,623 lbs. of rice. Cap., Abbeville. Val. of taxable prop. abt. \$1,500,000. P. 8,735 (of whom 146 for., and 1,956 colored).

Vermillion, Minn., a lake in St. Louis co., lat. 47° 50' N., lon., 90° 30' W. It is abt. 20 m. long, 10 m. wide very irregular in shape and sends its waters N. by an outlet of the same name to Rainy Lake.

—p.v. and tp., Dakota co., on Vermillion Creek, a small affluent of the Mississippi, 7 m. S.W. Hastings by C.M.&St.P.R.R. Pop. 150; of tp., 819.

Vermillion, N.Y., p.v. in Palermo tp., Oswego co., 6 m. S.W. Mexico Station. Pop. 250.

Vermillion, O., a river rises in the N. part of Richland co., and flowing N., enters Lake Erie at Vermillion, Erie co.

—tp., Ashland co. Pop. 2,209.

—p.v. & shipping port and tp., Erie co., on Lake Erie at the mouth of Vermillion R., 20 m. E. of Sandusky by L.S.&M.S.R.R. The principal article of export is sandstone, which is quarried here. P.1,069; of tp.1,944.

Vermillion, Utah, tp., Sevier co. Pop. 112.

Vermillion Grove, Ill., p.v., Vermillion co., 14 m. S. of Danville by W.St.L.&P.R.R. Pop. 100.

Vermillionville, Ill., p.h. in Deer Park tp., LaSalle co., on Vermilion R., 12 m. S.W. Ottawa. P.75.

Vermillionville, La., p.v. & cap. of Lafayette parish on Vermillion R., at junction of L.W. and M's.L.&T.R.R.s., 144 m. W.S.W. New Orleans. It has a Roman Catholic college, a Masonic hall, a bank, and 2 wkly papers. Principal business, farming. P.816.

Vermont (from the French *vert* green, and *mont* mountain), one of the New England States, bounded N. by Canada, E. by New Hampshire, S. by Massachusetts, and W. by New York. It is situated between lat. 42° 44' and 45° N., lon. 71° 33' and 73° 25' W. The length from N. to S. is 158 m., the breadth between 40 and 90 m., and the area 9,135 sq. m. The Green Mts. extend through the whole length of Vt., but above the 44th parallel it divides into two chains, one maintaining the same direction (N. by E.) with the lower portion, and extending into Canada; the other, turning N.E., extends to the N.H. line, and finally loses itself in the Canadian highlands on the W. border of Me. This last range, beginning at Killington Peak, forms the watershed between the affluent of the upper Conn. and the streams flowing N. or W. into Lake Champlain, and the lower portion fulfills a similar office between the waters flowing into the Hudson and those tributary to the Conn. The Green Mts. are not granitic, at least in the surface-rocks, and their rounded, grassy summits afford a marked contrast to the sharp, cold, and bare summits, of the White Mts. in the adjacent State. None of the summits attain the height of some of the White Mts., and their is a considerable diversity of statement in regard to the actual height of the principal summits. Prof. Guyot gives the following figures in regard to the higher summits: Mount Mansfield, three summits, the "Chin" and "Nose," 4,430 and 4,094 ft.; the "Forehead" or South Peak, 3,934 ft.; Killington Peak, 4,221 ft.; Killington Dome (Pico), 3,954 ft.; Camel's Hump, 4,085 ft.; Equinox Mt., 3,872 ft.; Shrewsbury Peak, 3,845 ft.; Green Peak of Eolus Mt., 3,148 ft.; Lincoln Mt., 4,078 ft.; Mount Sterling, 3,700 ft.; Hogback Mt., 3,648 ft.; Jay Peak, 4,018 ft.; Bald Mt., 3,124 ft. Mount Asectney is a detached mountain 3,320 ft. high, and commands a noble landscape. The E. part of the State is drained by the Connecticut R. and its numerous affluents; the N. portion sends some small streams to Lake Memphremagog, but the principal rivers of the W. part of the State, the Missisquoi, Lamolle, Winooski or Onion R., and Otter Creek, with their tributaries, are feeders of Lake Champlain, while Hubbardton Creek and Poultny R. fall into the S. arm or extension of the lake. The Hoosac, Battenkill, and other small tributaries of the Hudson drain the S.W. corner of the State. Besides Lake Champlain, which forms so large a part of the W. boundary of the State, and Lake Memphremagog,

which is partly in Vermont and partly in Canada, there are nearly 100 smaller lakes or ponds, some of them of considerable size and beauty, in the State. The principal are Willoughby, Seymour, Maidstone, Great Trout Pond, Dummer, Bombazine, and Austin. In portions of the State medicinal springs of recognized value are found. Those of Alburl, Highgate, Clarendon, Newbury, Williamstown, Hartford, Brunswick and Panton being best known. Their medicinal properties are derived from gaseous and not mineral substances, and have been found principally efficacious in cutaneous and liver complaints. The climate of Vt. is, in general, marked by wide extremes; the winters are cold and long, the summers short and, for a few days at a time, hot; but there are few more healthful climates in the U. States. The isothermal of 44° annual mean temperature intersects the State almost diagonally, entering from the N.W. corner and dipping down to near the central portion of the State on the E. In the N.E. the mean annual temperature is 40°; in the S.W. and S. it is abt. 46°.—The geological formation of Vt. consists chiefly of those comprised in the Azoic and Silurian divisions. The Devonian formation is represented by a band of limestone abt. 1 m. wide and 30 m. long, on the E. side of the Green Mts. The entire State shows a drift formation, and alluvial deposits are found along the banks of most of the streams. The Green Mts. are principally composed of gneiss and schists, their W. base being overlaid by a belt of quartz rock upon which rests a bed of crystalline limestone. In the valley of Lake Champlain the rocks are lower Silurian and Primordial. This portion was formerly covered by the waters of the ocean, and great quantities of sea shells are found in the clay banks of the lake. In 1849, the remains of a fossil whale, 14 ft. long, were found imbedded in a clay bed, 8 ft. below the surface of the ground, while excavating for the Rutland railroad in Charlotte, abt. 1½ m. E. of the lake. Numerous and valuable deposits are found in connection with the various formation. The copper mines of Vt. rank second in importance to any in the country. Those in Orange co. yielded in 1880, 28,037 tons of ore valued at \$469,495. Manganese, hematite iron ore, native gold and lead are found in greater or less abundance within the entire limits of the talcose slate region. Chromic iron is also found in considerable quantities in the serpentine rocks in the N. part of the State. In the W. and S.W. portion some of the most remarkable beds of porcelain clay or kaolin in the world have been discovered and are being successfully worked. In her limestone formations Vt. is best known. Extensive quarries of white statuary marble, equal to the famous Carrara, variegated and veined marbles of every shade from the deepest black to the most delicate flesh color, unsurpassed in richness and variety are already successfully developed on the W. side of the Green Mts. Valuable quarries of argillaceous slate, superior to those of Wales; beds of soap-stone and freestone following the general trend of the stratified rocks through the State, and granite, syenite and sandstone, highly valuable for building purposes, are all abundant in different parts of the State.—The meadow and arable lands of the State are generally fertile, and, being largely underlaid with a disintegrating limestone, yield good crops to the careful tiller; the mountain slopes, where not covered with timber, furnish rich and nutritious pasturage to the horses, cattle, and sheep, which are kept in large numbers and furnish a considerable share of the wealth of the State. The forest trees are the evergreens—hemlock, fir, and spruce, and some pine on the mountains, oak, hickory, beech, birch, elm, sugar, rock, and red maple, butternut, basswood, tulip tree, etc., on the lower slopes of the hills, and cedar and juniper in the swamps. The sugar maple is the most abundant

of the forest trees of the State, and from its sap a larger quantity of maple sugar and syrup is made than in any other State in the Union. Four-fifths of the land in the State are in farms, and nearly three-fourths of this are under cultivation. The principal prod. in 1880, according to the census of that year, were 1,801,600 bush. of corn, 314,325 of wheat, 102,456 of rye, 3,185,536 of oats, 306,574 of barley, 348,400 of buckwheat, 3,954,740 of potatoes, and 1,182,930 tons of hay. The farm animals were 75,215 horses, 283 mules, 18,868 working oxen, 217,033 milch cows, 167,204 other cattle, 439,870 sheep, and 76,384 hogs.—In 1880 there were in Vt. 2,874 manuf. establishments, employing 15,540 hands, capital invested \$23,255,224, wages paid during the year \$5,164,479, value of materials \$18,330,677, value of prod. \$31,354,356. Of the most important manufactures may be mentioned the dressing of lumber, Burlington ranking third among the lumber marts of the U. States; woolen and cotton goods there are abt. 75 mills; tin, copper and sheet iron ware, scales, the works at St. Johnsbury being among the most extensive in the world; musical instruments, agricultural implements, carriages and wagons, machinery, butter and cheese, flouring and grist-mill products, and several mining and quarrying establishments. A considerable foreign commerce is carried on with Canada through Burlington, which is the port of entry of the U. States customs district of Vermont. The value of imports for the year 1880 was \$6,484,684, of exports \$1,801,529. There were entered in the foreign trade 982 vessels of 126,755 tons, cleared 949 vessels of 123,695 tons. The total number of vessels belonging to the district was 35, of 4,115 tons. The total extent of railroads in the State amounted to 614 m. in 1870, and 915 m. in 1882.—A compulsory school law was passed in 1867. Every child of good health, between the ages of 8 and 14 years, is required to attend school for at least three months in each year. From 5 to 20 years is the legal school age. In 1880 the number of school districts was 2,350, children in the State, 92,831, pupils enrolled 77,521, teachers 4,452, expenditures for schools \$496,169. There are three colleges—viz., Middlebury college, Norwich university (military) and the university of Vermont and State agricultural college. There were also 19 incorporated academies, and 19 graded schools. The charitable and penal institutions are: The Vermont asylum for the insane, at Brattleborough, established in 1834, the reform school, at Waterbury, established in 1865, and the State prison, established in 1807, at Windsor.—The State is divided into 14 cos., viz.: Addison, Bennington, Caledonia, Chittenden, Essex, Franklin, Grand Isle, Lamoille, Orange, Orleans, Rutland, Washington, Windham and Windsor. The principal cities and towns are Montpelier (the cap.), Burlington, Bennington, Vergennes, Springfield and Bellows Falls. The general assembly, which meets biennially, consists of a senate of 30 members and a house of representatives of 249 members (one from each town and city). The governor (salary \$1,000) and other executive officers are elected for a term of two years. The supreme courts consists of six judges, chosen by the legislature, and receiving a salary of \$2,500 each. There are also county courts for each of the 14 counties, courts of chancery and probate courts. Justices of the peace are elected for each town. A prohibitory liquor law is in force, and the liquor-seller is responsible for damages done by an intoxicated person. Vt. sends 2 representatives to congress, and has 4 electoral votes. The State debt in 1882 was \$155,500. The valuation of taxable property (made in accordance with the "act to equalize taxation" passed in 1881), was \$164,063,669.—Champlain, with two other French officers, traversed a portion of this territory in 1609. The first settlement was made in 1724, at

Fort Dummer, within the limits of the present town of Brattleborough. A settlement was begun on the E. shore of Lake Champlain by the French in 1731. New Hampshire claimed jurisdiction over the territory, and Gov. Wentworth made grants of land to settlers in 138 townships. New York also based a claim upon the grants of King Charles II., and tried to exert her authority. Attempts to dispossess them of their lands were resisted by the settlers, who applied the "beech seal" (whipping with beechen rods) to the New York officers, until none could be found willing to serve writs. The "Green Mountain Boys" thus defended themselves for several years. An amicable adjustment was finally made by the payment to New York of \$30,000 in settlement for all her claims. In Jan., 1777, a general convention proclaimed that the territory known as the New Hampshire Grants was of right a free and independent jurisdiction, to be henceforth called by the name of "New Connecticut, alias Vermont." During the revolutionary war the Green Mountain boys bore an honorable and conspicuous part. Vt. was admitted to the Union on the 4th of March, 1791. Pop. in 1790, 85,425; in 1830, 280,652; in 1860, 315,098; in 1870, 330,551; in 1880, 332,286 (of whom 166,887 males and 165,399 females; 291,327 natives and 40,959 of foreign birth, 331,218 whites, 1,057 colored and 11 Indians).

Vicksburg, *Mich.*, p.v. in Brady and Schoolcraft tps., Kalamazoo co., on G.R.&I. and G.T.R.Rs., 13 m. S. by E. from Kalamazoo, and 30 m. N.E. Cassopolis. It is located in the centre of a rich farming section, and has a union school, a bank, a wkly paper, and several mills. Pop. 784.

Vicksburg, *Miss.*, p.o., Renneville co.

Vicksburg, *Miss.*, a city and port of entry, cap. of Warren co., on the Mississippi R., abt. 400 m. above New Orleans, and nearly the same below Memphis, Tenn., and on the V.&M., the V., S.&P., and the M.V.&S.I.R.Rs., 44 m. W. of Jackson. It has a regular line of packets plying the Mississippi R. to St. Louis, a wkly packet to Memphis, a tri-wkly mail line to New Orleans, and a large fleet of boats plying on the tributaries. It is the first city in size and importance in the State and the second port of importance on the Mississippi R. between St. Louis and New Orleans. Vicksburg is built on a range of hills that skirt the Yazoo and Mississippi Valley from Memphis, and touches the river-bank here. It is therefore the outlet for the products of the Mississippi delta and the fertile valleys of the Yazoo, Sunflower, and tributary streams. The leading staple is cotton, and the commerce of the city depends mainly upon the success of the cotton-crop. Vicksburg has a merchants' and cotton exchange, 3 banks, 2 daily, 2 wkly and 1 monthly paper, a cotton-seed oil-mill which ships a large amount of cotton-seed oil, oil-meal, and oil-cake to Europe, and several other mills and factories. A short distance beyond the city limits is the national cemetery, in which are interred 17,000

Union soldiers, and between the cemetery and the city is a stone-quarry giving employment to 150 or 200 men. Vicksburg was strongly fortified in 1861. In Jan., 1861, it was attacked by the U. States naval forces from Memphis and New Orleans, but without success. In April, 1863, a naval attack was combined with the land forces under Gen. Grant who, with a close siege and continual assaults, compelled a surrender, July 4, 1863. Vicksburg was situated on the E. bank of the river, with a long, narrow neck of land forming a sort of peninsula opposite the city. During the siege in 1863, Gen. Grant attempted to divert the channel of the river through the peninsula abt. 3 m. below the city, but failed. On April 26, 1876, the water broke through the peninsula, which had been gradually wearing away for years and had narrowed to 153 ft. in width, forming a cut-off directly opposite the city, so that Vicksburg is now upon a lake with an island in front. Pop. 11,814.

Vicksburg, *Pa.*, p.v. in Buffalo tp., Union co., on a branch of Penn. RR., 6 m. W. of Lewisburg.

Viginti, Mo., p.o., Clay co.

Vigo, Ind., a W. co., bordering on Ill., and drained by the Wabash R., and intersected by the Wabash and Erie Canal; area, 411 sq. m. The surface is level or undulating and diversified with forests and prairies, and the soil is very fertile. Bituminous coal, limestone, and freestone abound. The chief prod. in 1890 were 1,917,163 bush. of corn, 890,846 of wheat, and 124,188 of oats; potatoes, butter, and pork are also staple prod. Cap., Terre Haute. Val. of taxable prop. abt. \$35,000,000. Pop. 45,656 (of whom 4,789 for., 1,494 colored, and 7 Indians).

—tp., Knox co. Pop. 3,196.

Vigo, O., p.v., Ross co., on M.&C. RR., 12 m. S.E. Chillicothe. Pop. 175.

Vilas, Wis., p.o., Dane co.

Villa, Va., p.o., Franklin co.

Villa Franca, N.C., p.o., Rowan co.

Village, Ark., tp., Jackson co. Pop. 743.

Village, Iowa, tp., Van Buren co. Pop. 1,541.

Village Creek, Iowa, p.v. in Lafayette tp., Alamakee co., 4 m. S. of Lansing Station, derives its name from the mill stream on which it is located. It has a woolen and 4 flour-mills. Pop. 167.

Village Green, Pa., p.v. in Aston tp., Delaware co., 5 m. S.W. Media, and 1 m. from Knowlton Station. Pop. 237.

Village Springs, Ala., p.o., Blount co.

Villa Grove, Cal., p.o., Saguache co.

Villanova, N.Y., p.h. and tp., Chautauque co., 8 m. W. of Dayton. Pop. of tp. 1,446.

Villanova, Pa., p.v. in Radnor tp., Delaware co., on Penn. RR., 6 m. from Media. Pop. 100.

Villanow, Ga., p.o., Walker co.

Villard, Minn., p.o., Page co.

Villard, Oreg., p.o., Wasco co.

Villa Ric'a, Ga., p.v., Carroll co., 15 m. N.E. Carrollton, in the vicinity of rich gold-mines. P. 212.

Villa Ridge, Ill. (p.o. name or VALLEY FORGE), p.v. and tp., Pulaski co., on C.I. RR., 10 m. N. of Cairo. Pop. 325; of tp. 1,366.

Villa Vista, La., p.o., East Carroll parish.

Villa Platte, La., p.o., St. Landry parish.

Villemont, Ark., tp., Arkansas co. Pop. 344.

Villis'ca, Iowa, p.v. in Jackson tp., Montgomery co., on Nodaway R., 69 m. E. of Council Bluffs by C., B. & Q. RR. It has a graded school, 2 banks and 2 wkly papers. Exports, corn, and hogs. Pop. 1,299.

Vilonia, Ark., p.o., Faulkner co.

Vina, Cal., p.v. in Lassen tp., Tehama co., 39 m. S.E. Red Bluff by C.P. RR. Pop. 93.

Vinalhaven, Me., p.tp., Knox co., includes the Fox Islands at the mouth of Penobscot Bay. Pop. 2,855.

Vincennes (vin-senz), Ind., a city in Vincennes tp., cap. of Knox co., on the E. bank of Wabash R., here navigable for steamboats, and on the C. & E. I., the I. & V., the O. & M., and the W., St. L. & P. RR.s., 117 m. S.W. Indianapolis, 149 m. E. of St. Louis, and 230 m. S.E. Chicago. It is built in the mid-t of a fine prairie, and is entirely above overflow. It is regularly laid out, and the streets are beautifully lined with shade trees, and lighted with gas. Vincennes has a Roman Catholic Cathedral and 9 other churches, 2 nat. banks, 2 daily and 3 wkly papers, a public library, and a Roman Catholic orphan asylum for boys. The Vincennes University, a well-endowed school, chartered in 1807, is a prosperous institution of learning. Vincennes is the entrepôt for a rich agricultural region, in which there are vast quantities of valuable timber and coal of a superior quality. There are 5 flouring-mills, an extensive factory for making starch and syrup from Indian corn, 2 woolen-mills, 3 iron-foundries, 1 hub and spoke factory, and extensive machine-shops for the railroads. There are 3 artificial

earth-mounds standing upon the high land overlooking the city, representing an ancient civilization. Vincennes is the oldest settlement in the State, having been established by the French as a trading post in 1702, and was the cap. of the territory of Indians until 1813. It was incorporated as a city in 1856. Pop. 7,680; of tp. 9,408.

Vincennes, Iowa, p.v. in Des Moines tp., Lee co., 15 m. N.W. Keokuk by C., R.I. & P. RR. (San Prairie Station). Pop. 113.

Vincent, Kan., p.o., Osborne co.

Vincent, Neb., p.o., Furnas co.

Vincent, O., p.v. in Barlow tp., Washington co., on M. & C. RR., 12 m. W. of Marietta. Pop. 100.

Vincent, Pa., p.h. in East Vincent tp., Chester co., 6 m. N.W. Phoenixville Station. Pop. 75.

Vincetown, N.J., p.v. in Southampton tp., Burlington co., on the S. branch of Rancoes Creek, and on Amboy div. of Penn. RR., 5 m. S.E. Mount Holly and 24 m. due E. of Philadelphia. It has 2 graded schools, a public library and a nat. bank. Exports, lumber, live-stock, produce and carriages. P. 683.

Vincet Settlement, La., tp., Calcasieu parish. Pop. 1,329.

Vincit, Mo., p.o., Dunklin co.

Vinco, Pa., p.h. in Jackson tp., Cambria co., 7 m. N. of Johnson Station. Pop. 62.

Vine, Mich., p.o., Iosco co.

Vine Creek, Kan., p.o., Ottawa co.

Vinegar Hill, Ga., tp., Walton co. Pop. 996.

Vinegar Hill, Ill., tp., Jo Daviess co. Pop. 649.

Vinegar Hill, Tenn., h., Montgomery co.

Vine Grove, Ky., p.v., Hardin co., 16 m. S.W. West Point by C. O. & S. W. RR. Pop. 175.

Vineland, Minn., p.o., Yellow Medicine co.

Vineland, Mo., p.h., Jefferson co., 4 m. S. of De Soto by St. L., I. M. & S. RR. Pop. 51.

Vineland, N.J., p. borough in Landis tp., Cumberland co., at intersection of W. J. and N. J. S. RRs., 12 m. N.E. Bridgeton, 34 m. S.E. Philadelphia, and 115 m. S.W. New York City. Founded in 1861 and regularly laid out on a plot a mile square. Vineland has now 10 churches, 4 graded schools, 1 high school, a public library of 3,500 volumes, 2 public halls, 2 daily and 2 wkly papers, gas works, a volunteer fire department, and a large number of first class merchandise houses. The principal avenues of the city are 100 ft. wide and the others 60 ft., and all are bordered with double rows of handsome shade trees. The private residences are generally handsome and surrounded with flower gardens and vineyards. The principal manuf. are 5 shoe factories, 2 foundries, 3 shirt factories, 1 planing mill, 2 plow factories, 1 cap factory, 1 button factory, 1 glove factory, and a paper box factory. Immense quantities of fruit are produced in the vicinity, shipments from Vineland alone reach as high as ten carloads of fruit per day. The next export of importance is shoes, which with a large number of other articles, make the shipping trade here quite extensive. The temperance policy of the place, its mild and healthful climate, the abundance of superior fruit produced, and the general beauty of the town, serve to attract settlers here from all parts of the world. Pop. 2,519.

Vine-mont, Pa., p.v. and health resort in Spring tp., Berks co., on a branch of P. & R. RR., 10 m. W. of Reading. Pop. 110.

Vine Prairie, Ark., tp., Crawford co. P. 839.

Vine's Springs, Ind., p.h. and summer resort, Ripley co., on O. & M. RR., 5 m. N. of Versailles. Pop. 20.

Vine Valley, N.Y., p.h. in Middlesex tp., Yates co., on Canandaigua Lake, 9 m. S. of Canandaigua. Pop. 30.

Vine yard, Ark., p.o., Phillips co.

Virgin City, *Utah*, p.v., Kane co., on Virgin R., 6 m. E. by S. from Toquerville. P. 199; of tp. 254.
Virginia, a S.E. State, bounded W. and N.W. by Kentucky and West Virginia, N.E. and E. by Maryland, Chesapeake Bay and the Atlantic Ocean, and S. by North Carolina and Tennessee. It is situated between lat. 36° 30' and 39° 40' N. and lon. 75° 25' and 83° 34' W. The extreme length is 425 m., the breadth 205 m. and the area, 40,125 sq. m. By its natural configuration, Va. presents 6 nearly parallel divisions extending in successive gradation across the State from N.E. to S.W., and differing in respect to geology, climate, soil and productions. The *Tidewater country* is the alluvial and diluvial plain in the E. portion of the State, and is divided by the Chesapeake Bay and the large tidal rivers flow into it into nine primary and many subordinate peninsulas. No part of this region is elevated more than 100 ft. above the sea, and considerable tracts are low and marshy. *Middle Va.*, a triangular tract extending from a N. and S. line running through Richmond to the foot-hills of Southwest Mt., is a wide undulating plain of no great elevation, through which the many rivers which traverse it have cut their channels to a considerable depth and are bordered by alluvial bottom-lands. *Piedmont* includes both slopes of Southwest Mtn., and an undulating plain, broken into valleys in some portions, extending to the foot-hills of the Blue Ridge. It has many small streams, and its hills are rounded and fertile. It occupies a belt of territory from 18 to 28 m. in width, and extending from N.E. to S.W. through the State. The *Blue Ridge country* is a still narrower belt, parallel with the preceding, including both slopes of the Blue Ridge Mts., and forming the E. wall of the Valley of Virginia. The summits of the Blue Ridge rise to a height of 2,500 to 3,000 ft.; they are mostly dome-like and between them stretch, especially in the S., broad plateaus. The *Valley of Virginia* is a part of the great Appalachian Valley, lying between the Blue Ridge on the E. and the Kittatinny or Endless Mts., on the W. It is a broad belt of rolling country, from 1,200 to 1,600 ft. above the sea, diversified by hills and valleys, with many winding streams of water. Its soil, overlaid with disintegrating limestones, shales,

slates, and clays, is very fertile, and it is sheltered by the mountains on either side from chilling winds. *Appalachia* is the region covered by that part of the Kittatinny Mtn. range (which has here a score of local names) traversing Virginia. It is made up of a number of parallel mountain chains, with trough like valleys between them, the mountains often running 50 m. or more in an unbroken, single, straight lofty ridge, with a narrow and equally uniform valley alongside; sometimes the mountains slope gently down and the valleys widen. Some of the sharp bold ridges rise to a considerable height; Elliot's Knob is nearly 4,200 ft., Warm Spring and Alleghany Mtn., abt. 3,500 each. Two points of the Blue Ridge are said to be still higher—The Balsam Mtn., in Grayson co., 5,700 ft., and a point near the Tennessee line, 5,530 ft. Of the numerous rivers which drain the State, six-sevenths belong to the Atlantic system, and one-seventh to the Ohio and its tributaries; and of the latter, a part, as the Holston and Clinch, are affluents of the Tennessee; a part, as the Louisa, Russell, and Tug Forks, of the Big Sandy; while the Kanawha or New River flows into the Ohio directly. Of the streams flowing into Chesapeake Bay, the principal are the Potomac, the Pianketank, the York, and the James, one of the largest rivers in the State. The Chowan, the Roanoke, and other streams fall into Albemarle Sound in North Carolina; and the Yadkin joins the Great Pedee and falls into the Atlantic in S.C. Va. is not a country of lakes. The largest in the State is Lake Drummond in Dismal Swamp; but, aside from the great Chesapeake Bay, which forms so large a portion of its coast-line, it has a number of small bays and extensive estuaries at the mouths of its rivers.—Timber is very abundant. The hickory, white and black oak, ash, chestnut, beech, maple, cedar, pine, etc., grow to an enormous size. When oak lands are cleared a growth of pines springs up, and when pines are removed oaks take their places. Fields once cultivated if left to themselves, are quickly covered with pines. The last census reported 8,294,734 acres of woodland upon farms. On the W. borders of the great valley of Va. are many mineral springs, some of which are celebrated for their medicinal effects. Among the most noted are the Buffalo Lithia in Mecklenburg co.; Orkney in Shenandoah; Rawley in Rockingham; Stribling and Variety in Augusta; Rock-bridge Alum, Jordan Alum, Cold Sulphur, and Baths in Rockbridge; Bath Alum, Wallawatoola, Warm, Hot, and Healing in Bath; Sweet Chalybeate in Alleghany; Blue Ridge, Coyners, and Daggers in Botetourt; Alleghany, Montgomery White Sulphur, and Yellow Sulphur in Montgomery; and New River White Sulphur in Giles.—Va. is rich in minerals which are as yet mostly undeveloped. They comprise gold, iron, copper, lead, zinc, semi-bituminous and bituminous coal, granite, limestone, marble, freestone, greenstone, brown stone, brick, and fireclays, glass sand, plumbago, manganese, gypsum, mica, granite, slate, salt, etc. Gold is found in a belt from 15 to 25 m. wide and 200 m. long, extending from Washington to Halifax Court House. Numerous mines have been opened, but their working has not been found very profitable. A variety of iron ores abound in every natural division of Va., excepting the tidewater. The great iron belt, in which are found vast quantities of red and brown ores, is included in the Appalachian country. On the slopes of the Kittatinny Mts. are found solid masses of hematite iron ore, extending to unknown depths and presenting the appearance of a thick stratum between the sandstone and limestone rocks that form the mountains. Among the foot hills at the W. base of the Blue Ridge are remarkable deposits of brown hematite or hydrated peroxide of iron, which extends nearly 300 m., and whose ore is the

best quality. The production of iron ore for the year 1880 was 169,683 tons valued at \$384,331. Coal abounds in several parts of the State. It is mined in Henrico, Powhatan, Chesterfield, Montgomery and Wytthe cos. The products for 1880 was 40,520 tons valued at \$92,837.—The climate is on the whole mild and salubrious. The tidewater country has long and hot summers, mild winters, and is not altogether free from malarious diseases. Its mean annual temperature varies from 56 to 60 degrees. From here westward the mean annual temperature decreases, until it sinks down in the higher parts of the Blue Ridge to 48 degrees. In the Appalachian country it rises to over 52 degrees. The rain-fall averages, in the larger part of the State from 40 to 44 inches.—The soils of the first or alluvial bottoms deposited by the rivers and estuaries is of perpetual fertility. The second bottoms are of excellent quality, yielding large crops, but are improved by the use of marls or other fertilizers when they have been long cultivated. The slope or third terrace, running back to the watershed or head of tide-water, is thinner and less fertile, but can be made very productive by the use of the marls and shells which are close at hand. The ridge-lands of the tide-water region are always level and very poor, but by the use of manures can be made to produce fair crops. Middle Va. has much good and fertile land, but it has also much very poor and sterile soil. The soils of the Piedmont region, are very fertile, as are also portions of the Blue Ridge country; but where the sandstones prevail on the W. slope, they are sandy and poor. The greater part of the soils of the Valley of Va. are very rich and productive. This has been called the "garden of America." The valleys in the Appalachian region are generally rich and productive, but many of the ridges and mountain slopes are sterile. The great staple product of Va. from the earliest settlement is tobacco. The wheat of the State makes flour which for many years has monopolized the tropical markets, because it keeps better than any other. Corn is raised all over the State. Vegetables and fruits, called trucky, constitute a very large and increasingly valuable item in the products of the tidewater counties. In this division also the oyster business gives employment to thousands of men in catching and preparing for market, and canning these bivalves, considered the most delicious in the world. The chief products for the year 1880, according to the census were 7,822,504 bush. of wheat, 5,333,181 of oats, 29,106,661 of corn, 136,004 of buckwheat, 324,431 of rye, 1,394,350 of potatoes, 169,323 tons of hay, and 78,421,860 lbs. of tobacco. The live stock on farms were 218,838 horses, 33,598 mules, 54,709 working oxen, 243,061 milch cows, 388,414 other cattle, 497,259 sheep, and 956,451 hogs.—In 1880 Va. had 5,710 manufacturing establishments, employing 40,184 hands; capital invested \$26,968,990; wages paid during the year \$7,425,251; value of materials, \$32,883,933; value of products, \$51,780,992. The largest item of manufacture is tobacco, of which 32,208,664 lbs. were manufactured in 1880. Flour and meal come next, then iron manufacture, in its various stages, cotton, lumber, wooden ware and furniture, woolens, sumac, paper, leather, zinc, lead, jute, acids, fertilizers, lime, paper boxes, &c. Although Va. has in her commodious harbors and deep estuaries great facilities for commerce and shipping, its direct trade with foreign countries is not great. It has seven custom-house districts, viz.: Alexandria, Cherrystone, Norfolk and Portsmouth, Petersburg, Richmond, Tappahannock and Yorktown. Belonging to these districts in 1880 were 1,152 sailing vessels of 28,610 tons, 107 steam vessels of 8,545 tons and 2 barges of 156 tons. The goods imported from foreign countries had a total value of \$505,077, and the do-

mestic goods exported to foreign countries of \$19,724,837. There were in 1882, 2,193 m. of completed railroad. The State has 3 canals: the James River and Kanawha, the Albemarle and Chesapeake, and the Dismal Swamp.—A general school law was passed July 11, 1870. In 1880 the number of public schools was 2,491, pupils enrolled 108,074, average daily attendance 65,771, teachers 2,504, value of school property \$1,088,957. The university of Va., located near Charlottesville, Albemarle co., ranks in the first class of American universities. The Washington and Lee universities, at Lexington, are controlled by the Presbyterians. The Virginia military institute, at Lexington, is supported by the State in part, and in part by tuition. The agricultural and mechanical college, at Blacksburg, was founded on a donation of land by the general government. The Hampton agricultural and mechanical school for freedmen, was founded also on a donation of land by the general government. Besides these, the following colleges and institutions are in operation, supported by tuition and endowments, viz.: Randolph Macon, Richmond, Roanoke, Henry, Emory and Hampden Sidney colleges; the Union theological seminary, William and Mary college, founded in 1602 (the oldest collegiate institution in the country after Harvard college), and the Theological seminary at Alexandria.—Va. is divided into 100 cos., viz.: Accomack, Albemarle, Alexandria, Alleghany, Amelia, Amherst, Appomattox, Augusta, Bath, Bedford, Bland, Botetourt, Brunswick, Buchanan, Buckingham, Campbell, Caroline, Carroll, Charles City, Charlotte, Chesterfield, Clarke, Craig, Culpeper, Cumberland, Dinwiddie, Elizabeth City, Essex, Fairfax, Fauquier, Floyd, Fluvanna, Franklin, Frederick, Giles, Gloucester, Goochland, Grayson, Greene, Greenville, Halifax, Hanover, Henrico, Henry, Highland, Isle of Wight, James City, King and Queen, King George, King William, Lancaster, Lee, Loudoun, Louisa, Lunenburg, Madison, Mathews, Mecklenburgh, Middlesex, Montgomery, Nansemond, Nelson, New Kent, Norfolk, Northampton, Northumberland, Nottoway, Orange, Page, Patrick, Pittsylvania, Powhatan, Prince William, Pulaski, Rappahannock, Richmond, Roanoke, Rockbridge, Rockingham, Russell, Scott, Shenandoah, Smyth, Southampton, Spotsylvania, Stafford, Surry, Sussex, Tazewell, Warren, Warwick, Washington, Westmoreland, Wise, Wythe, and York. Richmond is the cap. The other cities are Alexandria, Lynchburg, Petersburg, and Fredericksburg. The State penitentiary at Richmond, is conducted on the "silent system." There are three asylums for the insane, located at Williamsburg, Staunton and Richmond. The institution for the deaf and dumb and the blind is at Staunton.—The legislature which meets annually consists of a senate of 43 members elected for 4 years, and a house of delegates of 138 members elected for 2 years. The chief executive power of the commonwealth is vested on a governor, who is elected for 4 years. The other executive officers are elected for 2 years by the joint vote of the two houses of the general assembly. The supreme court of appeals has 5 judges, holding office for 12 years. All judges are elected by the legislature. Va. sends 10 representatives to congress and has 12 electoral votes. The State election is held on the first Monday in November. A convention met at Richmond, Dec. 3, 1867, for the revision of the constitution, and a new constitution was ratified by the people July 6, 1869. By a constitutional amendment, ratified by a large majority in 1874, the township system was abolished (1). In 1881 the assessed val. of taxable

(1) The abbreviation tp. is used in this gazetteer instead of District, only for the sake of brevity and uniformity.

prop. was \$304,663,969 (real estate, \$234,272,951; personally, \$70,391,018). The receipt of State treasury for that year was \$2,632,345, expenditures \$2,152,028. The acknowledged State debt, in 1881, was \$31,935,432. The Kiddleberger law (Feb., 1882), for readjusting the debt directs that the debt shall be refunded in new 3 per cent. bonds as follows: Consols \$14,369,974 @ 53; ten-forties, \$8,517,600 @ 60; peclers (coupons), \$1,072,545 @ 80; unfunded 6s, \$3,773,493 @ 69; literary fund, \$1,428,245 @ 63; literary fund (coupons), \$379,270 @ par. Total of debt, when refunded, \$19,119,522.—Sir Walter Raleigh bestowed the name of Virginia upon this territory, in honor of the virgin Queen Elizabeth. Jamestown, which was founded May 13, 1607, claims the honor of being the oldest English settlement in America. In 1754 hostilities began between the French and the English. After the defeat of Braddock, in 1775, George Washington was put in command of the Virginia troops, and gained a military experience which fitted him for the command of the continental army for independence. Eastern Va. suffered very severely during the revolutionary war, which was virtually terminated by the surrender, upon her soil, of Lord Cornwallis, Oct. 19, 1781. (See YORKTOWNS). An ordinance, of secession was passed April 17, 1861, and Richmond soon after became the capital of the Southern confederacy. The citizens of the Western counties dissented from this action, and withdrawing, formed the new State of West Virginia. On Jan. 27, 1870, the government of the State was transferred to civil authorities. Pop. in 1790, 747,610; in 1830, 1,211,405; in 1860, 1,596,318 (of whom 58,042 free colored, and 490,865 slaves); in 1870, 1,225,163; in 1880, 1,512,565 (of whom 745,589 males, and 766,976 females, 1,497,869 natives and 14,696 of foreign birth, 880,858 whites, 632,616 colored, 6 Chinese, and 85 Indians).

Virginia, Cal. (p.o. name LINCOLN), v., Placer co., 10 m. N. of Auburn. Pop. 514.

Virginia, Ill., p.v. ♦ and tp., cap. of Cass co., at crossing of O.&M. and W., St.L.&P.R.Rs., 68 m. S.W. Peoria. It has a high school, 2 nat. and another bank, 2 wkly papers and several factories. Pop. 1,420; of tp. 2,308.

Virginia, Iowa, tp., Warren co. Pop. 816.

Virginia, Mo., p.h., Bates co., 9 m. W. of Butler. Pop. 225.

—tp., Pemiscot co. Pop. 653.

Virginia, O., tp., Coshocton co. Pop. 1,180.

Virginia City, Mont., a city ♦, cap. of Madison co., and formerly cap. of the territory, on the N. bank of Alder Creek, on the E. slope of the Rocky Mts., 5,826 ft. above the sea. 110 m. (air line) S. of Helena, and abt. 60 m. by stage N. by E. from Monida Station on U.P.R.R. It is supported by the placer and quartz mines in the vicinity, which have yielded abt. \$45,000,000. The city contains a court house, a jail, a public school house, 2 banks, a wkly paper, a public library, and three churches (Episcopal, Methodist, and Roman Catholic).—Virginia City was settled in 1863, upon the discovery of gold in Alder gulch, and was incorporated in 1865. Pop. 624.

Virginia City, Nev., a city ♦, cap. of Nevada co., in the Washoe Mts., at the terminus of V.&T.R.R., by which it is 52 m. S.S.E. Reno on the C.P.R.R., and 21 m. N.N.E. Carson City, abt. 180 m. (air line) N.E. San Francisco. It is built at the E. foot of Mt. Davidson, which rises 1,622 ft. above the main street and 7,827 ft. above the sea. It is regularly laid out on a precipitous site, with broad streets and avenues, but is destitute of shade trees and unattractive in appearance. The pitch of the ground is such that what is the first story of a house in front becomes the second or third story in the rear, and in looking in any direction the eye meets an unvaried prospect of chain after chain of interlocked peaks. On Oct. 26, 1875, the city was almost entirely destroyed by fire, but it

has been rebuilt more handsomely than ever, and a similar catastrophe provided against with characteristic energy by the construction of water-works costing over \$2,000,000. It is lighted with gas, and has 5 public schools (1 high and 4 grammar), a Roman Catholic and several private schools, 4 banks, 2 daily, 2 wkly and 1 monthly paper. The chief business is mining. The city stands directly over the famous Comstock Lode, and near by, besides several other mines, are the celebrated consolidated Virginia mine and the big bonanza mine, said to be the richest in the world. The principal mines have machinery capable of pumping water and hoisting ore from a depth of 4,000 ft. The greatest depth yet reached is abt. 2,250 ft. Pop. in 1870, 7,048; in 1880, 19,917.

Virginia Dale, Cal., p.h., Larimer co., near the N. line of the State, abt. 30 m. N.W. Fort Collins, at the opening of the neat, elevated and beautiful valley of the Laramie Range. ♦

Virgin River, or Rio VIRGIN, *Utah and Nev.*, rises in Kane co., Utah, flows S.W. for abt. 200 m., and falls into Colorado R. in Lincoln co., Nev.

Virginsville, Pa., p.h. in Richmond tp., Berks co., on P.&R.R.R., 15 m. N.E. Reading. Pop. 46.

Viroqua (vi-ro'kwa), *Iowa*, p.v., Jones co., on C.M.&St.P.R.R., 25 m. E. of Cedar Rapids. Pop. 100.

Viroqua, Wis., p.v. ♦ and tp., cap. of Vernon co., in the midst of a highly fertile region, 32 m. S. of Sparta by a branch of C.M.&St.P.R.R. It has a graded school, a State high school, and 2 wkly papers. Pop. 762; of tp. 2,368.

Virtue Mine, Oreg., tp., Barker co. Pop. 156.

Visage (vi-zij), *Ga.*, p.o., Towns co.

Visalia, Cal., p.town ♦ in Visalia tp., cap. of Tulare co., on S.P.R.R., 40 m. S.E. Fresno City, in the delta of Kaweah R., and is surrounded by groves of native oak. It has excellent schools, a United States land office, an academy, a bank, and 2 wkly papers. Pop. 1,412; of tp. 2,626.

Visalia, Ky., p.v., Kenton co., 14 m. S.E. Covington by K.C.R.R. Pop. 175.

—a city in Noble tp., cap. of Wabash co., on Wabash R. and at the crossing of the W., St. L. & P. and C. W. & M. R.R.s., 90 m. N.E. Indianapolis. It has 1 high and 1 graded school, 1 nat. and 2 other banks, and 2 wkly papers. The C., W. & M. R.R. has large machine shops here, Manuf., easting, flour, furniture, spokes, staves, lime, &c. Good building stone is found near the city which is chiefly built of it. Pop. 3,800.

Wabash, O., tp., Darke co. Pop. 1,135.

—p.o., Mercer co.

Wabash, Va., p.o., Giles co.

Wabasha (wah-ba-shaw), Minn., a S.E. co., bounded E. by the Mississippi R., which separates it from Wis., and intersected by Zumbro, and other rivers; area, 540 sq. m. The surface is undulating, with some prairie, and the soil fertile. Lake Pepin lies on the E. border. The chief prod. in 1880 were 1,461,674 bush. of wheat, 744,653 of oats, 488,236 of corn, and 282,962 of barley; also dairy prod. Cap., Wabasha. Val. of taxable prop. abt. \$7,000,000. Pop. 18,206 (of whom 4,921 for., and 34 Indians).

—p.town & cap. of above co., on Mississippi R., 81 m. S.E. Minneapolis by C., M. & St. P. R.R. It has a union school, a bank, 2 wkly papers, and several factories. It is an important grain mart. Pop. 2,988.

Wabash River, rises in Mercer co., O., and flows N.W. into Huntington, Ind., where it receives Little R., which rises near the junction of the head branches of Maumee R. It then crosses the State in a S.W. direction, receiving Eel and Tippecanoe Rs., on the N., and Salamonie and Mississinewa Rs., on the S. side, and a little below Terre Haute it takes a more S. direction, forming the boundary between Ind. and Ill., until its entrance into the Ohio, 68 m. above the mouth of Cumberland R., and 127 m. above the Mississippi. It is the largest N. tributary of the Ohio, and the second in size in its whole course. It connects Lake Erie with the Ohio R. by means of the Wabash and Erie Canal. Steamboats ascend it to Lafayette. Length, abt. 550 m.

Wabauensee, Kan., a N.E. co., bounded N. by Kansas R. and drained by several streams; area, 796 sq. m. The surface is undulating and the soil productive. The chief prod. in 1880 were 1,608,990 bush. of corn, 217,911 of wheat, and 48,484 of oats. Cap., Alma. Val. of taxable prop. abt. \$3,000,000. Pop. 8,757 (of whom 1,377 for., 645 colored, and 36 Indians).

—p.v. and tp. in above co., on Kansas R., 10 m. N. of Alma. Pop. 65; of tp. 985.

Wabuska, Nev., p.o., Lyon co.

Waccamaw, N.C., tp., Brunswick co. P. 693.

Waccamaw, S.C., tp., Georgetown co. P. 3,716.

Waccamaw River, rises in the marshes of Bladen, Columbus and Brunswick cos., N.C., flows into S.C. in a direction nearly parallel to the coast, and at Mount Gilead, S.C., unites with the Great Pee-dee, which indeed is usually called Waccamaw below the junction. It finally flows into Winyaw Bay. The Waccamaw proper is navigable to Conwayboro', S.C.

Wachusett, Mass., a mountain in the N. part of Princeton, Worcester co., reaches an elevation of 2,016 ft. It is a detached peak, from whose top there is a wide and picturesque view.

Ward's Grove, *Ill.*, tp., Joe Daviess co. Pop. 403.

Ward's Island, *N.Y.*, in New York City, a nearly circular island in the East R., near its junction with the Harlem R., forms the N. boundary of Hell Gate, and is divided from Randall's Island to the N. by Little Hell Gate. It contains abt. 200 acres, is well located above high-water mark, and in parts is finely wooded. It is owned by the city, the Commissioners of Emigration, and by private individuals. It is apportioned between the Commissioners of Public Charities and Correction and the Commissioners of Emigration. Under the care of the former are the insane asylum for males and the homeopathic hospital. Under the charge of the latter are the State Emigrant Hospital, a lunatic asylum (usually containing abt. 1,100 patients), houses of refuge, and a nursery or home for children. There is also on the island a home for invalid soldiers of the late war who served in the regiments raised in this city. In the institution under the charge of the Commissioners of Emigration, sick and destitute aliens arriving in this country are cared for.

tp., Hancock co., on Mississippi R., 5 m. below the

lower rapids and on W., St. L. & P. RR., 3 m. E. of Keokuk, Iowa, with which it is also connected by ferry. It has a high school, a public library, 2 parks, a nat. bank, 2 wkly papers, and various mills and factories. Pop. 3,111.

Warsaw, Ind., a city in Wayne tp., cap. of Kosciusko co., on Tippecanoe R. and at the crossing of C., W. & M. and P., Ft. W. & C. RRs., 36 m. N. of Wabash. It is pleasantly situated in a fertile district and surrounded by 3 small lakes making it a favorite summer resort. It has graded schools, a public library, 2 banks, 3 wkly papers and several grain elevators. Manuf., bricks, sashes and blinds, agricultural and other machinery, &c. Pop. 3,123.

Warsaw, Iowa, p.h., Wayne co., 7 m. S. of Grainville. Pop. 100.

Warsaw, Ky., p.v. in Warsaw tp., cap. of Gallatin co., on Ohio R., 10 m. S.E. Brookville. It has a bank and a wkly paper. Pop. 666; of tp. 1,355.

Warsaw, La., p.o., Franklin parish.

Warsaw, Minn., tp., Goodhue co. Pop. 1,148. —p.v. and tp., Rice co., on Cannon R., 7 m. S.W. Faribault. Pop. 122; of tp. 1,018.

Warsaw, Mo., p.v. in Lindsey tp., cap. of Benton co., on N. bank of Osage R., 42 m. S.W. Sedalia by Sedalia branch of M.P.RR. It has 2 banks, and 2 wkly papers. Pop. 515.

Warsaw, Neb., p.o., Howard co.

Warsaw, N.Y., p.v. in Warsaw tp., cap. of Wyoming co., in a picturesque valley, on N.Y., L.E. & W. and R. & P. RRs., 17 m. S.E. Attica. It has a union free school building, water and gas-works, a public library, 1 nat. and 1 other bank, 3 wkly papers, and several factories. Pop. 2,910; of tp. 3,227.

Warsaw, N.C., p.v. and tp., Duplin co., 29 m. S. of Goldsboro by W. & W. RR. P. 182; of tp. 1,904.

Warsaw, O., p.v. in Jefferson tp., Coshocton co., at the confluence of Mohican R. and Killbuck Creek, 8 m. N.W. Coshocton. Pop. 227.

Warsaw, Pa., p.v. and tp., Jefferson co., 9 m. N.E. Brookville. Pop. 123; of tp. 1,414.

Warsaw, Va., p.v. in Marshall tp., cap. of Richmond co., 40 m. E. by N. from Hanover Court House. Pop. 115.

Warsaw Islands and Sound, Ga., lie off Chatham co., between Tybee and Ossabaw Sounds.

Wartburg, Ill., p.o., Monroe co.

Wartburg, Tenn., p.v., cap. of Morgan co., 115 m. E. of Nashville. Pop. 159.

Warthan, Col., p.o., Fresno co.

Warthen, Ga., p.o., Washington co.

Wartrace Depot, Tenn., p.v., Bedford co., on a creek of the same name, 55 m. S.E. Nashville by N., C. & St. L. RR. Pop. 468.

Warwick, Ala., p.o., Geneva co.

Warwick, Cal., p.o., Worth co.

Warwick, Md., p.v. in Cecilton tp., Cecil co., 5 m. S.W. Middleton, Del. Pop. 324.

Warwick, Mass., p.v. and tp., Franklin co., 7 m. E. of Northfield Station. Pop. of tp. 713.

Warwick, Mo., p.o., Vernon co.

Warwick, N.Y., p.v. and tp., Orange co., on Wawayanda Creek on L. & H. RR., 63 m. S.W. New York. It has 13 churches, Seward and Warwick institutes, a public library, water-works, a nat. bank, a wkly paper, butter, and cheese factories, and rich mines of iron. Pop. 1,043; of tp. 5,699.

Warwick, O., tp., Tuscarawas co. Pop. 1,525.

Warwick, Pa., tp., Bucks co. Pop. 722.

—or St. MARY'S, p.v. and tp., Chester co., 3 m. E. of Blue Rock Station. Pop. 226; of tp. 1,267.

—tp., Lancaster co. Pop. 2,925.

Warwick, R.I., tp., Kent co. Pop. 12,500. See APPONAUG.

Warwick, Va., a S.E. co., on the peninsula between the York and James Rrs., bordering on the

latter, and drained by several small streams; area, 100 sq. m. The surface partly covered with pine wood, is undulating, and the soil fertile. Oysters and firewood are largely exported. Indian corn is the staple prod. Cap., Warwick Court House. Val. of taxable prop. abt. \$600,000. Pop. 2,257 (of whom 1,479 colored).

Warwick Court House, Va., p.v., cap. of Warwick co., near James R., 55 m. S.E. Richmond. Pop. 105.

Warwick Cross Roads, Tenn., p.o., Union co.

War Woman, Ga., tp., Rabun co. Pop. 339.

Wasatch, Utah, a N.E. co., intersected by Green R. and its affluents; area, 2,480 sq. m. Surface mostly desert. The chief prod. in 1880 were 29,174 bush. of wheat, and 16,144 of oats. Cap., Heber. Val. of taxable prop. abt. \$250,000. Pop. 2,927 (of whom 793 for., and 6 Indians).

Wasco, Oreg., a N. central co., bounded N. by Wash., from which it is separated by the Columbia R., bordering W. on the Cascade Mts., and watered by Des Chutes and John Day's Rrs.; area, 9,600 sq. m. It is best adapted to grazing, but the river valleys have a productive soil. The chief prod. in 1880 were 116,661 bush. of oats, 85,894 of wheat, and 47,013 of barley. Cap., Dalles. Val. of taxable prop. abt. \$3,000,000. Pop. 11,120 (of whom 2,703 for., 1,159 Chinese, and 129 Indians).

Wasceca, Minn., a S. co., intersected by Le Sueur R., an affluent of the Blue Earth R.; area, 430 sq. m. The surface is undulating, diversified by prairie and woodland, and the soil is fertile. The chief prod. in 1880 were 292,790 bush. of corn, 405,653 of oats, 693,861 of wheat, and 20,106 of barley; also dairy prod. Cap., Wasceca. Val. of taxable prop. abt. \$4,000,000. Pop. 12,385 (of whom 3,691 for., and 4 Indians).

—p.v. in Woodville tp., cap. of above co., at crossing of M. & St. L. and C. & N.W. RRs., 15 m. W. of Owatonna. It has a graded school, 3 banks, and 2 wkly papers. Pop. 1,708.

Wascepi, Mich., p.v. in Nottawaw tp., St. Joseph co., at crossing of M.C. and G.R. & I. RRs., 9 m. E. of Three Rivers. Pop. 100.

Wash, Cal., p.o., Plumas co.

Washburn, Ark., tp., Logan co. Pop. 1,019. —p.tp., Sebastian co. Pop. 683.

Washburn, Ill., p.v. in Cazenovia tp., Woodford co., 16 m. N.E. Washington by C. & A. RR. It has a bank and a wkly paper. Pop. 450.

Washburn, Iowa, p.h. in Cedar tp., Black Hawk co. Pop. 24.

Washburn, Me., p.tp., Arrostook co. Pop. 809.

Washburn, Minn., p.o., Hennepin co.

Washburn, Mo., p.v. in Sugar Creek tp., Barry co., 8 m. S.W. Cassville. Pop. 218.

Washburn, Wts., p.v. in Lima tp., Grant co., 8 m. N. of Platteville. Pop. 146.

Washington, a N.W. Territory, bounded N. by British Columbia, E. by Idaho, S. by Oregon and W. and N.W. by the Pacific Ocean, the strait of Juan de Fuca and the Gulf of Georgia. It is situated between lat. 45° 30' and 49° N., and lon. 117° 10' and 124° 50' W. The length from E. to W. is 350 m., the breadth 230 m., and the area, 66,880 sq. m. The grand and picturesque Cascade Mts.—the Sierra Nevada of California—traverse the territory nearly N. and S. at an average distance of 100 m. from the coast. This range separates the territory into an E. and W. portion, differing in climate, soil, geological character and natural productions. W. Wash., besides the Cascade Mts., which form its eastern wall, has the Coast Range, extending in somewhat disorderly masses from the Coast Mts. of Oregon, and trending N.W. between Puget's Sound and the Pacific, and finally terminating in the bold and lofty headlands of Cape Flattery. The S. portion of this range

is low, but W. of Hood's Canal, in Jefferson co., it rises to an elevation of 5,000 ft., and in one of its summits, Mt. Olympus, to 8,150 ft. The Pacific coast is generally abrupt and forbidding except the two harbors of Shoalwater Bay and Gray's Harbor, but the Straits of San Juan and the extensive inland sea known by the general name of Puget Sound have some of the best harbors and roadsteads in the world. (See PUGET SOUND.) This W. division of the territory is much broken, but it is densely wooded, well watered and most of it very fertile, while the fine harbors and bays of its central valley make it readily accessible to commerce. Central Wash. comprises the summits of the Cascade Mts., the valley of the Yakima, and the plateau stretching to the Columbia R. The mountains on its W. border form an unbroken range from 5,000 to 8,000 ft. above the sea, and several lofty peaks rise from 2,000 to 6,000 ft. higher. The loftiest peaks are Mt. Baker, Mt. Adams, Mt. St. Helen's, and Mt. Rainier, which last is 14,444 above sea-level. Stretching E. towards the Columbia R. is a lofty plateau channelled by the valleys of the Yakima, Methow, Okinapum, and Nehohatpugun Rs. and their tributaries. The Blue Mts., the summits of this plateau, rise to 8,000 or 9,000 ft., but near Walla Walla sink to 5,000 ft. Its lands are barren, sterile, and dry, the river-valleys are very fertile. Much of the plateau is scantily wooded. E. Wash. comprises the valley of the Columbia and its great affluents, the Clark's, Spokane, and Lewis (or Snake) Rs., and the Spokane plains or plateau—the latter elevated and sterile, and without forests, the former well watered, fertile, and containing a sufficiency of timber. The climate of W. Wash. is equable; in E. Wash. it is subject to greater extremes. In W. Wash. the year may be divided into the wet and dry seasons. The former lasts from Nov. to March or April, during which period drizzly weather prevails; the latter, covering the rest of the year, is not absolutely dry, showers being not infrequent. The mean temperature of W. Wash., derived from observations taken near Steilacoom (lat. 47° 10') for four years, is as follows: year, 50.8°; spring, 49°; summer, 63.3°; autumn, 51.9°; winter, 29°; coldest month (January), 38.1°; warmest month (July), 64.9°. The average precipitation of rain and melted snow in the same vicinity, derived from observations for six years, is as follows: spring, 11.19 inches; summer, 3.85; autumn, 15.83; winter, 22.62; year, 53.49. The least rain fell in July (0.24 inch), and the most in Dec. (9.92). Immediately along the Pacific coast the rainfall is much greater. The thermometer occasionally reaches 90° in summer, but the nights are always cool. Snow rarely falls to a great depth, and lasts but a short time; but little ice is formed. Grass remains green nearly the entire year, and flowers are often found in bloom in midwinter. This extraordinarily mild and balmy climate in a territory situated at the extreme N.W. corner of the country is caused by a warm current from the China sea which washes the N.W. coast of the American continent. Great evaporation is effected on and the air charged with humidity. If it were not for the mountains the air would be too hot and humid on the coast for comfort, but the high mountains cool it and make this one of the most delightful climates in the world. The climate of E. Wash. is much drier, the average annual rainfall in the Walla Walla valley being only 18 inches. The mean temperature here is as follows: spring, 52°; summer, 73°; autumn, 53°; winter, 34°; year, 53°. Further N. toward the British boundary the winters are several degrees colder. The country is healthful.—Wash. is diversified by mountain, valley and plain, and more than two-thirds of it is sufficiently level for settlement and cultivation. Of its lands 35,000,000 acres can be farmed, of which 20,000,000 are timber lands, 5,000,000 acres rich alluvial bot-

tom lands, 10,000,000 prairie and plains, and 9,796,000 covered by water. A large proportion of the latter is well adapted to wheat culture, and all of it to stock-raising. The great Columbia R. flows through Wash. from N. to S. forming the Walla Walla and many other valleys. The Walla Walla is almost wholly in Wash. and forms two of its most wealthy cos. This valley embraces 8,000 sq. m., and contains 5,120,000 acres of land. Its capacity for production of wheat, corn, rye, barley and oats is not excelled by any valley in the West. It contains 2,000 farms of 160 acres each, and produces apples, peaches and grapes of the finest quality. Its wool commands a premium in the markets, and it has water power sufficient to turn all the spindles in the world. The principal products of Wash. for the census year 1880 were 566,537 bush. of barley, 39,183 of corn, 1,571,706 of oats, and 1,921,322 of wheat. The farm animals were 45,848 horses, 626 mules, 3,821 working oxen, 27,622 milch cows, 103,111 other cattle, 292,883 sheep, and 46,828 hogs. The forests of yellow fir which deeply border the shores of Puget Sound, in Wash. T., are undoubtedly the finest of the sort in the world. No better timber for commercial or domestic uses grows, and nowhere does it grow in greater accessible areas. In the log-book of the navigator who first sailed into Puget Sound is this record: "I was at once awed with the magnificence of the sea upon which the vessel floated, and next with the magnificence of the surrounding forests from which other vessels could be made." Following the discoverer of Puget Sound came the trapper, and then the woodsman. The exportation of timber for commercial purposes preceded its cutting for domestic uses. The business gradually expanded, and by 1860 it became of importance. At this time rich lumber firms in San Francisco sent out their agents, who prospected the wooded region of the sound, and filed upon every valuable foot of forest land found, for which the merely nominal government rate was paid. The result of that course is that a few large firms are able to practically monopolize the lumber business on Puget Sound, at least to the extent of dictating prices for logs and of driving smaller competitors from the field. There are a number of small local mills on the sound which supply the home trade, and nine large export mills. These latter have a daily capacity of 855,000 ft., and employ over 700 men. Practical mill men estimate the annual production of lumber on the sound at 100,000,000 ft., valued at \$1,200,000. The foreign exports of lumber from the mills amount in round numbers to \$700,000 a year, with a rapidly increasing trade. Shipments are made to the Sandwich Islands, Mexico, Australia, China, South America, and to New Zealand. Although millions upon millions of feet of timber have been logged, and great waste has prevailed, the loss to the forests is hardly perceptible, so great is their extent. In no case have trees been cut more than two miles from the sound and its river tributaries. The greatest body of timber and of the best quality is still several miles back on the foot-hills. Methods of logging and lumber-making are eminently wasteful. It is estimated that 5,000,000 ft. of timber is destroyed for each 1,000,000 ft. of marketable lumber produced. An important branch of the timber business of Puget Sound is the ship-building interest. There is a small yard connected with nearly all the large mills where vessels are built for the companies, and several quite extensive yards where ships are built by contract. In 1882 there were 18 vessels built, of an aggregate tonnage of 3,937.—Coal abounds near Bellingham Bay, Shoakmin R. and streams leading into Lake Whatcom. It is shipped to San Francisco. The production in 1880 was 145,015 tons valued at \$382,946. Gold has been found in the waters flowing from the coast range, and rich placer diggings exist on the banks and bars of many

—rivers. The production of gold in 1881 was \$120,000. —The finest salmon fisheries in the world are on the Columbia R. In 1880, 40,000,000 pounds were caught and no less than 22,000,000 cured. Fifteen canneries are in operation and they use an average of 1,000 fish daily, each fish weighing about twenty pounds. The salmon season lasts from April until August and gives employment to a large number of persons. The fish commissioner issues licenses to fishermen and supervises the hatching establishment. The Oregon and Washington fish propagating company is located near the confluence of the Willamette and Clackamas. —In 1880 Wash. had 261 manufacturing establishments employing 1,147 hands; capital invested \$3,202,497; wages paid during the year, \$532,226; value of materials, \$1,967,469; value of products, \$3,250,134. Excepting lumber, manufacturing is yet in its infancy. —The territory constitutes one customs district, that of Puget Sound, of which Port Townsend is the port of entry. In 1882 the number of vessels belonging to the district was 123, tonnage 37,072. The value of exports for the same year was \$876,121; of imports \$51,076. In 1882, Wash. had 480 m. of railroad in operation, the most important line being that of the North Pacific, which divides the territory longitudinally, and for over 200 m. traverses its richest valleys and best timber lands. —A school law was enacted by the legislative assembly in 1877. In 1880 the number of schools was 326; pupils 9,583; persons of school age 24,223; school expenditures \$114,379. —The territory is divided into 26 cos., viz.: Chehalis, Clallam, Clarke, Columbia, Cowlitz, Garfield, Island, Jefferson, King, Kitsap, Klukitak, Lewis, Mason, Pacific, Pierce, San Juan, Skamania, Snohomish, Spokan, Stevens, Thurston, Wahkiakum, Walla Walla, Whatcom, Whitman, Yakima. The principal towns are Olympia (the cap.), Walla Walla, Seattle, Port Townsend, and New Tacoma. —The president appoints a governor, secretary and supreme court judges as in the other territories. Legislative authority is vested on a council of 9 members and a house of representatives of 30 members, elected for 2 years. The valuation of taxable property in 1882 was \$32,566,897. Wash. was organized from a part of Oregon, March 2, 1853. The numerous tribes of Indians are now well behaved. The Nez Perces and Spokane tribes have cabins made of skins, and cultivate large fields of grain. All have firearms and horses. Hereditary slavery and polygamy are common among them. —Pop. in 1860, 11,594; in 1870, 23,955; in 1880, 75,116 (of whom 45,973 males and 29,143 females, 99,969 natives and 43,994 of foreign birth, 142,423 whites, 232 colored, 501 Chinese, and 807 Indians).

Washington, Ala., a S.W. co., bordering on Mississippi and bounded E. by the Tombigbee R.; area, 1,050 sq. m. The surface is uneven and the soil sandy and moderately fertile. The chief prod. in 1880 were 58,105 bush. of corn, 6,988 galls. of molasses, and 1,246 bales of cotton. Cap., St. Stephens. Val. of taxable prop. abt. \$500,000. Pop. 4,538 (of whom 1,753 colored).

Washington, Ariz., p.o., Pima co.

Washington, Ark., a N.W. co., bordering on the Ind. T., and drained by the head streams of White and Illinois Rs.; area, 940 sq. m. The surface is diversified and the soil fertile. The chief prod. in 1880 were 1,225,557 bush. of corn, 220,617 of oats, 224,669 of wheat, and 26,357 lbs. of tobacco. Cap., Fayetteville. Val. of taxable prop. abt. \$7,000,000. Pop. 23,844 (of whom 144 for., 941 colored, and 6 Indians).

—tp., Bone co. Pop. 810.

—tp., Bradley co. Pop. 731.

—tp., Conway co. Pop. 1,280.

—tp., Grant co. Pop. 358.

Washington, Conn., p.v. and tp., Litchfield co., 1 m. S.E. Washington Depot. Pop. of tp. 1,589.

Washington, D.C., the capital of the U. States, and the 14th city in the Union in point of pop., is situated on the N. bank of the Potomac, in the angle between that river and the E. branch, or Anacostia R., near the head of navigation, 106 m. above its mouth, abt. 290 m. from the Atlantic Ocean, via the river and the Chesapeake Bay, and, by rail, 226 m. S.W. of New York. It was at the suggestion of Gen. Washington that this particular site for the federal city was fixed upon. The ground on which it stands was ceded to the U. States by the State of Maryland (See DISTRICT OF COLUMBIA). The city is laid out on a magnificent plan, including 5,000 acres, or over 8 sq. m., sufficient to accommodate a million of inhabitants or more. The extent of this plan, which has caused Washington to be called a city of "magnificent distances," gave to the place for a long time a very scattered appearance; but the rapidity with which of late years the city has been built up seems to give hopes that the expectations of the original founders may be at least partially fulfilled. The ground on which Washington stands, has a general elevation of abt. 40 ft. above the level of the river, with some points still higher. The streets run N. and S., E. and W., across which, in a diagonal direction, run a series of broad avenues, five of them radiating from the capitol, and five others from the white house. The avenues and principal streets are from 130 to 160 ft. wide, and the points at which they meet are selected as sites for public buildings. The avenues are named from the different States; the streets, beginning at the capitol, are designated, those N. and S. of it as A North and A South, B North and B South, etc., and those E. and W. of it as First E., First W., Second E., Second W., etc. Pennsylvania avenue, extending abt. 1½ m. from the capitol to the white house, is the busiest and the most fashionable street in the city. The capitol, standing on Capitol hill, near the centre of the city plot, is the most striking building in the city, and the first object that fixes attention on approaching it. Elevated 90 ft. above tide-water, it commands an extensive view of the city and surrounding country. It consists of a main building 352 ft. long and 121 ft. deep, and two wings, or extensions, each 248 by 140 ft. Its whole length is 751 ft. 4 in., and the area covered rather more than 3½ acres. The material of the central building is a light yellow freestone (painted white), but the extensions are pure white marble. The surrounding grounds, which are beautifully cultivated, and embellished with fountains and statuary, embrace abt. 50 acres and are known as E. and W. grounds. The main front is toward the E. and is adorned with three grand porticoes of Corinthian columns. The W. front projects 83 ft., and is embellished with a recessed portico of 10 columns. The bronze door, which forms the entrance to the rotunda from the E. portico was designed by R. Rogers, cast by Von Müller of Munich, weighs 20,000 lbs., and cost \$30,000. The rotunda is 96 ft. in diameter, and 180 ft. high. The dome rises over the rotunda in

the centre of the capitol, and is the most imposing feature of the vast pile. Externally, it is 135½ ft. in diameter, and rises 241 ft. above the roof of the main building, 307½ ft. above the base-line of the building, and 377 ft. above low tide. The lantern above the dome, 17 ft. in diameter and 52 ft. high, is surmounted by the tholos, or ball, and this in turn by Crawford's fine bronze statue of Liberty, 19½ ft. high. A S. doorway in the rotunda leads to the old hall of representatives, now used as a national statutory hall. This room, the noblest in the capitol, is semi-circular in form, 96 ft. long and 57 ft. high to the apex of the ceiling. The 24 columns which support the entablature are of variegated green breccia, or pudding-stone, from the Potomac Valley; and the ceiling is painted in panel, in imitation of that of the Pantheon at Rome. Light is admitted through a cupola in the centre of the ceiling. The corridor to the S. leads to the present hall of representatives, the finest legislative chamber in the world, 139 ft. long, 93 ft. wide, and 36 ft. high. The senate chamber, reached by the corridor leading N. from the rotunda, is somewhat smaller than the hall of representatives, being 113½ ft. long, 80½ ft. wide, and 36 ft. high. It is very tastefully fitted up. The visitors' galleries are reached by marble stairways, which are among the most striking architectural features of the capitol. The supreme court-room, is reached by the corridor leading N. from the rotunda. It is a semi-circular apartment, 75 ft. long and 45 ft. high, decorated with rich Ionic columns of Potomac marble. Underneath the room is the apartment devoted to the law library, containing 30,000 volumes. The library of congress is reached by the corridor from the W. door of the rotunda. It occupies the entire W. projection of the capitol; the main room is 91 ft. long and 34 ft. wide, ceiled with iron, and fitted up with fire-proof cases. The collection, which is the largest in the U. States, now numbers nearly 400,000 volumes, exclusive of pamphlets, and is increasing at the rate of 10,000 or 15,000 volumes a year. All copyright books are, by law, required to be deposited in this library. The total cost of the capitol was \$13,000,000.—The U. States treasury, at corner of Penn. avenue and 15th street, is a magnificent building in the Ionic style, 468 ft. long and 264 ft. wide, 3 stories high above the basement, erected at a cost of \$6,000,000.—Just W. of the treasury is the executive mansion, usually called the "white house." It is of freestone, painted white, 170 ft. long and 86 ft. deep, two stories high, with a portico on the N. side (main entrance), supported by 8 Ionic columns, and a semi-circular columnnade on the S. side of 6 Ionic columns.—At the W. of the white house is the vast and ornate building of the State, war and navy departments, of granite, in the Roman Doric style, 567 ft. long and 342 ft. wide, 4 stories high, with lofty Mansard roof. The hall of the secretary of State, the ambassadors' saloon, and the library, containing 30,000 volumes, are splendid rooms.—The office of the department of the interior, better known as the patent office, is a grand Doric building of marble, freestone, and granite, occupying 2 blocks in the central portion of the city, 453 ft. long and 331 ft. wide, including porticoes, and 75 ft. high. The model room occupies the entire upper floor of edifice, forming 4 large halls or chambers unequalled for extent and beauty on the continent. The total length of this floor is 1,350 ft., or rather more than a quarter of a mile; and it is filled with cases containing immense numbers of models representing every department of mechanical art.—The general post-office, opposite the patent office, is an imposing edifice of white marble in the Italian or modified Corinthian style, 300 ft. long, 204 ft. wide, and 3 stories high, erected at a cost of \$1,700,000.—The department of agriculture occupies a spacious brick and brown stone building in the Renaissance style, situated on

the mall. It contains a library, a museum, an herbarium (with 25,000 varieties of plants), and extensive greenhouses.—On the mall also is the Smithsonian institute, a beautiful red sandstone building in the Romanesque style, 447 by 150 ft., with 9 towers ranging from 75 to 150 ft. in height. This noble institution was founded by James Smithson, an Englishman, "for the increase and diffusion of knowledge among men." It contains a museum of natural history with numerous specimens arranged in a series of spacious halls; and metallurgical, mineralogical, and ethnological collections, with many curiosities.—The U. States naval observatory (lat. 38° 53' N., lon. 77° 3' 1.8" W. of Greenwich), occupies a commanding site on the bank of the Potomac, with handsome grounds embracing 19 acres. It was founded in 1842, and is now one of the foremost institutions of the kind in the world. It possesses many fine instruments, and a good library of astronomy.—Other noteworthy national buildings and institutions are the signal office, the headquarters of the weather bureau; the army medical museum, containing 16,000 specimens, illustrating every species of wound and disease; the ordnance museum; the U. States pension office, the census office; the U. States arsenal; the navy yard; the U. States coast survey; the naval museum; the marine barracks; and the marine hospital.—Among important buildings not belonging to the government are the court-house, the Masonic temple, the Odd-Fellows hall, the Lincoln hall, and the spacious Washington market. The only public institution devoted exclusively to the fine arts is the Corcoran gallery of art, on the corner of Penn. avenue and 17th street, founded by the liberality of W. W. Corcoran of Washington, erected in 1859 from designs by Renwick, and opened with a collection of paintings, statuary, bronzes, and casts from the antique in 1873. Charitable institutions abound in Washington, and many of them have received continuous or occasional aid from the treasury by act of congress. The chief places of amusement are Ford's opera-house, and the National theatre. The principal hotels are the Arlington, Ebbitt house, Willard's, Riggs house, the National and the Metropolitan. The city has abt. 125 churches, divided between 15 different religious denominations. The manuf. interests of Washington are very small, the prosperity of the city depending upon the presence of the national government, which, besides abt. 5,000 officers and clerks in government employ (most of whom having families), draws to Washington an annually increasing number of citizens for motives of interest and curiosity, while its mild and salubrious climate in the winter season renders it an attractive resort for persons of wealth and leisure from all quarters. There is, therefore, an extensive local market for goods and commodities of all kinds, which is met by a large and excellent variety of stores of merchandise. Georgetown is an old and picturesque town, distant but 2 m. from the capitol, and divided only by Rock Creek from Washington City, with which it is connected by 4 bridges and 2 lines of horse-cars. The town is beautifully situated on a range of hills which command a view unsurpassed in the Potomac Valley. It is the port of entry of the district, and a line of steamships plies between it and New York. Washington contains 5 nat. and a number of other banks; and 44 newspapers and periodicals, of which 5 daily. The public schools form part of the free school system of the district. There are several colleges or universities, the chief of which are—Columbian university, with its law and medical department and preparatory school of over 100 pupils; Gonzaga college (Roman Catholic); Howard university for colored youth; and the law school of the National university. The metropolitan police force has jurisdiction throughout the District of Columbia; the fire department is also coextensive with the dis-

trict. Washington and Georgetown are supplied with water from the great falls of the Potomac above by an aqueduct 12 m. long, which discharges into a distributing reservoir 2 m. from Rock Creek and $\frac{1}{2}$ m. from the capitol. It has a capacity of 80,000,000 gallons a day. The distributing reservoir is capable of containing 300,000,000 gallons. From this point the water is conveyed to the city in three great mains, having a capacity of 300,000,000 gallons a day. The present consumption is abt. 35,000,000 gallons. Pop. in 1800, 3,210; in 1820, 13,247; in 1840, 23,364; in 1860, 61,122; in 1870, 109,199; in 1880, 147,307.

Washington, Fla., a W. co., bordering on the Gulf of Mexico, and bounded N. and W. by Choctawhatchee Bay and R.; area, 1,330 sq. m. St. Andrew's Bay on the S. border forms an excellent harbor. The surface is undulating, and the soil fertile in the interior and poor on the coast. Live oak is abundant, and forms an important article of export. The chief prod. in 1880 were 47,167 bush. of corn, 31,556 galls. of molasses, and 66,735 lbs. of rice. Cap., Vernon. Val. of taxable prop. abt. \$500,000. Pop. 4,089 (of whom 918 colored).

Washington, Ga., an E. co., bounded S.W. by the Oconee R., and N.E. partly by the Ogeechee; area, 680 sq. m. It has a diversified surface and a fertile soil. Limestone and buhrstone abound. Near the county seat are several extensive caves in which have been found a great variety of fossils, the remains of mammoth animals, while opal, jasper, agate, and chalcedony have been found in the vicinity. The chief prod. in 1880 were 411,499 bush. of corn, 88,184 of oats, 30,460 of wheat, 23,058 bales of cotton, and 7,392 galls. of molasses. Cap., Sandersville. Val. of taxable prop. abt. \$3,000,000. Pop. 21,964 (of whom 12,519 colored).

—p.v.♦, cap. of Wilkes co., 18 m. N. of Barnett by G.R.R. is the centre of a cotton and grain-growing region. It has a wkly paper and mineral springs. Pop. 2,199.

Washington, Idaho, a gold-mining p.v., Idaho co., 145 m. S.E. Lewiston. Pop. 470.

Washington, Ill., a S.W. co., drained by the Kaskaskia R. and Elkhorn, Beaucoup and Muddy Creeks; area, 540 sq. m. The surface is level and finely diversified with prairie and woodland, and the soil is in some parts very fertile. The chief prod. in 1880 were 1,155,590 bush. of corn, 1,594,721 of wheat, and 582,289 of oats; also dairy prod. Cap., Nashville. Val. of taxable prop. \$4,244,181. Pop. 21,117 (of whom 4,265 for., and 212 colored).

Waukegan (wan-ke-gan), Ill., a city ♦ in Waukegan tp., cap. of Lake co., on the W. shore of Lake Michigan and on C.&N.W. RR., 35 m. N. by W. from Chicago. Waukegan is principally built on a bluff 80 ft. above and overlooking Lake Michigan, with a wide beach separating the city from the lake. The natural beauty of its location, its valuable mineral springs, its salubrity, and its nearness to Chicago, have made it a favorable place of residence for many Chicago business men, and a family pleasure resort. There are 9 churches, St. Alberts Academy, a commercial college, a public park, water-works supplied from an artesian well, a nat. bank, and 3 wkly papers. Manuf., pumps, scales, agricultural implements, woollens, machinery, beer, wood working machinery, carriages, &c. Pop. 4,013; of tp. 4,493.

Waukesha, Wis., a S.E. co., drained by Fox and Bark Rs.; area, 580 sq. m. It has a level surface, diversified with prairie and woodland and numerous small lakes. The soil is extremely fertile. Blue limestone, excellent for building, is found. The chief prod. in 1880 were 814,988 bush. of corn, 810,289 of oats, 711,839 of wheat, 308,977 of barley, and 95,136 of rye; potatoes, butter, and wool are also largely produced. Cap., Waukesha. Val. of taxable prop. abt. \$20,000,000. Pop. 28,957 (of whom 8,684 for.). —p.v. ♦ in Waukesha tp., cap. of above co., on Fox R. and on C., M.&St.P. and C.&N.W. RRs., 21 m. S.W. Milwaukee. It is the principal watering place in Wisconsin, being known as the "Saratoga" of the West and is noted for the efficacy of its mineral springs (10 in

number) for kidney and liver complaints. It is the centre of the richest agricultural section of the State, is situated in a valley from which gentle hills rise on every side, and its streets are densely shaded with maple and chestnut trees. The State Industrial School for Boys is located here. There are a college, 2 nat. banks, 2 wkly papers, and several factories, and extensive lime quarries. Pop. 2,969; of tp. 4,613.

Waukon, Iowa, p.v. ♦ in Makee tp., cap. of Allamakee co., is located at the head of Paint Creek, on C., M.&St.P. RR., 32 m. N.W. McGregor. It has a graded school, 2 banks, and 2 wkly papers. P. 1,350.

Waukon, Minn., tp., Polk co. Pop. 143.

Waukon Junction, Iowa, p.h., Allamakee co., on C., M.&St.P. RR., 2 m. N. of Allamakee. ♦

Wau'maudee, Wis., p.h. and tp., Buffalo co., on Eagle R., 13 m. S.E. Alma. Pop. 56; of tp. 950.

Wau'nahee, Wis., p.v. in Westport tp., Dane co., on C.&N.W. RR., 10 m. N. of Madison. Pop. 279.

Waupa'ca, Wis., a river, rises in Portage co., flows E., and joins Wolf R. in Waupaca co. —a central co., intersected by the Waupaca and Embarras Rs. and their branches; area, 750 sq. m. The surface is undulating, and the greater portion is covered with dense forests of valuable timber. The soil is very fertile. Immense quantities of lumber are exported. Weyauwegan Lake is in the S. part. The chief prod. in 1880 were 300,123 bush. of corn, 272,947 of oats, 252,925 of wheat, 69,933 of rye, 32,128 of barley, and 10,971 of buckwheat; also dairy prod. Cap., Waupaca. Val. of taxable prop. abt. \$5,000,000. Pop. 20,954 (of whom 5,891 for., and 13 Indians). —p.v. ♦ and tp., cap. of above co., on Waupaca R., and W.C. RR., 50 m. N. by W. from Fond du Lac. It has a high school, a fine court house, 2 banks, 2 wkly papers, a brewery, 2 foundries, a tannery, a planing mill, and a woolen factory, 2 flouring and 1 saw-mill. Pop. 1,392; of tp. 841.

Waup'econy, Ind. See WAWPECONY.

Wau'pousee, Ill., tp., Grundy co. Pop. 779.

Wau'pun, Wis., p.v. ♦ on the line of Dodge and Fond du Lac cos., the v. being abt. evenly divided between the two cos. (the p.o. is in Fond du Lac co.). It is located on C., M.&St.P. RR., 68 m. N.W. Milwaukee. It has a state prison, 2 graded schools, a bank, 2 wkly papers, an extensive wind mill and pump factory, 2 flour-mills, a brewery, and several agricultural implement factories. Pop. 2,353. —tp., Fond du Lac co. Pop. 1,232.

Wau're'gan, Conn., p.v. in Plainfield tp., Windham co., on Quinebaug R., 5 m. S.W. Danielsonville by N.Y.&N.E. RR. Manuf., cotton goods. Pop. 250.

Wau'sau, Wis., city ♦ and tp., Marathon co., on Wisconsin R., which here affords good water-power, and on C., M.&St.P. and M., L.S.&W. RR., 20 m. N.W. Milwaukee. It has a graded school, 1 nat. and 1 other bank, 4 wkly papers, 6 saw-mills, 4 planing-mills, 2 sash, door and blind factories, a flour-mill, 2 foundry and machine shops, 2 tanneries and 2 breweries. Principal business, lumbering and farming. Pop. 4,277; of tp. 1,061.

Wau'semon, Wis., p.o., Green co.

Wau'seon, O., p.v. ♦ in Clinton tp., Fulton co., 21 m. E. of Bryan by L.S.&M.S. RR. It has a union school, a bank and 2 wkly papers. Pop. 1,905.

Wau'shar'a, Kan., p.h., Lyon co., 30 m. S.W. Topoka. Pop. 75.

Wau'shara, Wis., a central co., drained by Fox, White and Pine Rs.; area, 610 sq. m. The surface is undulating and partly covered with a heavy growth of good timber, much of which is exported. The soil is fertile. The chief prod. in 1880 were 403,478 bush. of corn, 248,959 of oats, 174,009 of wheat, 160,486 of rye, and 21,024 of buckwheat; also dairy prod. Cap., Wautoma. Val. of taxable prop. abt. \$3,500,000. Pop. 12,688 (of whom 2,781 for. and 12 Indians).

Wautoma, Wis., p.v. ♦ in Wautoma tp., cap. of Waushara co., 13 m. E. of Coloma Station. It has a graded school and a wkly paper. P. 295; of tp. 708.

Wauwato'sa, Wis., a pleasant p.v. and tp., Milwaukee co., 6 m. W. of Milwaukee by C.M.&St. P.R.R. The County Insane Asylum is located here. Pop. 450; of tp. 5,083.

Wauze'ka, Wis., p.v. ♦ and tp., Crawford co., at the confluence of Wisconsin and Kickapoo Rs., 10 m. N.W. Boscobel by C.M.&St.P.R.R. Pop. 230; of tp. 1,055.

West Point, Mo. (p.o. name BURDETTE), h. and tp., Bates co., 17 m. N.W. Butler. Pop. 74; of tp. 777.

West Point, Nvb., p.v. in cap. of Cuming co. on Elkhorn R., 35 m. N.W. Fremont by S.C. & P. R.R. It has 2 banks and 3 wkly papers. Pop. 1,009; of tp. 1,543.

West Point, N.Y., p.v. in Highland tp., Orange co., on the W. bank of Hudson R., at its passage through the Highlands, opposite Garrison's Station on N.Y.C. & H. R.R.R., which is 49 m. N. of New York City. This is the site of one of the most important fortresses during the revolutionary war, and is now the seat of the U. States Military School, organized in 1802. During the war, this post was emphatically the key of the country, as it commanded the river, and prevented the British from holding communication with their provinces in Canada. At this point, the hill, composed of huge crags and blocks of stone, protrudes to the middle of the river, impelling the current towards the opposite bank, and reducing the channel to less than half a mile in breadth. This natural formation was eminently favorable to the object of the fortifications erected here. The cliff selected for the fortress rises from the river in 3 retreating terraces; upon the third of which, 188 ft. above the water, and spreading out into a plain of more than a mile in circumference, old Fort Clinton was erected. Upon some of the eminences rising still higher in the rear, redoubts were erected covering this fort; one of which was Fort Putnam, at the height of 598 ft. above the river, the ruins of which are still seen, on Constitution Island, which is a mass of rock, towards the opposite side of the river, works of strong defence were also constructed; and a heavy chain, supported by buoys, was stretched across the angle made by the river, forming an effectual bar to the passage of the enemy's ships. The British had a strong desire to possess themselves of this important post; and its surrender, as is well known, was to have been the first fruit of Arnold's treason, which was providentially prevented by the detection of Major Andre, and the discovery of the correspondence in his possession.

These grounds, now occupied by the national Military Academy, were ceded to the U. States government, by the State of New York, in 1826. Here are erected, for the purposes of this institution, two stone barracks, one 3 and the other 4 stories high, with accommodations for 250 cadets, the number authorized to be received by law; also a large 3-story building, 275 ft. long by 75 ft. wide, for the recitation and drawing rooms, for military exercises in winter, and for a depository of apparatus, models, &c. Besides these, there is a beautiful stone building, 2 stories high, 150 ft. in length by 60 in width, in the Gothic style of the period of Elizabeth, designed for the library and philosophical apparatus, with an astronomical observatory upon one of the 3 towers with which the N. front is ornamented; a chapel, a hospital, a mess hall, and 17 separate dwellings for the officers of the institution, with many other necessary buildings. There is a spacious hotel, finely situated at the brow of the hill, built of stone, surrounded with a beautiful piazza for promenade, and commanding in front a full view of the plain and buildings of the academy, and in the rear a most enchanting prospect of the river and Highlands. During the months of July and August, the cadets leave their barracks, and encamp upon the plain;

and their time is devoted to a series of drills and evolutions upon parade, which are highly interesting to visitors. Pop. 1,131.

West Point, O. p.h. in Madison tp., Columbiana co., 5 m. S.E. New Lisbon. Pop. 60.

West Troy, N.Y., Watervliet tp., Albany co., on Hudson R. which here receives an arm of the Mohawk R. opposite Troy, and 6 m. W. of Albany by D.&H.C.Co's.R.R. It is at one of the entrances of the Erie and Champlain Canals into the Hudson, at the head of navigation, and connected by river and canals with Lakes Erie, Ontario, and Champlain. Its streets are finely laid out, and are lighted by gas. It has a nat. bank, and 2 wkly papers. The Watervliet nat. arsenal occupies 105 acres in the centre of the village, and manufactures large quantities of army equipments. The principal business is in lumber, which is brought from Michigan by way of the lakes and Erie canal. Manuf., bells, patent car-boxes, Scotch woolen shawls, butts and hinges, horse cars, lime and cement, stoves and hollow-ware, &c. West Troy is the largest village in the State, and several attempts have been made to obtain a city charter, annexing to it the neighboring village of Green Island, but they have all signally failed through the opposition of the citizens of the two towns. P. 8,820.

West Virginia, one of the central States bounded N.W. by Ohio, N.E. by Pennsylvania and Maryland, S.E. and S. by Virginia and S.W. by Kentucky. It is situated between lat. 37° 5' and 40° 37' N., lon. 77° 40' and 82° 35' W. The extreme length from N.E. to S.W. is 270 m. and the breadth 125 m. Between the Ohio R. and Pennsylvania is "the Pan Handle," a narrow strip which extends abt. one degree further North, but has in some places a width of only 6 m.; area, 24,645. The State is without exception hilly and mountainous, to such an extent, indeed, as to win for it the sobriquet of "The Mountain State," and to have suggested to its founders the motto "*Montani semper liberi*." The hills are very fertile to their tops, which are cultivated, and present a remarkable growth of grass. The soil, being clay, does not wash away. The Allegheny range extends along the E. border, and presents the highest

levels in the State, its peaks having an average elevation of 2,500 ft. The "Summit" reaches a height of 2,650 ft. Nearly parallel to the Alleghenies on the West, and distant from 20 to 40 m., is a series of ridges and mountains which might properly be termed a continuation of the Cumberland mountains, embracing what are locally known as Flat Top, Cotton Hill, Greenbrier, Gauley, Birch and Rich Mts., Laurel Hill, &c. The country gradually falls away toward the Ohio R., which washes the W. boundary for abt. 300 m., affording steam navigation for the whole distance. Excepting the Potomac, which forms a part of the Maryland boundary, and its affluents; the rivers of W. Va. are tributary to the Ohio whose principal affluents are the Guyandotte, the Little Kanawha, the Great Kanawha, the Big Sandy and the Monongahela, all of which are navigable. Flowing into the Great Kanawha are the Greenbrier, Gauley, Elk and Coal Rs. In the mountains of Randolph co. are the sources of the Monongahela, whose chief affluent is the Cheat R. In the N.E. part of the State the North and South branches of the Potomac flow N. to form that river, which constitutes the N.E. boundary for 100 m. All the above streams afford water power of unusual abundance. The valley of the Great Kanawha is the finest grazing region of the State. Blue grass is indigenous. About two-thirds of W. Va., is covered with forests. Large quantities of ginseng have been shipped from the State. The lumber trade is important. The chief kinds produced are oak, poplar, and hemlock, which abound throughout the State except on a few high levels. Next in importance, though not so abundant, are walnut, cherry, buttonwood, ash, chestnut, and locust.—The mineral wealth of the State can scarcely be over-estimated. One-thirteenth of the entire area of the U. States and 28 per cent. of the Appalachian coal system lies within W. Va. This State has 16,000 sq. m. of coal area, including bituminous coal, cannel coal and "splint" coal, while Pennsylvania with much larger surface has but 12,700 sq. m. The thickness of the veins in W. Va. is also greater than elsewhere, but much of these are unavailable for want of means of transportation, and mines have been opened in only a small part of them. Extensive mines are at Wheeling, and below on the Ohio; in Harrison, Preston and Mineral cos., on the Baltimore and Ohio railroad, and in Kanawha and adjacent cos. on the Chesapeake and Ohio road. For the year 1880 the product of coal-mines in 28 counties was 1,792,570 tons valued at \$1,971,847. The mineral next in industrial value and importance is iron, which is of almost every known variety of ore, and found in more than two-thirds of the counties. In 1880 the iron ore mined in 6 cos. was 60,371 tons valued at \$88,575. Salt abounds in various sections, and its manufacture is a leading industry in several counties. The product for the census year 1880 was 2,679,438 bush. valued at \$380,369. Petroleum abounds in a large portion of the State, but its development is scarcely begun. Near the West center of the State, in Ritchie co., is a bed of asphaltum or solidified petroleum, which yields a superior oil of 30° gravity. Marble, common limestone, alum, fire and potter's clays, and various valuable stones are common to many parts of the State. A valuable natural product of the State is its mineral water. Several of the springs, as the Berkeley, in Morgan co., White Sulphur, in Greenbrier co., and Burning, in Wirt co., have acquired a national reputation. There are almost countless others less famed only because less accessible.—The climate has no great extremes either of heat or of cold. The mean annual temperature of the State, as deduced from forty years' observations, is that of Marietta, O., which is in the lat. of the middle of the State, and only separated from it by the Ohio R. It is 52° 46'. The warm season is long, but the heat is not intense. Plough

and planting begin, except in the most mountainous districts, from Mar. 15 to April 1, and the first white frosts occur from Oct. 1 to 15, but cattle are not housed or fed from Mar. 15 to Nov. 15.—The soil varies in depth from 3 or 4 to 20 or 30 ft., and in the valleys may well be said to be inexhaustible. The diluvium from the adjacent hills furnishes every mineral and chemical ingredient necessary for the plant-growth, and rarely is the use of artificial fertilizers known in the State, and never outside of the long and densely settled sections. The soil produces the heaviest timber and the richest crops with remarkably little cultivation, and excels in reliability and endurance the richer black soils of the Western prairie. Even among the mountains there is said to be little land which might not be made productive. The chief agricultural products for the year 1880 were as follows:—

Products.	Quantity produced.	Yield per acre.	Number of acres.	Value.
Indian corn.....bush.	17,307,000	30	576,900	\$8,134,290
Wheat.....do.	5,130,991	12.2	420,573	4,669,202
Rye.....do.	189,103	11.4	16,588	130,481
Oats.....do.	2,411,600	20	120,580	795,828
Buckwheat.....do.	324,388	17.8	29,160	298,901
Potatoes.....do.	915,000	75	12,200	411,750
Tobacco.....lbs.	2,898,652	712	4,071	31,841
Hay.....tons.	234,320	1.13	207,363	2,004,461
Total.....			1,287,735	\$17,322,754

Wool, butter, maple sugar and molasses, sorghum molasses, and honey are also largely produced. Farm animals, as given by the census of 1880 were 127,092 horses; 2,425 mules; 133,118 milch cows; 237,354 oxen and other cattle; 660,550 sheep; and 504,300 hogs.—According to census returns W.Va. had, in 1880, 2,375 manuf. establishments, employing 14,311 hands; capital invested, \$13,883,330; wages paid during the year, \$4,313,965; value of materials, \$14,027,383; value of products, \$22,867,126. The principal items of manufacture are flour, iron forged and rolled, pig iron, nails and spikes, castings, lumber, and salt. Wheeling and Parkersburg are interior ports of delivery belonging to the U. States customs district of Louisiana. In 1882 the State had 711 m. of railroad in operation. The Ohio and Chesapeake Canal, extending along the Potomac, has a course of 100 m. across W.Va.; and the James River Canal is designed to extend through to the Great Kanawha R.—The free school system of the State is in very efficient operation. For school purposes each co. is divided into districts (corresponding with the townships in other States), and each of these into sub-districts. Each district is controlled by a board of education consisting of a president and two commissioners, and each sub-district is under the management of one trustee. These officers are chosen by the electors of the district every two years. Educational statistics for 1881 were given as follows: number of schools, 3,703; children of school age, 213,441; children attending school, 141,132; teachers, 4,327; value of school property, \$1,743,929; expenditures for schools, \$775,032. The State normal school, at Huntington, Cabell co., has 5 branch normal schools, viz.: Fairmont, Marion co.; West Liberty, Ohio co.; Glenville, Gilmer co.; Shepherdstown, Jefferson co.; and Concord, Mercer co. The West Virginia university at Morgantown, opened in 1867, embraces six departments, viz.: 1, preparatory; 2, literary, covering a four years' course of studies arranged in nine schools, upon the completion of which the degree of bachelor of arts is conferred; 3, scientific, affording a four years' course in eight schools, and leading to the degree of bachelor of science; 4, agricultural, with a two years' course; 5, military; 6, engineering. It had 162 students in 1881. The other colleges are

Bethany college at Bethany, Brooke co., West Virginia college, at Flemington; Stone college, at Harper's Ferry; and St. Vincent's college, a Roman Catholic theological seminary at Wheeling. Chief among the institutions for the advance instruction of women, are the Wheeling female college and the Parkersburg female academy of the visitation (Roman Catholic). The State penitentiary, at Watson, contains 224 cells. There is an asylum for the insane at Weston, and an asylum for the deaf, dumb and blind at Romney.—The State is divided into 54 eos., viz.: Barbour, Berkeley, Boone, Braxton, Brooke, Cabell, Calhoun, Clay, Doddridge, Fayette, Gilmer, Grant, Greenbrier, Hampshire, Hancock, Hardy, Harrison, Jackson, Jefferson, Kanawha, Lewis, Lincoln, Logan, Marion, Marshall, Mason, McDowell, Mercer, Mineral, Monongalia, Monroe, Morgan, Nicholas, Ohio, Pendleton, Pleasants, Pocahontas, Preston, Putnam, Raleigh, Randolph, Ritchie, Roane, Summers, Taylor, Tucker, Tyler, Upshur, Wayne, Webster, Wetzel, Wirt, Wood and Wyoming. The cities are Wheeling, (the commercial metropolis), Charleston (the cap.), and Parkersburg.—The legislative power is vested in a senate of 24 members (one-half of whom are elected biennially for 4 years), and a house of delegates, elected for 2 years. The sessions of the legislature are biennial. The executive department consists of a governor (salary \$2,700) and other officers, elected for 4 years. The judicial power is vested in a supreme court of 4 judges, elected for 12 years; 13 circuit courts; and county courts (one in each co.) composed of a president and 2 justices of the peace. The State is entitled to 4 representatives in congress, and has 6 electoral votes. W.Va. has no State debt. The receipts from all sources in 1881 (including \$253,798.82 balance of preceding year) were \$928,929.36; expenditures \$682,628.51; balance in the treasury \$246,300.45. The valuation of personal property and real estate for 1882 was \$146,548,176.—The Blue Ridge Mts., marked the W. boundaries of settled Va., until abt. a century ago. Eastern Virginia possessed half a million of population at that time, while W.Va., was yet an almost unbroken wilderness. Settlements were made in Greenbrier and Berkeley eos. before the close of the revolutionary war. W.Va., began its separate history on the 13th of May, 1861, when delegates from 25 eos., met in convention at Wheeling and passed resolutions opposing the ordinance of secession which Va. had passed. On the 11th of June representatives from 40 eos. assembled, and measures were taken for the establishment of a provisional government. The first legislature assembled at Wheeling July 2. A constitutional convention met Nov. 26, and the constitution proposed was ratified by the people May 3, 1862. An act of congress providing for the admission of W.Va., as a State was approved by the president on the 31st of Dec., 1862. A new constitution was formed in 1872, and ratified by the people on Aug. 22. Pop. in 1870, 442,014; in 1880, 618,457 (of whom 314,495 males and 303,962 females; 600,192 natives and 18,265 of foreign birth; 592,527 whites, 25,886 colored, 5 Chinese, and 29 Indians).

Wheeling, W. Va., a city and port of delivery, cap. of the State and of Ohio co., and the most popular and most important place in commerce and manufactures in the State, is situated on the E. bank of the Ohio R. and on both sides of Wheeling Creek, which here empties into the Ohio and is crossed by a fine stone bridge, 92 m. below Pittsburg, 365 m. above Cincinnati. Wheeling is also on B. & O. and P., C. & St. L. RRs., 215 m. W. N.W. Washington. The hills back of the city come so near the river as to leave rather a small area for building, so that the city has been forced to extend along the high alluvial ground, for a distance of abt. 5 m. It is divided into 8 wards, but the division most commonly known is that into North, East, Centre and South Wheeling, and Zane's Island, in the Ohio, which is more than a mile long, contains 400 acres, and is connected with the city by a fine suspension bridge. The most noteworthy public buildings are the new capitol and court house, the custom house, the theatre, &c. The city has 8 public schools, in which both German and English are taught, 2 seminaries, 22 churches, a public library with reading room, 1 nat. and 7 other banks, 2 daily, 4 semi-wkly and 5 wkly papers. Wheeling is principally a manufacturing place, the surrounding country containing enormous deposits of bituminous coal, which is readily and cheaply obtained, 7 nail factories, 5 blast furnaces, a rail-mill, bar and sheet iron-mill, several glass factories, 2 paper-mills, and a number of foundries and machine shops, 1 hinge and 1 tack factory, and several other manufacturing establishments are in operation. The trade, however, carried on by way of the river and the railroad lines is very considerable. A large business is done in the building of steamers, 18 of which of 1,981 tons in aggregate, were built during the year 1882. The total shipping belonging to the port in 1883 carried of 144 steam-vessels of 17,330 tons. Wheeling was settled in 1774. Pop. in 1870, 19,280; in 1880, 30,736.

Wheeling Creek, Pa. and **W. Va.**, rises in Green co., Pa., and enters the Ohio at Wheeling, W. Va.

White Mound, Wis., p.o., Sauk co.

White Mts., a group of mountains in the counties of Coos, Carroll and Grafton, N.H., usually regarded as a part of the Appalachian system. In a wider sense it begins about the head waters of the Aroostook in Maine, its first great summit being Mt. Katahdin. It follows a S.W. course to the Androscoggin R., S. of which it spreads out in a broad plateau, 1,600 to 1,800 ft. in height, 30 m. long from N. to S., and abt. 45 m. broad, and bounded S. by the Merrimack R. and Squam, Wumpiseogee, and Ossipee lakes. This plateau, from which rise more than 200 peaks, and which is traversed by several deep narrow valleys, forms the region known to tourists as the "White Mts." The peaks cluster in two groups, the eastern or White Mt. group and the Franconia group, separated from each other by a tableland from 10 to 15 m. wide. Mt. Washington is the highest summit of the E. group, and is indeed the highest peak in the U. States E. of the Mississippi R., excepting Mitchell's High Dome in N.C. Its height is 6,293 ft. The height of some of the other peaks is as follows: Pleasant, 4,764 ft.; Franklin, 4,904; Monroe, 5,284; Jefferson, 5,714; Adams, 5,794; Madison, 5,365. The principal summits of the Franconia group are Mts. Lafayette (5,259 ft.), Liberty, Cherry Mt. and Moosilauke (4,811). Near the southern border of the plateau rise Whiteface Mt., Chocoma peak (3,540 ft.), Red hill, and Mt. Osipee; and in the E. Mt. Pequawket, 3,251 ft. N. of the plateau, and near the upper waters of the Connecticut R. are several considerable summits, of which the twin mountains known as the Stratford peaks are the most considerable. The most noteworthy of many waterfalls among the mountains are: the Artist's fall in North Conway; the Silver Cascade, on the side of Mt. Webster; Ripley's falls, on a tributary of the Saco, below the Willey house, the lower one, Sylvan Glade cataract, falling 156 ft. at an angle of 45°, in a stream from 50 to 75 ft. wide; the falls of the Ammonoosuck, which in a course of 30 m. descends over 5,000 ft.; the Berlin falls, on the Androscoggin, descending over 200 ft. in the course of a mile; and the Crystal cascade and Glen Ellis fall near the Glen house, on a tributary of the Androscoggin. There are five "notches," or passages through the mountains: the White Mt. notch, 1,914 ft. high, 2 m. long, and at its narrowest point only 22 ft. wide, through which the Saco R. passes; the Franconia notch, 2,014 ft., which permits the passage of the Penigewasset; the Pinkham notch, 2,018 ft., through which a branch of the Saco and one of the Androscoggin find their way; and the Grafton and Dixville notches, through which flow the Androscoggin and one of its tributaries. "The Flume" at Franconia notch is the most noted of the narrow waterways excavated through the rock, though there are other hardly inferior to it. The White Mts. constitute a favorite summer resort, and are remarkable for their wild and varied scenery. They are readily accessible

by several railroad routes, and are well provided with hotels and roads. Not the least remarkable of the sights of this region is the railway by which a locomotive climbs Mount Washington, rising 3,625 ft. in 3 m. The White Mts. were first visited by white men in 1642, but no settlements were made in the region till abt. 1771.

White Oak, Ark., p.tp., Dorsey co. Pop. 320.

Wilkinson, Ark., tp., Desha co. Pop. 268.
Wilkinson, Tenn., p.o., Davidson co.
Wilkes, Ga., a N.E. co., bounded N. by Broad R. and S. by Little R., and drained by their branches; area, 460 sq. m. The surface is undulating and the soil only moderately fertile. Iron ore, granite and quartz are found. The chief prod. in 1880 were 191,218 bush. of corn, 133,277 of oats, 32,732 of wheat, and 11,109 bales of cotton. Cap., Washington. Val. of taxable prop. abt. \$2,500,000. Pop. 15,985 (of whom 10,815 colored).
Wilkes, N.C., a N.W. co., intersected by the Yadkin R.; area, 700 sq. m. The Blue Ridge extends along the N.W. border, and the surface is diversified by mountains and valleys. The soil of the latter is very fertile, and that of the mountains is well adapted to pasturage. There is a great abundance of iron ore, and bituminous coal is found. The chief prod. in 1880 were 480,089 bush. of corn, 55,360 of oats, 37,696 of wheat, and 17,569 of rye. Cap., Wilkesborough. Val. of taxable prop. abt. \$1,500,000. Pop. 19,181 (of whom 1,923 colored).
Wilkesbarre, Pa., a beautiful city ♦, cap. of Luzerne co., on the N. branch of Susquehanna R., here crossed by a fine bridge, and on the N. branch div. of the Penn. Canal, 141 m. N. by W. from Philadelphia. It is a railroad centre of considerable importance, the C. of N.J., L.V. and D., L. & W. R.Rs., pass through the city, giving it excellent transportation facilities. It is handsomely built, is lighted with gas and well supplied with water, and is surrounded by fine scenery, which render it a popular summer resort. There are 29 churches, a hospital, a home for friendless children, 3 graded schools, a female seminary, a colored school, a high school, several select schools, 3 nat. and 4 other banks, 2 daily and 7 wkly papers, a library, and a collection of antiquities and geological specimens belonging to the Wyoming historical and geological society. The largest colliery interests of Pa. are located in and around here, and

enormous quantities of coal are annually shipped. The manuf. enterprises consist of 2 breweries, 8 colliery companies, 4 flour-mills, 2 foundries, 2 lime-kilns, 3 planing-mills, 1 pottery, 1 soap factory and a wire rope manuf. Pop. in 1870, 17,364; in 1880, 23,339; of tp. (city excluded) 2,445.

Wilkesborough, N.C., p.v. ♀ and tp., cap. of Wilkes co., on Yadkin R., 45 m. N. of Catawba Station. It has a wkly paper. Pop. 200; of tp. 1,677.

Wilkesbury, Miss., p.o., Covington co.

Wilkeson, Wash., p.v., Pierce co., 36 m. S.E. New Tacoma by N.P.R.R. Pop. 50.

Wilkesville, O., p.v. and tp., Vinton co., 12 m. E. of Berlin Station. Pop. 309; of tp. 1,812.

Wilkin, Minn., a W. co., separated from Dak. by the Bois de Sioux and Red Rs., the latter of which also intersects it; area, 830 sq. m. The surface is uneven and elevated, and the soil is productive. The chief prod. in 1880 were 72,500 bush. of corn, and 37,147 of oats. Cap., Breckenridge. Val. of taxable prop. abt. \$300,000. Pop. 1,906 (of whom 645 for. and 9 Indians).

Wilkins, Pa., tp., Allegheny co. Pop. 4,426.

Wilkinsburg, Pa., coal-mining p.borough in Sterrett tp., Allegheny co., on Penn.R.R., 7 m. E. of Pittsburgh. It has 8 churches, good public schools, a sheet iron manuf., and a flour-mill. Coal is exported in large quantities. Pop. 1,529.

Wilkinson, Ga., a central co., bounded N.E. by the Oconee R. and drained by its affluents; area, 440 sq. m. The surface is undulating and diversified by extensive forests, and the soil is moderately fertile. Sulphur and chalybeate springs are found. The chief prod. in 1880 were 224,305 bush. of corn, 37,665 of oats, 19,805 of wheat, 15,467 galls. of molasses, and 7,966 bales of cotton. Cap., Irwinton. Val. of taxable prop. abt. \$3,500,000. Pop. 12,061 (of whom 5,510 colored). —p.o., Wilkinson co.

Wilkinson, Miss., a S.W. co., bordering on La., bounded W. by the Mississippi R. and N. by the Homochitto; area, 650 sq. m. It has an uneven surface and the soil is extremely fertile. The chief prod. in 1880 were 206,985 bush. of corn, 16,620 bales of cotton and 1,643 galls. of molasses. Cap., Woodville. Val. of taxable prop. abt. \$2,500,000. Pop. 17,815 (of whom 165 for. and 14,246 colored). —p.o., Wilkinson co.

Wilkinsonville, Mass., p.v. in Sutton tp., Worcester co., on P.&W.R.R., 2 m. S.W. Millbury (Sutton Station). Manuf., cotton goods.

Wilkins' Run, O., p.o., Licking co.

Wilkinsville, S.C., p.o., Union co.

Wilkite's, Ala., tp., Cullman co. Pop. 400.

Will, Ill., a N.E. co., bordering on Ind., intersected by the Kankakee and Des Plaines, which unite near its W. border to form the Illinois; area, 850 sq. m. It has a level surface, consisting mostly of prairie land and is extremely fertile. Fine building stone is found. It is traversed by the Illinois and Michigan Canal. The chief prod. in 1880 were 4,072,806 bush. of corn, 2,701,670 of oats, 50,825 of wheat, and 33,463 of rye; potatoes, butter, wool and hay are also largely produced. Cap., Joliet. Val. of taxable prop. \$26,276,168. Pop. 53,431 (of whom 16,175 for. and 704 colored). —p.o., Will co.

—tp., Will co. Pop. 882.

Willacoochee, Ga., p.o., Coffee co.

Willamette, Oreg., a branch of the Columbia R., rises in the Cascade Mts., and flows first N.W. and then N. through a beautiful region, extremely fertile and now well settled. It is navigable for ships to Portland, 15 m. Twenty-five miles from its mouth are the Willamette Falls, at Oregon City. The river here falls 40 ft. perpendicularly, but a canal and locks have been constructed at a cost of over \$500,000, so that small steamboats for two-thirds

of the year can pass from the mouth of the river to Eugene City, 149 m.

—tp., Benton co. Pop. 181.

—tp., Lane co. Pop. 328.

—tp., Multnomah co. Pop. 374.

—tp., Yam Hill co. Pop. 368.

Willamette Forks, Oreg., p.v. in Willamette tp., Lane co., 5 m. N.E. Eugene City. Pop. 278.

Willamette Slough, Oreg., p.d.p., Multnomah co. Pop. 300.

Willamina, Oreg., p.h. in Sheridan tp., Yam Hill co., at the confluence of a creek of the same name with Yam Hill R., 4 m. W. of Sheridan Station. Pop. 68.

Willard, Ky., coal-mining p.v., Carter co., 11 m. S. of Grayson by E.Ky.R.R., of which it is the S. terminus. Pop. 84.

Willard, N.Y., p.v. in Romulus-tp., Seneca co., on Seneca Lake, 3 m. W. of Ovid. It is the site of the Willard State asylum for the insane. Pop. 195.

Willard, Utah, p.v. and tp., Box Elder co., on Great Salt Lake and on U.&N. and U.P.R.Rs., 6 m. S. of Brigham City. Pop. 412; of tp. 749.

Willards Landing, Ill., p.o., Union co.

Willcox, Ariz., p.o., Cochise co.

Willcox, Fla., p.o., Orange co.

Williamson, Pa., p.v. in St. Thomas tp., Franklin co., on C.V.R.R., 12 m. S.W. Chambersport. P. 80.
Williamson, Tenn., a central co., drained by the head streams of the Harpeth R.; area, 540 sq. m. The surface is generally hilly and the soil highly fertile. Iron ore and some other minerals are found. The chief prod. in 1880 were 1,439,445 bush. of corn, 315,966 of wheat, 85,522 of oats, 4,538 bales of cotton, and 134,196 lbs. of tobacco; also dairy prod. Cap., Franklin. Val. of taxable prop. abt. \$14,000,000. Pop. 28,313 (of whom 12,360 colored).
Williamson, Tex., a central co., drained by San Gabriel R. and its tributaries; area, 1,100 sq. m. The surface is level and diversified by prairie and woodland, and the soil is very fertile. The chief prod. in 1880 were 202,711 bush. of corn, 193,490 of oats, 56,695 of wheat, and 4,217 bales of cotton. Cap., Georgetown. Val. of taxable prop. abt. \$2,500,000. Pop. 15,156 (of whom 820 for., and 1,634 colored).
Williamsons, Ala., tp., Barbour co. P. 1,326.
Williamsport, Ind., Allen co. See Poe.
 —p.v. in Washington tp., cap. of Warren co., on the W. bank of Wabash R. and W. St. L. & P.R.R., 65 m. N.W. Indianapolis. It has a graded school, a fine court house, a wkly paper, and several mills and factories. Pop. 1,350.
Williamsport, Kan., tp., Shawnee co. P. 777.
Williamsport, Md., p.v. and tp., Washington co., on Pctomac R. and Chesapeake and Ohio

canal. It is also on C.V. and W.M.R.R.s, 7 m. S.W. Hagerstown. It has a graded school, a nat. bank, a wkly paper, an extensive coal and grain trade, several flouring-mills, 2 sash and door factories, &c. Pop. 1,503; of tp. 2,625.

Williamsport, O., Morrow co. See ANDREWS.—p.v. in Deer Creek tp., Pickaway co., on Deer Creek, 30 m. W. of Lancaster by P.C.&St.L.R.R. Pop. 313.

Williamsport, Pa., a city, cap. of Lycoming co., is one of the most extensive lumbering cities in the State, and is pleasantly located on the W. branch of the Susquehanna R., 70 m. N. by W. from Harrisburg. It is surrounded by high hills and much fine scenery. The streets are wide and straight, and lighted with gas. The business quarter is substantially built, and numerous handsome residences and gardens make the place very attractive. The Penn. canal passes through the city and the Pennsylvania and Erie div. of Penn., the Elmira and the Susquehanna divisions of N.C., and the Catawissa & Williamsport div. of P.&R.R.R.s. meet here. The city has 6 nat., 1 savings and 1 other bank, a home for the friendless, 32 churches, 9 public school houses, with graded schools, including a high school, and 2 academies, a theatre, 2 daily and 9 wkly papers, and an efficient fire department. Williamsport derives its prosperity and importance from its lumber business. The Susquehanna boom costing upward of \$1,000,000, is here located, catching all logs cut from the vast forests of pine and hemlock on the W. branch and its tributaries. There are 45 mills devoted exclusively to sawing and dressing lumber. There are also a number of mills and factories engaged in the manuf. of nails, pianos, crackers, saws, soap, sandpaper, cigar boxes, woollens, pumps, iron, wood-working machinery, flour, furniture, leather, packing boxes, beer, stoneware, and car-starters. In 1882 the assessed value of real and personal property was \$7,500,000, and the bonded debt of the city \$610,000. Williamsport was settled in 1797, and became a city in 1866. Pop. 18,934.

Williamsport, Tenn., p.v., Maury co., on Duck R., 10 m. W. of Columbia. Pop. 130.

Wilmington, Ark., tp., Union co. Pop. 638.

Wilmington, Cal., p.v.♦ and tp., Los Angeles co., on Pacific Ocean, 21 m. S. of Los Angeles by S. P.R.R. Here is Wilson College. Pop. 911; of tp. 1,865.

Wilmington, Del., city and port of entry, New Castle co., on Delaware R., at the junction of its affluents, Brandywine and Christina Creeks, and on the P., W.&B., the D.W., and the W.&N.R.Rs., 28 m. S.E. Philadelphia, and 70 m. N.E. Baltimore. It is situated in the midst of one of the finest agricultural districts in the Middle States. Its site, like that of Philadelphia, and of Baltimore, is on the outer edge of the primitive formation, and on the inner edge of the sea sand alluvion. The city is built on ground gradually rising to the height of 112 ft. above the level of tide water. It is laid out with regularity; the streets, which are broad and airy, cross each other at right angles. It is supplied with water from the Brandywine, by water-works, like those of Philadelphia. The place is well built; the houses are generally of brick, and many of them are elegant. It has abt. 50 churches, and is distinguished for its excellent private schools. The Delaware Historical Society, the Mechanics' Institute, and the Wilmington Institution have libraries, the last containing 12,000 volumes. The principal public buildings are the city hall, the custom house and post office, a hospital and alm-

house, two market houses. The Wilmington Institute, the opera house, several banks, and an arsenal Wilmington is the largest place in Del., and, next to Philadelphia, the greatest mart of trade in the basin of the Delaware R. The Christiana admits vessel-drawing 14 ft. of water to the city; and those drawing 8 ft. can come up the Brandywine. Considerable shipping is owned here, but Wilmington is more distinguished for its various manuf. than for its maritime commerce. The falls of the Brandywine, in the immediate neighborhood, afford a valuable water-power, which is rendered available to a great extent for the operations of machinery; applied to flouring mills, paper-mills, saw-mills, cotton, woolen, and various other manufactories. The flouring mills at Wilmington are among the largest in the U. States. The making of gunpowder has been carried on here extensively for many years. The city, however, is especially noted for the extent and variety of its manuf. by steam power, including carriages, morocco, cars, cotton goods, iron castings, iron steamships, plate, bar, and sheet iron, engines and boilers, a great variety of other articles of iron and steel, phosphates and sulphuric acid, wooden vessels, boots and shoes, leather, &c., and vulcanized fibre, the result of a chemical process for utilizing paper for various purposes in which leather, wood, and iron have heretofore been employed. Wilmington was the first place in the country where iron ship-building was carried on, and it is still a leading seat of that industry. In the manufacture of passenger cars Wilmington ranks first in the country, while it is among the first in its annual production of morocco and carriages. The city has a police force, and a fire department provided with seven steam engines and improved apparatus. There are 4 nat., 2 savings and 5 other banks, 5 daily, 6 wkly and 4 monthly papers. Wilmington was founded in 1732, and was incorporated as a city in 1832. Pop. in 1870, 30,841; in 1880, 42,499.

Wilmington, Ga., an island at the mouth of the Savannah R. It is 5 m. long and 3½ m. wide, and belongs to Chatham co.

Wilmington, Ill. (p.o. name BREESE). v. and tp., Greene co., 2 m. N. of Drake Station. Pop. 147; of tp. 1,505.

—p.v.♦ and tp., Will co., on Kankakee R., 16 m. S.W. Joliet by C.&A.R.R. It is surrounded by a highly productive farming district, and has a graded school, 2 nat. banks, 2 wkly papers, and several factories. Pop. 1,872; of tp. 2,781.

Wilmington, Ind., p.v. in Hogan tp., Dearborn co., near B.&O.R.R., and 7 m. S.W. Lawrenceburg. Pop. 200.

—tp., DeKalb co. Pop. 2,580. See BUTLER.

Wilmington, Kan., p.h. and tp., Wabasha co., 7 m. W. of Burlingame. Pop. 67; of tp. 1,355.

Wilmington, Mass., p.v. and tp., Middlesex co., on B., L.&C.R.R., 7 m. N. of Winchester. Pop. of tp. 933.

Wilmington, Minn., p.h. and tp., Houston co., 7 m. S. of Caledonia. Pop. of tp. 1,047.

Wilmington, N.Y., p.h. and tp., Essex co., on the East branch of Au Sable R. at foot of White face Mt., 10 m. S.W. Au Sable forks. Pop. of tp. 899.

Wilmington, N.C., a city♦, port of entry and cap. of New Hanover co., on the E. bank of the N.E. branch of Cape Fear R. at its junction with the estuary of that river, 20 m. from the sea and 110 m. S.S.E. Raleigh. It is the principal seaport and largest city in the State, and is well situated for trade though not accounted healthy in its location. There are two islands enclosed by different channels of the river, opposite the city, which afford some of the finest rice fields in the State. Wilmington has a court-house, city hall, and theatre, 22 churches, 12 academies and schools, a library, a nat. and another bank, 2 daily, 5 wkly and 2 monthly papers, marine railways, a c&f

ton compress company, a cotton factory, 5 saw and planing-mills, 9 turpentine distilleries, &c. The city is the terminus of 3 railroads, viz.: the W.&W., the W. C.&A., and the C. C. The last runs through the S. portion of the State to its W. border; the others connect with other lines running N. and S. Wilmington has an extensive commerce both coastwise and foreign; the latter has largely increased within the last few years. There are regular lines of steamers to Baltimore, Philadelphia, and New York. Vessels drawing 16 ft. can load at the wharves, when the improvements on the bar now in progress are completed, the depth of water will be materially increased. The principal articles of shipments are lumber, turpentine, rosin, tar, pitch, spirits of turpentine, shingles, and cotton. Wilmington has long been the leading market for naval stores in the world. The value of imports for foreign countries for the year 1882, was \$289,647; of exports, \$5,793,188. The commercial fleet in the same year consisted of 280 sailing vessels of 8,463 tons, and 17 steam vessels of 1,826 tons. During the civil war, and especially in 1864, Wilmington was the principal confederate port accessible to blockade runners. It was laid out in 1733 under the name of Newton, and was incorporated as a city in 1866. Pop. in 1870, 13,446; in 1880, 17,350.

Wilmington, O., p.v. in Union tp., cap. of Clinton co., 55 m. N.E. Cincinnati by P.C.&St.L.R.R. It is surrounded by a fine agricultural district, and has a Friends College for both sexes, a graded school, 2 nat. banks, 3 wkly papers, and several factories. Pop. 2,745.

Wilmington, Pa., tp., Lawrence co. P. 1,132. —tp., Mercer co. Pop. 556.

Winnebagoes, a tribe of Indians of the Dakota stock, called by themselves Hochungara, but styled by the Algonkin tribes Wennibegouk, a term meaning men from the fetid or salt waters, which was translated by the French Puants. They were formerly enemies of the whites, until after the Black Hawk war, in which they took some part, were removed in 1848 on Blue Earth R., Minn., in 1863 to Crow Creek, Dak., and lastly, in the following year, they were sent to a reservation of 128,000 acres in Neb., near that of the Omahas, 80 m. N. of Omaha City. Notwithstanding the ill treatment and suffering they have endured, they are on the whole progressing. They now number abt. 1,400 souls in Neb., and several hundreds in Wood, Juneau, and Adams cos., Wis. The latter are self-supporting. Roman Catholic and Presbyterian missions have been established among them, with but little result.

Winnebago Valley, Minn., p.h. and tp., Houston co., 10 m. S. of Hokah. Pop. of tp. 854.

Winn'sborough, La., p.v., cap. of Franklin parish, on Turkey Creek, 20 m. S. of Rayville. It has a wkly paper. Pop. 540.

Winn'sborough, S.C., p.v.♠, cap. of Fairfield co., 72 m. S. of Charlotte by C.C.&A.R.R. It has a school called Mount Zion College, a nat. bank and 2 wkly papers. Here is the Fairfield Normal Institute. Pop. 2,150.

Winn'sborough, Tex., p.v.♠, Wood co., 23 m. E. of Sulphur Springs by M.P.R.R. Pop. 325.

Winton, Tex., p.o., Gonzales co.

Winona, Ky., p.v., Trimble co., 4 m. N.E. Bedford. Pop. 100.

Winona, Minn., a S.E. co., bordering on the Mississippi R., which separates it from Wisconsin, and drained by Whitewater R. and several smaller streams; area, 660 sq. m. It has a level surface, consisting mostly of rolling prairie diversified by woodland. The soil is highly fertile. The chief prod. in 1880 were 1,216,872 bush. of wheat, 795,624 of oats, 546,767 of corn, and 168,662 of barley; also dairy prod. Cap., Winona. Val. of taxable prop. abt. \$12,000,000. Pop. 27,197 (of whom 8,383 for.).

—a city♠, cap. of above co., beautifully situated on a plateau surrounded by lofty bluffs, on the W. bank of the Mississippi R. and on the C.M.&St.P., the C. & N.W., and the G.B., W. & St.P.R.Rs., 96 m. S.E. St. Paul. The business portion of the city is compactly and substantially built of brick and stone, the streets lighted with gas, are wide and regularly laid out, and the whole appearance of the place betokens business activity and prosperity. It has 15 churches, a public library, the first State Normal school, a high school, 2 nat. and 2 other banks, 1 daily and 4 wkly papers. It is one of the most important lumber distributing points on the upper Mississippi, and ranks among the first in the northwest as a grain-shipping point. Here are 2 grain-elevators, 7 flour-mills, 3 large saw-mills, 6 carriage and wagon manufactories, and several other manufacturing establishments. Pop. in 1870, 7,192; in 1880, 10,208; of tp. (city excluded) 592.

Winona, Miss., p.v.♠ in Winona tp., cap. of Montgomery co., 88 m. N. of Jackson by C.St.L. & N.O.R.R. It has a wkly paper. Exports, cotton. Pop. 1,204; of tp. 4,496.

Winona, O., p.v. in Butler tp., Columbiana co., 12 m. N.E. Bayard Junction. Pop. 128.

Winooski, Vt. See WINOOSKI FALLS.

Winooski, Wis., p.v. in Lyndon tp., Sheboygan co., on Winooski, or Onion R., 4 m. N.W. Waldo Station. Here is the county insane asylum. Pop. 86.

Winooski Falls, Vt. (p.o. name WINOOSKI), p.v.♠ in Colchester tp., Chittenden co., on both sides of Winooski R., 3 m. N.W. Burlington by C.V.R.R. The river here makes a fall of 20 ft., supplying a water-power which is largely utilized for manuf. purposes. ♣

Winooski River, Vt., one of the largest and most valuable rivers in the State, is abt. 70 m. in length, and in its course fertilizes large tracts of land, and produces a great hydraulic power. It rises in Caledonia co., passes through Washington and Chittenden cos., and falls into Champlain Lake, 5 m. N. of Burlington. It has numerous tributaries, and is one of the most romantic streams in the country. The channels which have been worn in the rocks by its ceaseless current are objects of great admiration. In its passage through the mountains are found fissures through solid rocks from 30 to 100 ft. in depth, with smooth, perpendicular sides, 60 or 70 ft. in width. In many places on this stream are natural bridges, curious caverns, and delightful waterfalls. The Indians on their trading excursions between Canada and the Connecticut R., passed up and down this stream in their bark canoes; and as wild onions were found on its banks, they called it *Winooski*, which, in their beautiful and expressive language, signifies *onion*.

Winslow, Ariz., p.o., Apache co.

Winslow, Ark., p.o., Washington co.

Winslow, Ill., p.v. and tp., Stephenson co., on Pecatonica R., 20 m. N. of Freeport. Pop. 330; of tp. 1,003.

Winsted, N.C., p.o., Person co.

Winsted, Conn., p. borough♠ in Winchester tp., Litchfield co., at the intersection of H.&C.W. and N.R.Rs., 26 m. W. of Hartford. The borough contains the 2 villages of Winsted and West Winsted, each having a p.o. (abt. 1 m. apart), the villages being connected by one continuous Main street, abt. 3 m. in length, following the winding course of Mad R. (a branch of the Farmington), which furnishes an excellent water-power. Near the W. limit of the borough is Long Lake, a natural body of water artificially strengthened, whose surface is abt. 150 ft. above Main street, covering an area of abt. 400 acres. In addition to the superior water-power furnished by this lake, the two villages are supplied with water in pipes, the pressure being sufficient to force water over any building on Main street. Winsted is lighted

with gas, and has 2 graded schools, a public library, 3 nat. and 1 savings bank, and 2 wkly papers. It owes its growth to its manuf. interests. The chief prod. of her manuf. are clocks, scythes, book leather, pocket and table cutlery, pins, wagon, carriage and car axles, wagon springs, coffin trimmings, carriage bolts, planters' hoes, sewing silk, fish hardware, &c. †

Winsted, Minn., tp., McLeod co. Pop. 1,211.

Winsted Lake, Minn., p.v. in above tp., 15 m. N.E. Glencoe. Pop. 140.

Winston, Ala., a N. co., watered by tributaries of the Black Warrior R.; area, 640 sq. m. The surface is a rolling table land, mostly covered with forests; the soil is moderately fertile. The chief prod. in 1880 were 88,781 bush. of corn. Cap., Houston. Val. of taxable prop. abt. \$400,000. Pop. 4,253 (all American).

Winston, Ky., p.o., Estill co.

Winston, Miss., an E. central co., drained by the head streams of Pearl R.; area, 690 sq. m. The surface is generally undulating and the soil fertile. The chief prod. in 1880 were 217,786 bush. of corn, 37,075 of oats, 4,193 galls. of molasses, and 5,864 bales of cotton. Cap., Louisville. Val. of taxable prop. abt. \$1,000,000. Pop. 10,087 (of whom 3,942 colored and 32 Indians).

Winston, Mo., p.o., Dent co.

Winston, N.C., p.v. † and tp., cap. of Forsyth co., adjoining Salem, and 110 m. N.W. Raleigh. It has an academy, 2 nat. banks, 4 wkly papers, 3 tobacco warehouses, 10 tobacco manufactories, 1 spoke and handle factory, &c. An extensive traffic is carried on in the fruit line. Pop. 2,854; of tp. 4,470.

Wirt, N.Y., tp., Allegheny co. Pop. 1,225.

Wirt, W. Va., a W. central co., bounded N. by Hughes R., and intersected by Little Kanawha; area, 290 sq. m. The surface is very hilly and the soil generally fertile. Iron ore and bituminous coal are abundant. The chief prod. in 1880 were 178,327 bush. of corn, 39,629 of wheat, 16,812 of oats, and 74,078 lbs. of tobacco. Cap., Wirt Court-House, or Elizabeth. Val. of taxable prop. abt. \$1,500,000. Pop. 7,104 (all American).

Wirt Centre, N.Y., p.h. in Wirt tp., Allegheny co., 5 m. from Friendship. Pop. 50.

Wirt Court-House, or ELIZABETH, W. Va. p.v. †, cap. of Wirt co., 13 m. S. of Kanawha Station. Pop. 225.

Wisconsin, Me., p.v. † and port of entry in Wisconsin tp., cap. of Lincoln co., on the W. bank of Sheepscot R., 16 m. from its mouth, and on K.&L.R.R., 11 m. E. of Bath. It has a fine harbor, and is engaged in the lumber and coast trade, ship-building manuf. and farming. It has a nat. bank, and is a favorite watering place for tourists. Pop. of tp. 1,842.

Wisconsin, a river, rises in Vieux Desert Lake on the N.E. border of the State of Wisconsin. It flows in a generally S. course, receiving the waters of numerous lakes, situated in Lincoln and Oconto cos

It turns S.W. at Portage City, and reaches Mississippi R., 4 m. below Prairie du Chien. Elevation, 600 ft.; breadth at its mouth, 1,800 ft. Its length is over 600 m. It is navigable by small steamers to Portage City, 200 m. above its mouth. At this point it approaches within 1½ m. of the Fox R., with which it is connected by a canal. The channel of the Wisconsin is much injured by shifting and sand bars. The upper part of the river passes through heavy pine forests. Several cataracts, of which the most famous are the Dalles of the Wisconsin and Grandfather Bill Falls, break the course of this picturesque stream.

—a N. central State, bounded N. and N.E. by Lake Superior and the State of Michigan, E. by Lake Michigan, S. by Illinois, S.W. and W. by Iowa and Minnesota. It is situated between lat. 42° 30' and 46° 58' N., and lon. 87° and 92° 30' W. The length from N. to S. is 310 m., the breadth from E. to W. 285 m., and the area, 54,450. The State occupies a swell of land lying between three notable depressions: Lake Michigan on the E., Lake Superior on the N., and the valley of the Mississippi on the W. The whole surface of Wis. may, with slight exceptions, be considered one vast plain, varied only by the cliffs bordering the rivers and lakes, and the moderate undulations called "rolling." This plain is from 600 to 1,500 ft. above the ocean. The highest lands are those along the sources of the tributaries of Lake Superior, which, near the Montreal R., are 1,700 to 1,800 ft. above the sea, gradually diminishing westward to abt. 1,100 ft. at the W. line of the State. The cliffs along the E. shores of Green Bay and Lake Winnebago extend as far as Iron Ridge in Dodge co., and form a bold escarpment. From this ridge the country slopes gradually E. to Lake Michigan. On this slope there is a remarkable series of drift hills and circular depressions called "potash kettles," extending S.S.W. from the peninsula E. of Green Bay into the State of Illinois; one of the highest peaks in Washington co. is 1,402 ft. above the sea.—The Montreal, Bad, Bois Brulé, and St. Louis Rs. discharge their waters into Lake Superior. They are all short, and have a descent of abt. 800 ft. in a length of 30 or 40 m. The Menomonee, Peshtigo, Oconto, Pensauckee, and Fox or Neenah Rs. run into Green Bay. The Kewanee, Two Rs. (East and West Twin), Manitowoc, Sheboygan, and Milwaukee are tributaries of Lake Michigan. The Mississippi, as already stated, forms a part of the W. boundary of the State, and receives within the State the St. Croix, Chippewa, Buffalo, Trempealeau, Black, and Wisconsin Rs., as well as several smaller streams. The Rock, Illinois, Fox, and Des Plaines Rs., all tributaries of the Mississippi in Ill., drain the S. portion of the State. The Wisconsin, St. Croix, Chippewa, and Neenah or Fox Rs. are navigable for a considerable distance. The State has a coast-line of 120 m. on Lake Superior, of 200 m. on Lake Michigan, and of 400 on the Mississippi and its larger tributaries. The State abounds in lakes, many of them of great beauty. Aside from Lakes Superior and Michigan, Lake Winnebago is the largest lake in the State, being 28 m. long and 10 broad; it is abt. 170 ft. above Lake Michigan. Lake Mendota, and many hundreds of other lakes, especially in the N. part of the State, add beauty to the landscape. Green Bay, an arm of Lake Michigan, extends far into the State. Superior Bay, St. Louis Bay, and Chequamegon Bay project into the State from Lake Superior. The Mississippi just before receiving the St. Croix R. spreads out in a wide bay known as Lake Pepin, and the St. Croix forms a similar expanse of water called Lake St. Croix. A number of islands in Lake Superior and Green Bay belong to Wisconsin.—The useful mineral materials of Wis. come under the head of metallic ores and non-metallic substances. Of the first class are the ores of lead, zinc, iron and copper; of the

second class are the principal substances found in brick-clay, kaolin, cement rock, limestone for burning into quick lime, limestone for flux, glass-sand, peat and building stone. In Wis. lead and zinc are found together; the former has been utilized since 1826; the latter since 1850. The cos. of La Fayette, Iowa and Grant—the S.W. cos. of the State—are known as the "Lead Region." All the lead and zinc obtained in Wis. are from these counties. The lead ore is of one kind only—that known as galena. A large amount is produced yearly from the various mining districts in the lead region. The number of pounds raised from single crevices has often been several hundred thousand. The zinc ores were formerly rejected as useless, but their value is, beyond doubt, very great, and they will be a source of wealth to the lead region for a long time to come, as they are now extensively utilized. Iron mining in the State is yet in its infancy. Numbers of blast furnaces have sprung up in the eastern portion, but these smelt Michigan ore almost entirely. The several ores in Wis. are red hematites, brown hematites, magnetic ores, and specular hematites; the first are found in Dodge co.; the second in Portage, Wood and Juneau; the two last in Bayfield, Ashland, Lincoln and Oconto cos. The product of iron mines for the year 1880 was 41,420 tons, valued at \$73,000.—Although the State extends over 44° of lat., its climate is in no part severe, its temperature being greatly modified by Lakes Michigan and Superior, which form a large part of its boundary on the E. and N. Its mean annual temperature does not vary much from 42° F., being on the S. border abt. 45°, and at the N. limit abt. 50°. Snow falls in the N. before the occurrence of heavy frosts, and continues till spring, thus protecting the roots of plants, trees, and shrubs from being killed by the frost. The winters are long and cold, but nearly uniform in temperature; the springs backward; the summers short, and usually hot, often dry; the autumns generally mild and pleasant. The extensive forests which cover the northern and larger portion of the State yield excellent timber, and are a chief source of wealth of the State. They consist of basswood, maple, hickory, elm, ash, black walnut, butternut, oak, birch, poplar, hemlock, cedar and pine. The southern part of the State is an extensive prairie, without native tree or shrub, except on the banks of the streams. The prairie soil is a vegetable mould of a dark brown color, from one to eight feet deep and of great fertility. There is a large proportion of silex and but little clay. Good crops are raised from the cleared timber lands. Oak openings, where the undergrowth has been kept down by prairie-fires, afford some of the finest lands already prepared for the husbandman. The mineral region, in the N.W., is not well adapted for agriculture. The principal agricultural products for the year 1880 were as follows:

Products.	Quantity produced.	Yield per acre.	Number of acres.	Value.
Indian corn.....bush.	33,767,382	33	1,023,254	\$13,169,279
Wheat.....do.	16,654,735	9.5	1,753,130	16,654,735
Rye.....do.	2,329,470	14.3	162,900	1,584,040
Oats.....do.	30,595,528	31.4	983,954	12,049,256
Barley.....do.	4,903,750	25	196,150	3,040,325
Buckwheat.....do.	584,306	17.4	33,581	362,272
Potatoes.....do.	13,552,110	99	136,890	4,743,238
Tobacco.....lbs.	11,395,824	1,243	9,168	1,367,499
Hay.....tons.	982,080	1.33	738,406	9,820,800
Total.....			5,037,413	\$62,791,444

According to the census of 1880, the farm animals were: horses, 399,942; mules, 8,989; milch cows, 439,872; oxen and other cattle, 28,848; sheep, 313,650; and hogs, 203,900.—Next to agriculture, the

most important pursuit in Wis. is manufacturing; foremost in this interest is lumber, of which the pineries furnish the raw material. The pine region extends through the northern counties of the State from Green Bay to the St. Croix R. The demand is constantly increasing, while the facilities for its manufacture are continually enlarging. Over one billion feet of logs are cut annually. The lumber mills have a capacity exceeding one and one-half billion feet. The products of these find their way to market, either by the Mississippi and its tributaries, by the various lines of railways, or through the Great Lakes. The other leading articles of manuf. are flour, boots and shoes, leather, agricultural implements, iron castings, carriages and wagons, and malt liquors. In the census year, 1880, there were in Wis. 7,674 manuf. establishments, employing 57,109 hands; capital invested \$73,821,802; wages paid during the year, \$18,814,917; value of materials, \$85,796,178; value of products, \$128,253,480.—Wis. had in 1882, 3,442 m. of railroad in operation. The State possesses besides great facilities for transportation by the lakes and rivers which wash its boundaries and penetrate its interior counties. The Fox and Wisconsin Rs. are connected by the Portage Canal, which extends through Portage City, about one mile. Important improvements by the national government in these rivers have been in progress for several years, by means of which and the construction of a ship canal it is contemplated to open a channel for large vessels between the Mississippi R. and Lake Michigan. The U. States customs district of Milwaukee includes all the shores, harbors, and waters of Wis. bordering on Lake Michigan. Milwaukee is the port of entry, and De Pere, Green Bay, Kenosha, Racine, and Sheboygan are ports of delivery. La Crosse is a port of delivery in the district of Louisiana. The foreign commerce of Milwaukee is considerable, and the domestic trade is very extensive. (See MILWAUKEE.)—The school system of Wis. embraces graded schools, to be found in all the cities and larger villages; the district schools, organized in the smaller villages and in the country generally; the university of Wisconsin (located at Madison), having three departments—the college of letters, the college of arts, and the college of law; and the State normal schools, of which there are four—one at Platteville, one at Whitewater, one at Oshkosh, and one at River Falls. Subsidiary to these are teachers' institutes held annually in nearly every settled country, and the State teachers' association, which has been organized for a quarter of a century. Besides the public schools of the State, there are a number of denominational and other colleges, the principal of which are Racine college, Beloit college, Milton college, Ripon college, Carroll college at Waukesha, Laurence university at Appleton, St. John's college at Prairie du Chien, Galesville university, Northwestern university at Watertown, and Pio Nono college at St. Francis Station, south of Milwaukee. There is also quite a large number of incorporated academies and seminaries, the more prominent ones being the Milwaukee academy and St. Mary's institute at Milwaukee, Kemper hall at Kenosha, St. Catharine's academy at Racine, Rochester seminary, Lake Geneva seminary, Fox Lake seminary, Albion academy, Elroy seminary, Wayland institute at Beaver Dam, and Santa Clara academy at Sinsinawa Mound. There are also about 700 private schools in Wisconsin. The public school statistics for 1881 were: number of children between the ages of 4 and 20 years, 489,142; attending school 295,162; number of schools, 5,701; teachers, 10,040. The total receipts for school purposes were as follows: Counties, \$2,118,349.47; cities, \$733,349.11; total, \$2,851,698.48. The expenditures were: Counties \$1,741,340; cities, \$560,698.34; total \$2,302,038.34. The State prison at Waupun, in Fond du Lac co., contain-

ed in 1882 305 convicts, of whom more than 30 were sentenced to imprisonment for life. Connected with the prison is a school, in which from 40 to 70 of the convicts receive instruction. A State hospital for the insane was established in 1860 on the banks of Lake Mendota, 7 m. from Madison. It had 487 inmates in 1882. Another asylum, near Lake Winnebago, was opened in April, 1873 (inmates 512). The institution for the deaf and dumb is at Delavan (inmates 168 in 1882), and the asylum for the blind at Janesville (inmates 68). An industrial school for boys is in successful operation at Waukesha (pupils, 372 in 1881).—The State is divided into 64 cos., viz.: Adams, Ashland, Barron, Bayfield, Brown, Buffalo, Burnett, Calumet, Chippewa, Clark, Columbia, Crawford, Dane, Dodge, Door, Douglas, Dunn, Eau Claire, Florence, Fond du Lac, Grant, Green, Green Lake, Iowa, Jackson, Jefferson, Juneau, Kenosha, Kewaunee, La Crosse, La Fayette, Langlade, Lincoln, Manitowoc, Marathon, Marinette, Marquette, Milwaukee, Monroe, Oconto, Outagamie, Ozaukee, Pepin, Pierce, Polk, Portage, Price, Racine, Richland, Rock, St. Croix, Sauk, Shawano, Sheboygan, Taylor, Trempealeau, Vernon, Walworth, Washington, Waukesha, Waupaca, Waushara, Winnebago, Wood. The cap. is Madison, and the largest city Milwaukee. The other principal cities are Appleton, Beaver, Dam, Beloit, Berlin, Chippewa Falls, Eau Claire, Fond du Lac, Fort Howard, Green Bay, Janesville, Kenosha, La Crosse, Manitowoc, Menasha, Mineral Point; Neenah; Oconto; Oshkosh; Portage; Prairie du Chien, Racine, Ripon, Sheboygan, Stevens Point, Watertown, and Wausau.—The legislative power is vested in a senate of 33 members chosen for two years, and an assembly of 100 members elected annually. Each member receives \$350 a year and 10 cts. a mile for travel to and from the capital. The legislature meets annually on the second Wednesday in January. The chief executive and administrative officers are the governor, annual salary \$5,000; lieutenant-governor, who acts as president of the senate, (\$1,000); secretary of State, who is *ex officio* auditor, (\$5,000); treasurer, (\$5,000); attorney-general, (\$3,000), and State superintendent of education (\$1,200) and certain allowances. All are elected for two years. The State election is held on the Tuesday after the first Monday in November. Other State officers are three commissioners of school and university lands, one of railroads, four of fish and fisheries, three of the State prison, and a State board of charities and reform composed of five members. The judicial power is vested in a supreme court, 13 circuit courts, courts of probate, and justices of the peace. The supreme court consists of a chief and two associate justices. It has in general only appellate jurisdiction. The circuit courts have general original jurisdiction in civil and criminal matters, and appellate jurisdiction over all inferior courts. Judges of the supreme and circuit courts are elected by the people for six years. Wis. is entitled to 9 representatives in congress and has 11 electoral votes.—An agent of the Canadian government first visited this region in the summer of 1639. On the 14th of June, 1671, the French took formal possession of the countries "which are bounded on the one side by the Northern and Western Seas and on the other by the South Sea, including all its length and breadth, in the name of the most high, most mighty and most redoubtable monarch Louis the Fourteenth of the christian name. King of France and Navarre." Marquette and Joliet reached Green Bay May 13, 1673. They crossed from the Fox to the Wisconsin R. and sailed down it to the Mississippi, which they discovered June 17. The French jurisdiction was surrendered to Great Britain by the treaty of Paris, Feb. 10, 1763. By the ordinance of July 13, 1787, all the territory N.W. of the Ohio was organized. About the year 1809 the first saw and

grist-mill was built. Wis. became a part of the Territory of Michigan Oct. 16, 1818, was organized as a separate territory April 20, 1836, and on the 29th of May, 1848, received admission into the Union as the 29th State. The original constitution of 1848, as amended several times, is still in force. The name is derived from the Wisconsin R., which near its head is called, in the Chippewa dialect "Wees-kon-sau," signifying "gathering of the waters." Pop. in 1840, 30,945; in 1850, 305,391; in 1860, 775,881; in 1870, 1,054,670; in 1880, 1,315,497 (of whom 680,069 males, and 635,428 females, 910,072 natives and 405,425 of foreign birth, 1,309,618 whites, 2,702 colored, 16 Chinese, and 3,161 Indians).

Woonsocket, R.I., p.v. ✕ and tp., Providence co., on both sides of Blackstone R., and on N.Y. & N.

E. and P. & W. R.R.s, 16 m. N. by W. from Providence, and 37 m. S.W. Boston. The tp. borders on Mass.; just across the line dividing it from North Smithfield is Woonsocket Hill, 580 ft. high, the highest point in R.I., with a pond on its summit. Woonsocket is chiefly noted for its extensive manufacturing industries, and possesses an unusual prestige by reason of the numerous manufacturing villages that cluster about it and contribute to its trade and general business. There are falls in the river, which afford considerable water-power. The town contains 9 churches, a high school and 8 school buildings; the Harris institute, an imposing and comely edifice, embracing a free circulating library of 7,000 volumes, a lyceum, reading rooms, hall, &c., 2 opera-houses and several public halls, 6 nat. and 4 savings banks, 1 daily and 2 wkly papers. It has a paid fire department, and an efficient police system. The leading industry is the manuf. of cotton and woolen goods. There are 17 cotton-mills with upwards of 200,000 spindles, 7 woolen-mills with 70 sets of cards, and 3 worsted-mills; aggregate capital abt. \$5,000,000. Other establishments are rubber works, 2 wringing-machine manufactories, a tool and worsted company, 4 machine works, a sewing machine establishment, a braid company, several planing-mills, &c. Pop. of tp. 16,053.

Wooster, Iowa., p.o., Jefferson co.
Wooster, O., a city in Wooster tp., cap. of Wayne co., on Killbuck Creek and P., Ft. W. & C. R.R., 80 m. N.E. Columbus, is finely situated on high grounds, in the midst of a rich agricultural district, and is compactly built. It has a high school, 13 churches, 2 nat. and 1 other bank, 4 wkly and 2 monthly papers. Manuf., reapers, mowers, threshers, clover-hullers, engines, boilers, mill-gearings, straw-board, woolen-goods, flax, flour, furniture, wire goods, whips and lashes, organs, carriages, &c. Pop. 5,843; of tp. 7,060.

Woosertown, Ind., Scott co. See New FRANKFORT.

Woo'sung, Ill., p.v. in Buffalo tp., Ogle co., 16 m. N.W. Forrester by I. C. R.R. Pop. 135.

Wooten, Ala., p.o., Blount co.
Wooten's Mill, Ga., p.o., Telfair co.

Worcester (wooster), Md., a S.E. co., bordering on Del. and the Atlantic Ocean, and bounded W. by the Pokomoke R.; area, 320 sq. m. It forms part of the peninsula between Chesapeake and Delaware Bays. Along the coast are low sandy beaches, separated from the mainland by an inlet. The chief prod. in 1880 were 568,009 bush. of corn, 49,018 of oats, and 41,438 of wheat. Cap., Snow Hill. Val. of taxable prop. abt. \$6,000,000. Pop. 19,539 (of whom 6,984 colored).

Worcester, Mass., a central co., bounded N. by N.H., and S. by R.I. and Conn., and drained by Blackstone, Chicopee, Nashua, Ware, and other rivers; area, 1,550 sq. m. It is the largest county in the State. The surface is generally undulating, and the soil fertile and under a high state of cultivation. The chief prod. in 1880 were 358,670 bush. of corn, 127,904 of oats, 37,977 of barley, and 20,482 of rye; 665,741 of potatoes, 153,262 tons of hay, 6,781,560 galls. of milk, 2,053,060 lbs. of butter, and 363,682 of cheese. Total value of agricultural products, \$4,869,123. The co. had in 1880, 1,947 manuf., employing 51,308 hands; capital invested \$39,150,363; value of products, \$79,372,529. The leading industries were boots and shoes, machinery and woolen goods. Caps., Worcester and Fitchburg. Pop. 226,885 (of whom 53,750 for., 1,405 colored, and 38 Indians). —the second city in the State in wealth and pop. semi-capital of above co., is a vast manuf. center on the B. & A. the B. B. & G. the N. Y. & N. E., the P. &

W., and the W. & N. R.R.s., 44 m. W. of Boston, and 54 m. N.E. of Springfield. It is agreeably situated in the midst of the richest agricultural district of the State, partly in the valley of the Blackstone R. and partly on the hills inclosing that valley. It is regularly laid out, is lighted with gas, and has water works and an efficient fire department. A horse-railroad, 3 or 4 m. long, runs through Main street, the principal thoroughfare, from Lincoln square to Webster square. There are two parks. On one of them, known as the Old Common, stands the imposing soldiers' monument, designed and executed by Randolph Rogers, and also a beautiful monument erected to the memory of Col. Timothy Bigelow, a gallant Worcester soldier of the revolution. Among the public buildings are two county court-houses, adjacent to each other on Lincoln square, the city hall, the high school, mechanics' hall (seating 3,000), and the spacious union depot. Near the court-houses is the fire proof building of the American antiquarian society, containing a library of 50,000 volumes and a valuable cabinet of antiquities. The free public library has 37,500 volumes and a reading room. The lyceum and natural history society has interesting collections. The new State lunatic asylum is a vast stone pile, erected at a cost of \$1,350,000. Worcester is noted for the variety and importance of its manuf. interests. It had in 1880, according to the census of that year, 633 manuf. establishments, employing 14,332 hands; capital invested, \$10,101,904; wages paid during the year, \$5,932,921; value of materials, \$15,021,324; value of products, \$24,758,457. The principal industries were as follows:

Name of Industry.	Estab's.	No. of hands empl'd.	Value of yearly products.
Agricultural implements.....	2	230	\$339,400
Arms and ammunition.....	5	323	249,828
Artisans' tools.....	23	366	459,938
Boots and shoes.....	59	2,404	4,703,705
Building.....	81	711	1,223,114

Wyaconda River, rises in Davis co., Iowa, and after a W. course of abt. 90 m. flows into the Mississippi at La Grande, Mo.

Wyahsing, Pa., p.v. and tp., Bradford co., on a creek of the same name, at its confluence with the Susquehanna R. and on a branch of L. V. R.R., 21 m. S.E. Towanda. Exports, lumber, grain, bark and produce. Pop. of tp. 1,581.

Wyalusing, Wis., p.h. and tp., Grant co., on Mississippi R., 3 m. from Clayton Station, Minn. Pop. 36; of tp. 719.

Wyandot, O., a N.W. co., intersected by the Sandusky R.; area, 400 sq. m. The surface is level, and diversified by prairie and woodland, and the soil is fertile. The chief prod. in 1880 were 1,454,370 bush. of corn, 740,935 of wheat, and 294,264 of oats; butter and wool are also largely produced. Cap., Upper Sandusky. Val. of taxable prop. \$10,579,135. Pop. 22,401 (of whom 1,732 for. and 173 colored).

—p.v. in Antrim tp., Wyandot co., on Sandusky R., 10 m. from Upper Sandusky. Pop. 130.

Wyandots, or HURONS, a tribe of Indians of the Iroquois stock, who anciently occupied a large area in Canada. Towards the end of the 17th century, a large body of them removed to Detroit, whence they extended their hunting grounds S. to Sandusky. In 1832 they sold their lands in Ohio to the U. States government, and were removed, numbering 687, to the junction of the Kansas and Mis-

souri Rs., where they still remain. They are now reduced to abt. 200, loss which is partly owing to the adoption of U. States citizenship by a portion of the tribe. This portion is generally prosperous, the other by no means so. Those of the U. States bear the name of Wyandots, the name by which they called themselves, while their long separated brethren of Canada are still called Hurons.

Wyandotte (*wi-an-dot'*), *Cal.*, p.tp., Butte co. Pop. 888.

Wyandotte, Kan., a N.E. co., separated from Mo. on the N.E. by the Missouri R., and intersected in the S. part by the Kansas; area, 160 sq. m. It is well timbered, and has a fertile soil. The chief prod. in 1880 were 620,640 bush. of corn, 178,599 of wheat, and 57,493 of oats. Cap., Wyandotte. Val. of taxable prop. abt. \$4,000,000. Pop. 19,151 (of whom 2,677 for., 4,586 colored, and 19 Indians).

—a city♦, cap. of above co., at the confluence of Missouri and Kansas Rs., in the midst of one of the richest and best agricultural districts to be found in the Missouri valley, is connected with Kansas City, Kan., by two free bridges, and is within 15 minutes walk of the union dépôt at Kansas City, Mo. Wyandotte contains 8 churches, an academy and parochial school under the auspices of the Roman Catholic church, a public library, a State blind asylum, 2 public schools, 2 banks, 3 grist-mills, 2 public halls, and 2 wkly papers. It is the sixth city in population and importance in Kansas. Its prosperity and importance are derived from the machine-shops of K.P. RR., the Kansas stock-yards, the Kansas rolling-mills, the immense pork and beef-packing houses, and large cooper-shops located in its outskirts, which give employment to hundreds of machinists, mechanics, artisans, and laborers. Pop. 6,149; of tp. (city excluded) 2,976.

Wyandotte, Mich., a city♦, Wayne co., on Detroit R., 12 m. below Detroit, and on C.S. and L.S. & M.S. RRs. It has 2 union schools, a savings bank, 2 wkly papers, 2 blast furnaces, extensive rolling-mills, stove works, a ship-yard for the construction of iron vessels, extensive silver smelting and refining works, and several saw and planing-mills. Pop. 3,631.

Wyandotte Cave, Ind., a remarkable natural curiosity in Jennings tp., Crawford co., 5 m. N. of Leavenworth, a town on the Ohio R. It has been explored for 22 m. (including the side galleries), and numerous diverging branches have not yet been measured. It excels the Mammoth Cave in the number and variety of its stalagmites and stalactites, and in the size of some of its chambers, one of which is 350 ft. long and 245 ft. high. It has, however, no such large bodies of water as the Mammoth Cave. Epsom salts, nitre, and alum have been procured from the earth of this cave.

Wyandot, Ill., p.v.♦ and tp., Bureau co., 28 m. S.W. Mendota by C.B.&Q.RR. Pop. 738; of tp. 1,801.

Wyocena, Wis., p.v. and tp., Columbia co., 10 m. S.E. Portage City by C., M. & St. P.R.R. It has a graded school. Manuf., flour and sorghum. Pop. 219; of tp. 1,228.

Wyoming (*wi-ō-ming*), a N.W. Territory bounded N. by Montana, E. by Dakota and Nebraska, S. by Colorado and Utah and W. by Utah, Idaho and Montana. It is situated between lat. 41° and 45° N., and lon. 104° and 111° W. In form it is a rectangular parallelogram, 350 m. long from E. to W., 280 m. broad; area, 97,575. From it a tract of 3,575 m. in the N.W. corner has been set apart by congress for a National Park. (See YELLOWSTONE). Lying in the midst of what is commonly known as the Rocky Mtn. range, Wyo. naturally presents itself to the mind of one who has never traversed it as a succession of wild and rocky elevations. In fact, however, it is an immense plateau having a mean elevation of 6,500 ft. above the sea-level. From this plateau the Rocky Mts. rise in ridges and groups which are designated by various local names. In the S.E. are the Black Hills (Rocky Mtn. group), terminating in Laramie Peak, which has an elevation of 10,000 ft., and the Medicine Bow Mts. In the N.E. are the Black Hills (Dakota group), of which Inyan Kara is 6,600 ft. high. The Big Horn Mts. occupy the N. district; and in the W. and N.W. are the Wind River Range and the Snow Mts., or Sierra Shoshone. Among the most elevated summits are Fremont's Peak (13,570 ft.), Washakee Needles (12,253), Mount Sheridan (10,420), Mount Doane (10,118), Mount Washburne (10,108), and Sailor Mtn. (10,046). In the snow covered mountains of N.W. Wyo., within a radius of ten miles, the head-streams of three of the great rivers of America take their rise—viz., the Yellowstone, flowing into the Missouri, the Snake, into the Columbia, and the Green, into the Colorado. The Green R. drains a basin in the S.W. 223 m. long and 75 m. wide, which was formerly the bed of a lake. The Yellowstone Basin has an area of 5,000 sq. m. The Wind and Big Horn Rs. (which empty into the Yellowstone in Montana) drain a district 176 m. long and 126 m. wide in the N. The S.E. section, 204 m. long and 173 m. wide, belongs to the North Platte Basin. All of these rivers have numerous tributaries, affording abundant water power, but Wyo. contains no navigable streams. A dense growth of coniferous trees clothes the mountains; the timber line is at an

elevation of from 9,400 to 9,900 ft. From the mountain pines is obtained "the finest timber in the world." Cottonwood flourishes along the streams. The Big Horn Basin is scantily wooded. Game is plentiful, including the antelope, bear, bison, big horn or mountain sheep, beaver, deer, elk, grouse, etc.—The mountains abound in a great variety of minerals having large present or prospective value. Iron is found in many localities and various in kind; the most important deposit being the so-called "Iron mountain," located in the Laramie range of mountains, some 25 m. N. of the U.P.R.R. This is a magnetic ore very rich in metallic iron, though a little difficult of working, owing to the presence of titanate acid. There is also a very interesting deposit of iron in the form of red oxide, very near the railway at Rawlins, which has been utilized already to some extent for the manufacture of a very superior brownish-red paint. Coal abounds in many portions of Wyo., and in quality compares favorably with the best coals hitherto found west of Indiana. Indeed, the whole Territory might be considered one vast coal basin without any very improper use of terms. They are variously classifiable as lignites, brown, semi-bituminous and bituminous; though in general terms, they are bituminous. They are mined at various points on the line of the railway; the yield for the year 1880, was 589,595 tons valued at \$1,080,451. Petroleum is likely to become an important product, although but little has yet been accomplished. Springs yielding a very superior quality of lubricating oil have been improved in the narrow valley of the Popo-Agie (a tributary of the Wind R.), and the product is now in use by the Union Pacific railway company, who express the opinion that it is equal, if not superior, to the best lubricating oils of West Virginia. Gold and silver are found in nearly every mountain range. At a number of places in the Medicine Bow, Wind River, Big Horn, Seminole, and Laramie Mts., gold has been discovered in paying quantities, and in the first two ranges mentioned it has already been mined with profit. In that portion of the famous Black Hills, which lies on the Wyo. side of the boundary between it and Dakota, recent discoveries encourage the opinion that an important gold district is destined to be opened there. Copper, asphaltum, graphite, soda, sulphur, and mica abound.—The climate varies with the altitude, being severe on the higher mountains and comparatively mild in the sheltered valleys. The air is pure and bracing, but little rain falls. The mean temperature at Cheyenne (lat. 41° 12', lon. 104° 42', altitude 6,058 ft.) is abt. 44°; total rain fall 12 inches. In 1880 the mean temperature of July, the warmest month, was 70.6°; of Jan., the coldest, 11° 8°; maximum observed, 97° (in July); minimum,—37° (in Jan.). The numerous valleys of the Platte, the two Laramies, the Green, the Sweetwater, the Bear, the Snake, the Wind, the Big Horn, the Powder, the Tongue, and the Cheyenne Rs., and their hundreds of tributaries, afford exceedingly productive soils, which, with convenient irrigation and proper cultivation, can be made to yield fine crops of wheat, rye, oats, barley, the tame grasses, potatoes, and many other crops grown in the north temperate zone. Cultivation of those above mentioned has already been commenced at several places with the most gratifying results. The lateness of the spring and the early coming of frosts in the fall, preclude the successful growth of Indian corn and the more tender fruits. The valleys and plains together furnish the best cattle and sheep ranges in the world. The native grasses are not only the most nutritious known, but the climate is such (being dry in the autumn) that they cure before the coming of snow; thus furnishing the herds which roam over the plains a standing hay of such quality that feeding of cattle during the winter is unknown.

Sometimes a fall of snow, succeeded by thawing, freezing so as to form a crust, necessitates the feeding of a very little hay to *sheep* less than the strong-est, but this is exceptional. The number of farm animals in 1880 was 11,975 horses; 611 mules; 718 working oxen; 3,730 milch cows; 273,625 other cattle; 140,225 sheep; and 567 hogs.—According to census returns, Wyo. had, in 1880, 57 manuf. establishments, employing 391 hands; capital invested \$364,673; wages paid during they ear, \$187,798; value of materials, \$601,214; value of products, \$898,494. The grazing of cattle for beef, the breeding of horses, and the production of wool, constitute the leading industry of Wyo.; mining, lumbering, manufacturing, and agriculture, ranking afterward, in the order of mention. Since the organization of the Territory, numerous villages have sprung up along the line of the Union Pacific railroad, which, for a distance of 465 m., traverses the southern portion, with present populations of 200 to 4,000, and with numerous handsome business blocks and private residences; as well as many wagon roads through the Territory, have been built; and there is now an aggregate of wealth but little short of \$20,000,000. In 1882 the Territory had 533 m. of railroad in operation.—The schools are modelled after the very best in the country, well supported, well taught, free to all pupils, and fully attended under a compulsory law, and the yet more potent influence of public sentiment. Churches are numerous and liberally supported.—The territory is divided into 7 cos., viz.: Albany, Carbon, Crook, Johnson, Laramie, Sweetwater, and Uintah. The principal towns are Cheyenne (the cap.), Laramie City, Sherman, Rawlins, Carbon, South Pass City, Rock Springs, Green River City, Atlantic City, and Evanston. The Territorial administration of public affairs is in the hands of officers appointed by the president for the term of 4 years. The legislature is chosen by the people, though paid by the federal government. Taxes are light and the Territory is free from debt. The laws are characterized by exceptional liberality; conferring equal political privileges upon all persons of suitable age, regardless of sex, color, or condition.—In a report addressed in Sept., 1881, to the secretary of the interior, the governor of Wyo., Mr. John W. Hoyt, sums up as follows the progress and present condition of the Territory: "The mountain of Wyo. are stored with all manner of hidden quarries and precious minerals, while yet clothed with grass or studded with magnificent forests; in her rich valleys lie the possibilities of a marvelous productiveness, needing but the help of the abundant waters and the faithful care of the husbandman to give them early realization; her boundless plains, vaster in aggregate area than the whole of New York or even Illinois, without thought or effort on the part of man, afford nutritious summer and winter food for countless flocks and herds; vaster coal-fields than manufacturing England can boast of, as well as water-powers mighty and numberless, impatiently await the energy and genius of her sturdy sons to make their force available for the production of wonders in the world of the mechanic arts; her climate, so mild that it permits the grazing of tender flocks in winter, is yet cool, delightful and invigorating in summer; and finally, here, at this grand elevation, in the midst of scenery where the sublime and the beautiful meet and mingle evermore, her people established institutions and enacted laws which have placed her at the fore in the march of civilization. The material advancement of Wyo. has not been more marked than its social progress. Like all new communities on the line of great public improvements, ours has had much to contend with. Cheyenne, for a time the railway terminus, and a point of great importance as a supply depot and

shipping post for an extensive region of country, including the Black Hills, was also seat and center of the most appalling vice. Nightly brawls and mid-day murders had their course until vigilance committees with most fearful measures were forced to the front for their suppression. As the railroad pushed on its way, other towns were subjected to this same visitation of outlaws of every sort, and suffered in like manner until heroic remedies were again employed. To-day the face of things is changed. Thieves but seldom venture, and road-agents are no longer heard of. No village of New England is more orderly than this "magic city" of the Plains and the others which lie beyond. Most liberal provision is made for the unfortunate classes of every kind. Obligatory school attendance is enforced with the hearty approval of citizens. Libraries for the public use, with literary and musical associations for their support as well as for the encouragement of intellectual and aesthetic culture on the part of the people generally, have been formed; while at the capital has been established and incorporated a Territorial "Academy of Sciences, Arts, and Letters," the leading objects of which are declared to be the encouragement of historical and scientific research; the development of the practical industries of Wyo. and the enlargement of the Territorial library. None who for any reason desire a footing in Wyo. need hesitate longer on account of the social state. It is already good and is rapidly advancing.—Wyo. was organized as a Territory, from parts of Dakoto, by act of congress, July 25, 1868, and is the youngest member of the Union. Pop. in 1870, 9,118; in 1880, 20,789 (of whom 14,152 males and 6,637 females; 14,939 natives and 5,850 of foreign birth; 19,437 whites, 298 colored, 914 Chinese, and 140 Indians).

Wyoming, Del., p.v., Kent co., 3 m. S.W. Dover by P.W.&B.R.R. It is the seat of the Wyoming institute. Pop. 417.

Wyoming, Ill., tp., Lee co. Pop. 1,455
—p.v.♦ in Toulon tp., Stark co., at crossing of C.,B.&Q. and R.I.&P.R.Rs., 20 m. S.W. Buda. It has a graded school, a nat. and another bank, a wkly paper, and several flouring-mills. Pop. 652.

Wyoming, Iowa, p.v.♦ and tp., Jones co., 16 m. S.E. Monticello by C.,M.&St.P.R.R. It has a graded school, a bank, a wkly paper, and an opera house. Pop. 729; of tp. 1,888.

Wyoming, Neb., p.tp., Otoe co. Pop. 801.

Wyoming, N. Y., a W. co., bounded S.E. by the Genesee R., and drained by affluents of that stream, and Tonawanda, Buffalo, and other creeks; area, 600 sq. m. The surface is generally broken and hilly, and the soil fertile and well adapted to stock-raising. The chief prod. in 1880 were 601,211 bush. of oats, 282,318 of corn, 209,029 of wheat, 203,711 of barley, and 34,168 of buckwheat; potatoes, butter, cheese, wool, and hay are also largely produced. Cap. Warsaw. Val. of taxable prop. \$10,656,963. Pop. 30,907 (of whom 3,899 for.).

—p.v.♦ in Middlebury tp., Wyoming co., on Oatka Creek, 12 m. S.W. Le Roy by R.&P.R.R. Pop. 387.

Wyoming, O., p.v.♦ in Springfield tp., Hamilton co., 10 m. N. of Cincinnati. Pop. 840.

Wyoming, Pa., a N.E. co., intersected by the North branch of the Susquehanna R., and drained by Tunkhannock, Mahopeny, and other large creeks; area, 400 sq. m. The surface is generally

hilly or mountainous. The soil is fertile. Timber, coal and iron are very abundant. The chief prod. in 1880 were 273,006 bush. of corn, 272,181 of oats, 165,310 of buckwheat, 58,079 of wheat, and 49,665 of rye; butter and potatoes are also staple prod. Cap., Tunkhannock. Val. of taxable prop. \$6,720,868. Pop. 15,598 (of whom 578 for.).

—p.v. in Kingston tp., Luzerne co., on Susquehanna R. and Bloomsbury div. of D.,L.&W.R.R., 6 m. N. E. Wilkesbarre. Exports, shovels, terra cotta, grain, hay, coal and tobacco. Pop. 1,147.

Wyoming, R.I., p.v. in Hopkinton and Richmond tps., Washington co., on Wood R., 7 m. N. of Carolina Mills.♦

Wyoming, W. Va., a S. co., bordering S.W. on Va. and drained by the branches of Sandy and Guyandotte Rs.; area, 660 sq. m. The surface is mountainous, and the greater part covered with forests of valuable timber. Great Flat Top Mt. extends along the S.E. border. The soil is moderately fertile. The chief prod. in 1880 were 98,321 bush. of corn, and 20,828 of oats. Cap., Oceana. Val. of taxable prop. abt. \$750,000. Pop. 4,322 (all Americans).

Wyoming, Wis., p.h. and tp., Iowa co., 7 m. S.W. Helena Station. Pop. 75; of tp. 735.

Wyoming, Wyo., p.v., Albany co., 75 m. W. of Cheyenne by U.P.R.R.♦

Wyoming Valley, Pa., a beautiful and remarkably fertile tract in Luzerne co. It lies N.E. and S.W., having an average breadth of 3 m. and a length of 21 m. It is traversed by the North branch of the Susquehanna R., has the form of a very long oval or ellipse, and is enclosed by ranges of rugged mountains abt. 1,000 ft. high. The ridge on the S.E., called the Wyoming Mts., is celebrated for its inexhaustible mines of anthracite coal of the best quality. The river enters the upper end of the valley through a bold mountain-pass known as the Lackawannock Gap, and passes out of its lower end, and through another opening in the same mountain called Nanticoke Gap. Near the center of the valley it has a rapid, called the Wyoming Falls, and another at the lower gap, called the Nanticoke Falls, several tributary streams fall into it on each side, after traversing rock passes, and forming beautiful cascades as they descend to the plain. The massacre of Wyoming, which has given the valley a melancholy prominence in history, and which forms the theme of Campbell's "Gertrude of Wyoming," occurred on July 3, 1778.

Wyreka, Mo., h. in York tp., Putnam co. P. 19.

Wyse's Ferry, S. C., p.o., Edgefield co.

Yalla'ha, *Fla.*, p.v. and tp., Sumter co., on Lake Harris, 35 m. S.E. Okala. Chief business, raising and shipping fruit. Pop. of tp. 426.

Yalobusha, *Miss.*, a river, rises in Chickasaw co., and flows W. to Leflore co., where it joins Tallahatchee R. to form the Yazoo R.

—a N. co., watered by tributaries of the Yalobusha and Tallahatchee Rs.; area, 460 sq. m. The surface is generally level and the soil highly fertile. The chief prod. in 1880 were 275,309 bush. of corn, 17,479 of oats, and 12,989 bales of cotton. Cap., Coffeeville. Val. of taxable prop. abt. \$3,500,000. Pop. 15,653 (of whom 218 for., and 8,118 colored).

Yam Hill, *Oreg.*, a N.W. co., bounded E. by the Willamette R., bordering W. on the Coast Mts., and intersected by the Yam Hill R.; area, 610 sq. m. The surface is undulating, and the soil, particularly in the E., fertile. The chief prod. in 1880 were 957,816 bush. of wheat, 379,182 of oats, and 13,183 of barley; butter and wool are also staple prod. Cap., Lafayette. Val. of taxable prop. abt. \$2,000,000. Pop. 7,945 (of whom 708 for., and 212 colored).

Yam'pah River, *Col.*, rises in the Park Range, flows W. for abt. 175 m., and falls into Green R. near the N.W. border of the State.

Yan'cey, *N.C.*, a N.W. co., bordering on Tenn., and bounded N. by the Nolichucky R.; area, 400 sq. m. The surface is mountainous and lies between Iron Mt. and the Blue Ridge. Mt. Mitchell, in the S.E. part, is abt. 6,500 ft. above the level of the sea. The chief prod. in 1880 were 203,659 bush. of corn, 43,631 of oats, and 21,452 of wheat. Cap., Burnsville. Val. of taxable prop. abt. \$750,000. Pop. 7,693 (of whom 325 colored).

Yank'ee Town, *Wis.*, h. in Clayton tp., Crawford co., on Kickapoo R., 20 m. N. of Boscobel. P. 60.

Yank'ton, *Dak.*, a S.E. co., separated from Neb. by the Missouri R., and intersected by the Dakota; area, 500 sq. m. The river bottoms are very fertile. The chief prod. in 1880 were 220,953 bush. of corn, 120,644 of oats, 76,741 of wheat, and 11,127 of barley. Cap., Yankton. Val. of taxable prop. abt. \$4,000,000. Pop. 8,390 (of whom 3,356 for.).

—a city, cap. of the territory and of Yankton co., on the N. bank of Missouri R., 980 m. above its junction with the Mississippi and 7 m. above the mouth of the Dakota, 61 m. N.W. Sioux City by the Sioux City and Dakota div. of C., M. & St. P. R.R., of which it is the W. terminus. It is beautifully situated, regularly laid out and substantially built. It is connected by steamers with the principal ports on the Missouri. Yankton has a high school, a public library, 7 churches, 1 nat. and 2 other banks, 1 daily and 3 wklly papers, 4 large grain elevators, railroad machine shops, a foundry and machine shop, 2 breweries, 2 flour-mills, &c. It is the point of re-shipment of government supplies for many military posts and Indian agencies, and is also a depot of supplies for the Black Hills. It derives its name from the Yankton band of Sioux Indians, who formerly occupied the site as their council ground. It was first settled in 1839, and was incorporated as a city in 1873. Pop. in 1870, 737; in 1880, 3,431.

—(p.o. name SHENANDOAH), coal-mining borough in Mahanoy tp., Schuylkill co., 2 m. N.E. Shenandoah by L.V.R.R., and 3 m. N.W. Mahanoy. Pop. 708.

Yatesville, Va., p.o., Lunenburg co.

Yat'ton, Iowa (p.o. name RIVERSIDE), h. in Iowa tp., Washington co., on English R., 1 m. S. of Riverside Station. Pop. 57.

Yavapai (yav'a-pi), Ariz., a N.E. co., bounded N. by Utah and E. by N. Mex.; area, 10,200 sq. m. The Colorado R. crosses the N.W. corner, passing through deep and precipitous cañons. The N.E. corner is watered by a tributary of the Rio San Juan, the S. part by several affluents of the Gila, and the S.W. corner by the Rio Santa Maria, a branch of Bill Williams fork. The Colorado Chiquito, for a considerable portion of its course walled in by precipitous cañons, flows N.W. through the co. near the centre, and empties into the Colorado. The greater portion of the surface has an elevation of 5,000 or 6,000 ft. above the sea, and some parts rise much higher. There are numerous mountain ranges, generally running N. and S. The N. part is mostly unexplored. The central and E. portions contain valuable farming, pastoral, and mining lands. The settlements are in the S.W., in the mining regions of Prescott and Wickenburg. The soil here is fertile, and pine forests abound. Gold and silver are found. In the N.E. are the Moqui Indians. The chief prod. in 1880 were 16,944 of barley, and 14,841 of corn. Cap., Prescott. Val. of taxable prop. abt. \$250,000. Pop. 5,013 (of whom 1,256 for., 140 Chinese, and 54 Indians).

Yawker, R.I. (p.o. name KINGSTON), v. in Exeter tp., Washington co., 3 m. N. of Kingston. ✚

Yazoo, Miss., a navigable river formed by the union of Tallahatchee and Yalobusha Rs. at Polkville, Leflore co. It is 290 m. long, deep, serpentine, and sluggish, and navigable the year round. It joins the Mississippi 12 m. above Vicksburg. On the W. side the Sunflower R. and other navigable channels pass from the Mississippi to the Yazoo. The region adjacent to the Yazoo is very fertile; on the W. side it is flat and often swampy, but on the E. more often bluff or rolling. The name signifies "River of Death" in the Choctaw language, alluding to the malarial diseases which prevailed upon its shores.

—a W. co., bounded S.E. by Big Black R., and intersected by the Yazoo; area, 1,000 sq. m. The surface is level and the soil a rich alluvium. The chief prod. in 1880 were 524,615 bush. of corn, 48,321 bales of cotton, and 2,973 galls. of molasses. Cap., Yazoo. Val. of taxable prop. abt. \$8,000,000. Pop. 33,846 (of whom 322 for., and 25,348 colored).

—p.v. & tp. in above co., in Yazoo Valley, one of the richest corn and cotton-growing districts of the South, 45 m. N.E. Wicksburg, and 30 m. N.W. Canton. It has a bank, 2 wklly papers, and several mills and factories. Pop. 2,542.

Yeagers, Miss., p.o., Adams co.

Yeagerstown, Pa., p.v. in Derry tp., Mifflin co., on M. & C. R.R., 3 m. N. of Lewistown. Manuf., axes, carriages, flour. Pop. 532.

Yeakley, Mo., p.o., Greene co.

Yeanytown, Pa., Clarion co. See SHANNONDALE.

Yellow Springs, Iowa, tp., Des Moines co. Pop. 2,094.

Yellow Springs, O., p.v. in Miami tp., Greene co., on the Springfield branch of the Little Miami div. of P.C.&St.L.R.R., 74 m. N.E. Cincinnati. It is surrounded by a rich agricultural district, abounding in pleasant and picturesque scenery, and has 7 churches, a graded school, and a mineral spring of considerable celebrity. It is, however, chiefly noted as the seat of Antioch college, an important institution of learning for both sexes. P. 1,377.

Yellow Springs, Tenn., p.o., Hancock co.

Yellowstone Lake, Mts., and River. See YELLOWSTONE NATIONAL PARK.

Yellowstone National Park is 65 m. N. and S. by 55 m. E. and W., comprises 3,575 sq. m., and is in the N.W. corner of Wyoming. It is by far the most marvelous collection of geysers, hot springs, and other volcanic phenomena, upon the globe. This region was, by act of congress passed in the winter of 1871-72, reserved from settlement, and constituted a National Park. Nearly all of it is in Wyoming, a narrow strip extending westward over into Idaho and Montana, and northward into the latter Territory. "Its surface" says Mr. Robert P. Porter "is mainly a high rolling plateau, broken by several isolated groups of mountains, while along its eastern border rises the high and rugged Yellowstone Range. The mean elevation of the Park above the sea is abt. 8,000 ft.; while the highest mountains rise to 11,000 and 12,000 ft. Almost its whole extent, both of plains and mountains, is covered with dense forests, so dense that for days one may travel without seeing a landmark, and is guided only by the sun or the compass. In these high plateaux and mountains, the Snake, Yellowstone, Gallatin, and Madison have their utmost sources, whence they flow off to the arid plains below. In these forests and mountain recesses still remain in abundance the large game of the country—moose, elk, deer, mountain sheep, bears, panthers, and wild-cats. It is the hunter's paradise. Within very recent geologic times, this region has been the scene of remarkable volcanic activity. It is almost entirely overlaid by volcanic rock, outflows of lava from some copious rents now concealed. The country is honeycombed with hot springs: on the plains, in the deepest recesses of the forest, on the mountains, even on their loftiest summits, and even in the beds of the lakes and streams, they are boiling and bubbling. There are springs of water and of mud; there are calcareous, siliceous, sulphurous, and iron springs everywhere and in infinite variety. They agree in only one particular; they are all hot. While there is scarcely a square mile of the Park that does not contain more or less springs, there are certain localities where they are grouped in large numbers, and show greater activity than elsewhere. It is in these placers that geysers are found. The principal of these localities are: the White Mtn., or Mammoth, Hot Springs, the Gibbon, Lower and Upper Geyser basins, the Shoshone basin, the Heart Lake group, and the Mud geysers. The first named of these is near the N. boundary of the park, on Gardiner's R. The springs (there are here no geysers) are calcareous; and the waters deposit freely, having built a hill a hundred ft. or more in height, of a dazzling whiteness, except where striped by bands of yellow, red, and green, from the sulphur and iron deposited. The springs issue from the top of this mound, the water flowing down its sides, through a succession of basins, all beautifully bordered and scalloped. The Gibbon basin, near the head of one of the branches of the Madison R., is rather a congeries of groups of springs, scattered over a large area. This basin contains a number of geysers of considerable power, throwing water to nearly or quite a hundred ft. The water contains very little matter of any kind in solution; and

consequently the deposits are very slight. The Upper and Lower Geyser basins are situated on the Firehole, a head branch of the Madison R. They are abt. ten miles apart; but there are springs all along the valley connecting them. All over the valley rise clouds of steam from the springs, which, on frosty mornings, forms a dense fog, filling the valleys. It is in these basins that the greatest activity in the region is manifested. They contain thousands of hot springs, from the size of a horse's hoof to hot lakes covering several acres. The geysers are numbered by the score. They throw columns of water to various heights, ranging from a few ft. only, up to 250 ft. Some of the minor ones are perpetual spouters; but most of them, and all the powerful ones, play only at intervals ranging from an hour to several days. One of the most powerful, and perhaps the most interesting, is that known as "Old Faithful," whose interval between eruptions is almost exactly fifty-eight minutes, and which throws water to a height of 150 ft. Another most beautiful one, known as the "Beehive," from the shape of its cone, plays at irregular intervals, and throws water sometimes to a height exceeding 200 ft. Another, the "Castle," has built about itself an immense mass of deposit, from which ordinarily it throws an irregular mass of water 20 to 30 ft.; but on special occasions, it sends an enormous column up, fully 250 ft. skywards. Of the many geysers of this valley, each possesses an individuality; but space forbids any further mention of them. Further south, on the shore of Shoshone Lake, one of the many beautiful sheets of water which diversify the surface of the Park, is another group of springs and geysers, possessing many unique features. The Heart Lake group lies in a narrow belt along a gulch leading down to Heart Lake. There are but two or three geysers in this group, which is remarkable chiefly for the beauty of the deposits. The hot springs and geysers are not the only wonders and attractions of this remarkable region. To the lover of natural scenery, it is almost without a peer in its mountains, lakes, waterfalls, and cañons. Yellowstone Lake, at an elevation of 7,788 ft. above the sea, is the largest body of water at that elevation on the continent. It is 22 by 15 m. in extent with a maximum depth of 300 ft., and has a very irregular shape, with long arms, reaching far inland, and enclosing mountains in its grasp. It contains immense numbers of salmon trout. The Upper Yellowstone, the ultimate source of the Yellowstone R., flows into the lake from the S.E. after a course of 25 m.; and from its N. end the Yellowstone R. emerges in its course of abt. 600 m., to the Missouri, which it joins on the border of Montana and Dakota. It is navigable to near the mouth of the Big Horn, abt. 300 m. above the Missouri. The Yellowstone Park also contains Shoshone, Lewis, and Heart Lakes, beautiful sheets of water, lying hemmed in by the hills, their deep blue color contrasting finely with the black green of the forests which surround them. At the distance of a day's drive down the Yellowstone from the lake, the river, heretofore calm and peaceful, becomes fretted by rapids, and then suddenly plunges over a cliff 112 ft. in height. A half-mile of quiet meandering follows, when the great stream suddenly, and without warning, rolls over a second cliff 300 ft. in height, into a deep gorge 1,000 ft. from top to bottom, down which it rushes and roars in a madly tumultuous course. These are the Great Falls and the Grand Cañon of the Yellowstone. The latter is carved out of a volcanic plateau; its walls are the most rugged of cliffs, unscalable except in one or two places. This cañon extends some 12 to 15 m. down the river, and is closely followed by others, so that, throughout the balance of its course in the Park, there are few points at which this stream reaches the sunlight. Besides these, there is a fine fall of more than a hundred ft. upon Tower creek,

a large branch of the Yellowstone, and other smaller ones in various parts of the Park. The Park is not at present easily accessible. It can be traversed only on horseback and with a pack train; and consequently comparatively few have yet seen its wonders." It was visited in Aug., 1883, by President Arthur. The best way to reach it is via the N. P. RR. to Livingston, and its National Park Branch to Mammoth Hot Springs, where saddle ponies and guides can be obtained for visiting the various points of interest not reached by the stage line.

Yocumtown, Pa., p.v. in Newberry tp., York co., 10 m. S. of Harrisburg, and 3 m. from Goldsborough Station. Pop. 105.

Yocumville, Cal., p.o., Siskiyou co.

Yoh-na-pata-fa, Miss., a river, rises near the W. border of Pontotoe co., flows W. for abt. 90 m., and joins Tallahatchee R. at the S.W. corner of Panola co.

Yoho, O., p.o., Gallia co.

Yohoghany, or SHANER, Pa., p.h. in Sewickley tp., Westmoreland co., on Youghiogheny R. and B. & O. RR., 12 m. E. of Greensburg. Pop. 68.

Yokely, Tenn., p.o., Giles co.

Yokley, N.C., p.o., Davidson co.

Yokohl, Cal., p.o., Tulare co.

Yokum Station, Va., p.t.p., Lee co. P. 2,223.

Yolo, Cal., a N. co., bordering N.W. on the Coast Mts., and E. on the Sacramento R., and watered by several small tributaries of that stream; area, 940 sq. m. The E. half is level; W. of this is a belt of slightly undulating prairie, gradually rising into the lower slopes of the Coast range. The level portion has mostly a rich alluvial soil. Agriculture is the principal industry. The chief prod. in 1880 were 2,086,550 bush. of wheat, 519,479 of barley, and 10,090 of corn; wine, wool and butter are also staple prod. Cap., Woodland. Val. of taxable prop. \$10,177,427. Pop. 11,772 of whom 2,673 for., 606 Chinese, and 47 Indians).

—in Yolo co. See CACHEVILLE.

Yonah, Ga., tp., White co. Pop. 723.

Yoncalia, *Oreg.*, p.h., Douglas co., on O.&C. RR., 34 m. N. of Roseburg. Pop. 100.

Yongesborough, *Ala.*, p.h., Lee co., on W. A. RR., 20 m. N.W. Columbus, Ga. Pop. 75.

Yonkers, *N. Y.*, a city, Westchester co., on the E. bank of Hudson R., joining New York on the S., 16 m. N. of the city hall by N.Y.C.&H.R.R. The city proper is picturesquely situated on rising ground adjacent to the river, opposite the Palisades, is well shaded, and has numerous fine residences with handsome grounds, most of which are owned and occupied by merchants doing business in New York. The old Philipse manor house, built partly in 1682 and partly in 1745, and still in a fine state of preservation is now used as the city hall. Yonkers is lighted with gas, and an excellent supply of pure water has been introduced at an expense of abt. \$600,000. It has 16 churches, 4 public schools, 2 Roman Catholic and 5 private schools, 2 nat. and 2 savings banks, 2 wkly papers. A small river called the Neperhan affords valuable water-power, and the prosperity of the city arises from its large manufacturing interests. There are 3 manuf. of felt hats, 1 of felt robes and cloths, 2 of sewing silk, 1 of sewing silk and ribbons, 1 of lead pencils, 1 of carpets, 1 of elevators, 2 of mowing machines, 1 of barrels, 1 of sugar, 1 of leather, 1 of boots, a brass foundry, a brewery, &c. P. 18,892.

York, *Pa.*, a S.E. co., bordering on Md., and bounded N.E. by the Susquehanna R.; area, 920 sq. m. The surface is generally hilly, diversified by mountains in the W. part, and the soil is highly fertile. There are extensive quarries of limestone, slate, and sandstone. The Susquehanna Canal passes along the E. border. The chief prod. in 1880 were 1,739,865 bush. of corn, 1,066,110 of oats, 1,211,340 of wheat, 141,052 of rye, 55,086 of buckwheat, and 5,753,766 lbs. of tobacco; butter, potatoes, and hay are also staple prod. Cap., York. Val. of taxable prop. \$72,290,918. Pop. 87,839 (of whom 2,858 for., and 1,341 colored).

—city and tp., cap. of above co., on Codorus Creek and Penn. and N.C.R.Rs., 28 m. S.S.E. Harrisburg, and 57 m. N. of Harrisburg. It is handsomely situated in a rich agricultural region, is regularly laid out, and contains many fine churches, and private residences. Besides excellent public schools there are the York co. Academy for boys, Cottage Hill college for young ladies, and the York collegiate institute for both sexes. York is lighted by gas, and has good water-works, an efficient fire department, a public library, an opera house, 5 nat. and 2 other banks, 2 daily and 6 wkly papers, several large car shops, some of the most extensive manuf. of agricultural implements, and manuf. of engines, boilers, mill machinery, water wheels, cotton goods, soap, lime, lumber, iron, flour, leather, pottery, fertilizers, buttons, beer, &c. P. 13,940; of tp. (city excluded) 2,379.

York, *S. C.*, a N. co., bordering on N.C., and E. by the Catawba R. and W. by Broad R.; area, 720 sq. m. The surface is hilly or mountainous, and the soil is moderately fertile. Iron ore is very abundant, and gold, manganese, and limestone are found. The chief prod. in 1880 were 626,505 bush. of corn, 119,882 of oats, 75,173 of wheat, and 23,523 bales of cotton; also dairy prod. Cap., Yorkville. Val. of taxable prop. abt. \$6,000,000. Pop. 30,713 (of whom 100 for., 16,617 colored, and 60 Indians).

—tp., York co. Pop. 2,918.

York, *Va.*, a river, formed at the S.E. extremity of King William co., by the junction of Pamunkey and Mattaponi Rs. Its lower part forms a bay, generally 2 or 3 m. wide, through which it enters the Chesapeake Bay between York and Gloucester cos. It forms the best harbor in Va., at Yorktown, where it is contracted to a mile in width, and large vessels ascend 20 m. above. Its entire length is abt. 120 m. —a S.E. co., forming part of the peninsula between York and James Rs., and bounded E. by York R. and Chesapeake Bay; area, 70 sq. m. The surface is generally undulating, and the soil is fertile. The chief prod. in 1880 were 104,326 bush. of corn, and 15,679 of wheat. Cap., Yorktown. Val. of taxable prop. abt. \$750,000. Pop. 7,348 (of whom 4,512 colored).

Yo Semite, Cal., p.v., Mariposa co., 30 m. N.E. Mariposa. Pop. 150.

Yosemite Valley, Cal., a valley or chasm situated in Mariposa co., on Merced R., 140 m. E. by S. from San Francisco, but over 220 m. from that city by any of the usually traveled routes. It is on the W. slope of the Sierra Nevada, midway between its E. and W. base, and nearly in the center of the State, measuring N. and S. The valley is a nearly level area, abt. 6 m. in length, and from a half to a mile in width, and almost a mile in perpendicular depth below the general level of the adjacent region, and inclosed in frowning granite walls rising with almost unbroken and perpendicular faces to the dizzy height of from 3,000 to 6,000 ft. From the brow of the precipices in several places spring streams of water which, in seasons of rains and melted snow, form cataracts of a beauty and magnificence surpassing anything known in mountain scenery. "The principal features of the Yosemite," says Professor J. D. Whitney, "and those by which it is distinguished from all other known valleys, are: 1. The near approach to verticality of its walls; 2. Their great height, not only absolutely, but as compared with the width of the valley itself; and 3. The small amount of debris at the base of these gigantic cliffs. These are the great characteristics of the Yosemite region, throughout its whole length; but, besides these, there are many other striking peculiarities and features, both of sublimity and beauty, which can hardly be surpassed, if equaled by those of any mountain valleys in the world. Waterfalls in the vicinity of the Yosemite, surpassing in beauty many of the best known and most visited in Europe, are actually left entirely unnoticed by travelers, because there are so many other objects of interest to be visited that it is impossible to find time for them all." The valley is almost one vast flower-garden. Plants, shrubs, and flowers of every hue cover the ground like a carpet; the eye is dazzled by the brilliancy of the color, and the air is heavy with the fragrance of a million blossoms. Trees of several centuries' growth raise their tall heads heavenward, yet, beside and in comparison with the vast perpendicular clefts of rocks, they look like daisies beside a tall pine. On every side are seen the beautiful and many colored manzanita and trees of such shape and variety as are nowhere seen in the Atlantic States. The Yosemite was discovered in the spring of 1851 by a party under the command of Captain Boling, in pursuit of a band of predatory Indians, who made it their stronghold, considering it inaccessible to the whites. By an act of congress passed in 1864, the Yosemite Valley and the Mariposa Grove of Big Trees were granted to the State of California upon the express condition that they shall be kept "for public use, resort, and recreation," and shall be "inalienable for all time." One of the most attractive features of the Yosemite is the fall made by the descent of Yosemite Creek down the wall on the N. side of the valley. The vertical elevation of the edge of this fall is 2,600 feet, but the descent is not in one unbroken sheet. There is first a vertical fall of 1,500 feet, then a

descent of 626 feet in a series of cascades, and finally one plunge of 400 feet on to a low talus of rocks at the foot of the precipice. The body of water is not large, and it decreases considerably as the season advances, becoming very small in ordinary years by the end of August. The width of the stream above the fall is usually, in June and July, about 20 feet, and its depth perhaps 2 feet. The beauty and grandeur of this fall, however, taken in connection with the majesty of its surroundings, give it a claim to be ranked among the most remarkable natural objects in the world. To reach the Yosemite Valley the C.P.R.R. should be left at Madera, where all trains are met by first-class Concord coaches in charge of competent drivers. The distance to be traveled is abt. 75 m. each way.

Yostville, Pa., p.o., Lackawanna co.

Ypsilanti, Dak., p.o., Stutsman co.

Ypsilanti, Mich., a city✱ and tp., Washtenaw

co., on both sides of Huron R., here spanned by 2

fine iron bridges, at the junction of I.S.&M.S. and

M.C.R.Rs., 30 m. W. of Detroit and 46 m. E. of Jack-

son. It has a high school, the State normal school,

several capacious public halls, an efficient fire depart-

ment, a nat. and another bank, 3 wkly papers, sev-

eral planing-mills, 4 large paper-mills, a carriage

factory, 2 whip-socket manuf., &c. It is surrounded

by a productive farming region, and has considerable

trade. Pop. 6,377; of tp. 6,443.

Yreka, Cal., city✱ and tp., cap. of Siskiyou co.,

on a creek of the same name, in the Shasta Valley,

on the line of the Overland Stage road, 115 m. from

Redding and 25 m. S. of the Oreg. State line. It is

one of the oldest places in that section of the

State, having been laid out in 1851, and its pop.

increased rapidly, owing to the richness of its placer

diggings which are still profitably worked. It is the

main point of supply for the northern part of the

State, and has a Catholic seminary, a bank and 2 wkly

papers. Pop. 1,059; of tp. 2,656.

Ysleta, Tex., p.v., cap. of El Paso co., on Rio Grande, 6 m. S. of Fort Bliss. Pop. 1,453.

Yuba, Cal., a river formed by the confluence of the N., Middle and S. forks. The former runs through Sierra co., the Middle fork forms the boundary between Sierra and Nevada cos., and the latter traverses Nevada co. The three forks flow through deep, canon-like gorges. The united stream joins Feather R. at a point just below Yuba City.

—a N.E. co., bounded S. by Bear R., W. by Feather R., and intersected by Yuba R., a tributary of the latter; area, 700 sq. m. The N.E. portion lies in the foot hills and lower slopes of the Sierra Nevada; the rest of the co. is occupied by the extensive and fertile valleys of the streams. There is some mining. The chief prod. in 1880 were 218,458 bush. of barley, 359,967 of wheat, 23,210 of oats, and 12,220 of corn; butter and wool are also staple prod. Cap., Marysville. Val. of taxable prop. abt. \$5,000,000. Pop. 11,279 (of whom 4,258 for., 249 colored, 2,149 Chinese, and 67 Indians).

—tp., Yuba co. Pop. 1,304.

Yuba, Mich., p.o., Grand Traverse co.

Yuba, Wis., p.h. in Henrietta tp., Richland co., 18 m. from Richland Centre, and 16 m. S.W. Woneuc Station. Pop. 50.

Yuba City, Cal., p.v.♦, cap. of Sutter co., on Feather R., opposite mouth of Yuba R., 11 m. N. of Wheatland by C.P.R.R. It has 2 wkly papers. P. 600.

Yucatan, Minn., p.tp., Houston co. Pop. 844.

Yukon River, See ALASKA.

Yulee, Fla., p.o., Alachua co.

Yuma, Ariz., a S.W. co., bounded S. by Mex., separated from Cal. and Lower Cal., on the W. by the Colorado R., and intersected by the Gila; area, 29,300 sq. m. The valley of the Colorado is from 2 to 10 m. wide; that of the Gila from 1 to 3 m. These valleys, with irrigation, are very productive. The rest of the co. consists mostly of high table lands, with frequent broken mountains, and is generally destitute of water. A part of the year these table lands are covered with grass. The climate in summer is very hot and dry; in winter it is mild and healthful. Gold, silver, copper and lead are found in lodes near the Colorado, and there are extensive deposits of copper along the S. border. Cap., Yuma. Val. of taxable prop. abt. \$1,000,000. Pop. 3,215 (of whom 1,325 for. and 654 Indians).

—p.v.♦, cap. of above co., at the confluence of Colorado and Gila Rs., opposite Fort Yuma, and on the S.P.R.R., 247 m. W.N.W. Tucson and 249 m. S.E. Los Angeles, Cal. It has a fine court-house and jail, a good public school, a wkly paper, 2 hotels, and several large mercantile houses. Principal business, trade with the interior, mining and navigation. P. 1,200.

Yuma, Kan., p.o., Cloud co.

Yumas, a tribe of Indians, settled on both sides of the Colorado R., near its junction with the Gila, calling themselves the "Sons of the River." They are also termed Cuchans. Since they came under the dominion of the U. States they have been faithful to the Americans with the exception of a short rising in 1853; but owing to the vicinity of Fort Yuma, the women have been completely debauched, so that the whole tribe is now diseased and rapidly dying out. Their number is actually scarcely 900.

Zane, O., tp., Logan co. Pop. 939.

Zanesfield, O., p.v.♦ in Jefferson tp., Logan co., on Mad R., 3½ m. E. by S. from Bellefontaine. Pop. 307.

Zanesville, Ill., v. and tp., Montgomery co., 15 m. N.W. Hillsborough. Pop. 86; of tp. 1,057.

Zanesville, Ind., p.v. in Lafayette tp., Allen co., and Union tp., Wells co., 6 m. W. of Sheldon Station. The p.o. is in Wells co. Pop. 228.

Zanesville, O., a city♦, cap. of Muskingum co., on Muskingum R., opposite the entrance of Licking R., and on B.&O. and P., C.&S.T.L.R.R.s., 16 m. S.W. Dresden and 168 m. N.E. Cincinnati. The Muskingum, here crossed by 4 bridges, is navigable for steamboats from its mouth to Dresden, 15 m. above Zanesville, where is a navigable side cut of abt. 2½ m., to the Ohio Canal. Steamers run regularly from Zanesville to Dresden, and others of larger size ply on the Muskingum and Ohio Rs., between this place and Pittsburg, Cincinnati and New Orleans. The city is well built, with wide regular streets, lighted with gas, and has water-works costing abt. \$500,000, street railroads, a paid fire department, and a stone court-house costing \$300,000. There are 23 churches, a high school and 18 ward school buildings, the Putnam female seminary, with a library of 2,500 volumes, a German and 2 Roman Catholic schools, 2 nat. and 2 other banks, 2 daily and 5 wkly papers. The Zanesville Athenæum has a reading room and a library of 6,000 volumes. The chief interest is manufacturing, for which extensive facilities are afforded by the considerable water-power in the rivers, and an abundant supply of bituminous coal in the hills which surround the city, rendering steam power cheaply and easily available. The manuf. embraces furnaces, rolling-mills, stationary and portable engines, castings and hollow ware, burial cases, flooring and roofing tiles, 4 flouring-mills, 2 paper-mills, 4 glass factories, 3 soap factories, 2 woolen and 1 cotton-mill, machine shops of the B.&O.R.R., &c. Pop. in 1870, 10,001; in 1880, 18,113.

Zapata, Tex., a S.W. co., bounded W. by the Rio Grande, which separates it from Mexico; area, 1,290 sq. m. The surface is level or undulating, with hills in the N. part, and the soil in the valley of the river is fertile, producing 63,940 bush. of corn in 1880. The inhabitants, mostly Mexicans, are devoted to stock-raising. Cap., Carrizo. Val. of taxable prop. abt. \$350,000. Pop. 3,634 (of whom 2,303 for., and 9 Indians).

Zapato, Col., p.o., Costilla co.

Zapp, Tex., p.o., Fayette co.

Zavalla, or ZAVALA, Tex., a S.W. co., drained by the Nueces R. and the Red Leona; area, 1,290 sq. m. The surface is level. It has little land suitable for cultivation. Timber and water are scarce. Pop. 410 (of whom 33 for.).

- Zulu, Tex.**, p.o., Hansford co.
- Zuma, Ill.**, tp., Rock Island co. Pop. 692.
- Zumbro, Minn.**, a river, rises by two branches which flow at right angles the one (called Zumbrot) E. through Goodhue co., and the other N. through Olmsted co. They unite in Wabasha co., abt. 3 m. W. of Zumbro Falls. The Zumbro then flows E. and empties into the Mississippi R. near Alma. —tp., Wabasha co. Pop. 838.
- Zumbro Falls, Minn.**, p.v., Wabasha co., on Zumbro R., 11 m. E. of Mazeppa by C., M. & St. P. RR. Pop. 165.
- Zumbro'ta, Minn.**, a river. See ZUMBRO. —p.v. ✕ and tp., Goodhue co., on Zumbro R., at the junction of C. & N. W. and C., M. & St. P. RRs. It has a high school, a bank and a wkly paper. Pop. 797; of tp. 1,701.
- Zuni, N. Mex.**, a range of mountains lying between lat. 35° and 36° lon. 108° and 109° W. Fort Wingate is at its N.W. end, and old Fort Wingate at its S.E. Its length from N.W. to S.E. is 45 m.; its breadth is 20 m. It rises 3,000 ft. above the surrounding country, which has a general altitude of 6,500 ft. Its summit is broadly arched, and is clothed with timber. The proportions and scenery of the range are not imposing, and it is overtopped by the neighboring volcanic peak of Mt. Taylor, but it is of great interest to the geologist on account of its simplicity of structure and isolation. From this range issues the Zuni, a small river, which flows S.W. and joins the Little Colorado in Apache co., Ariz. On the N. side of this river, in Socorro co., N. Mex., is an Indian p.v. noted for the primitive structure of its houses and the pastoral habits of its population, said to number abt. 1,800. There is a Catholic church.
- Zuni Station, Va.**, p.v., Isle of Wight co., on Blackwater R., 18 m. W. of Suffolk by N. & W. RR. Pop. 100.
- Zurich, Kan.**, p.o., Rooks co.
- Zurich, Neb.** (p.o. name BERWICK), h., Hall co., 10 m. W. of Grand Island. Pop. 60.
- Zurich, N.Y.**, p.h. in Arcadia tp., Wayne co., 10 m. S. of Sodas Point by S. B. & S. RR. Pop. 75.
- Zutphen (zit-phen), Mich.**, p.o., Ottawa co.
- Zwingle, Iowa**, p.v. in Otter Creek tp., Jackson co., on the line of Dubuque co., in which the official postal guide places it, on C., M. & St. P. RR., 20 m. S. of Dubuque, and 1½ m. W. of Bellevue. Pop. 65.
- Zyba, Neb.**, p.h., Kearney co., 5 m. W. of Rose-dale. Pop. 50.
